(57) **CLAIM**

The ornamental design for a control handle for a material handling vehicle, as shown and described.

DESCRIPTION

In a preferred embodiment, the nature of this product is as a handle useful for controlling and steering a material handling vehicle.

FIG. 1 is a top, left, front perspective view of a control handle for a material handling vehicle embodying our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a left side elevational view thereof, the right side elevational view thereof being a mirror image of the left side shown;

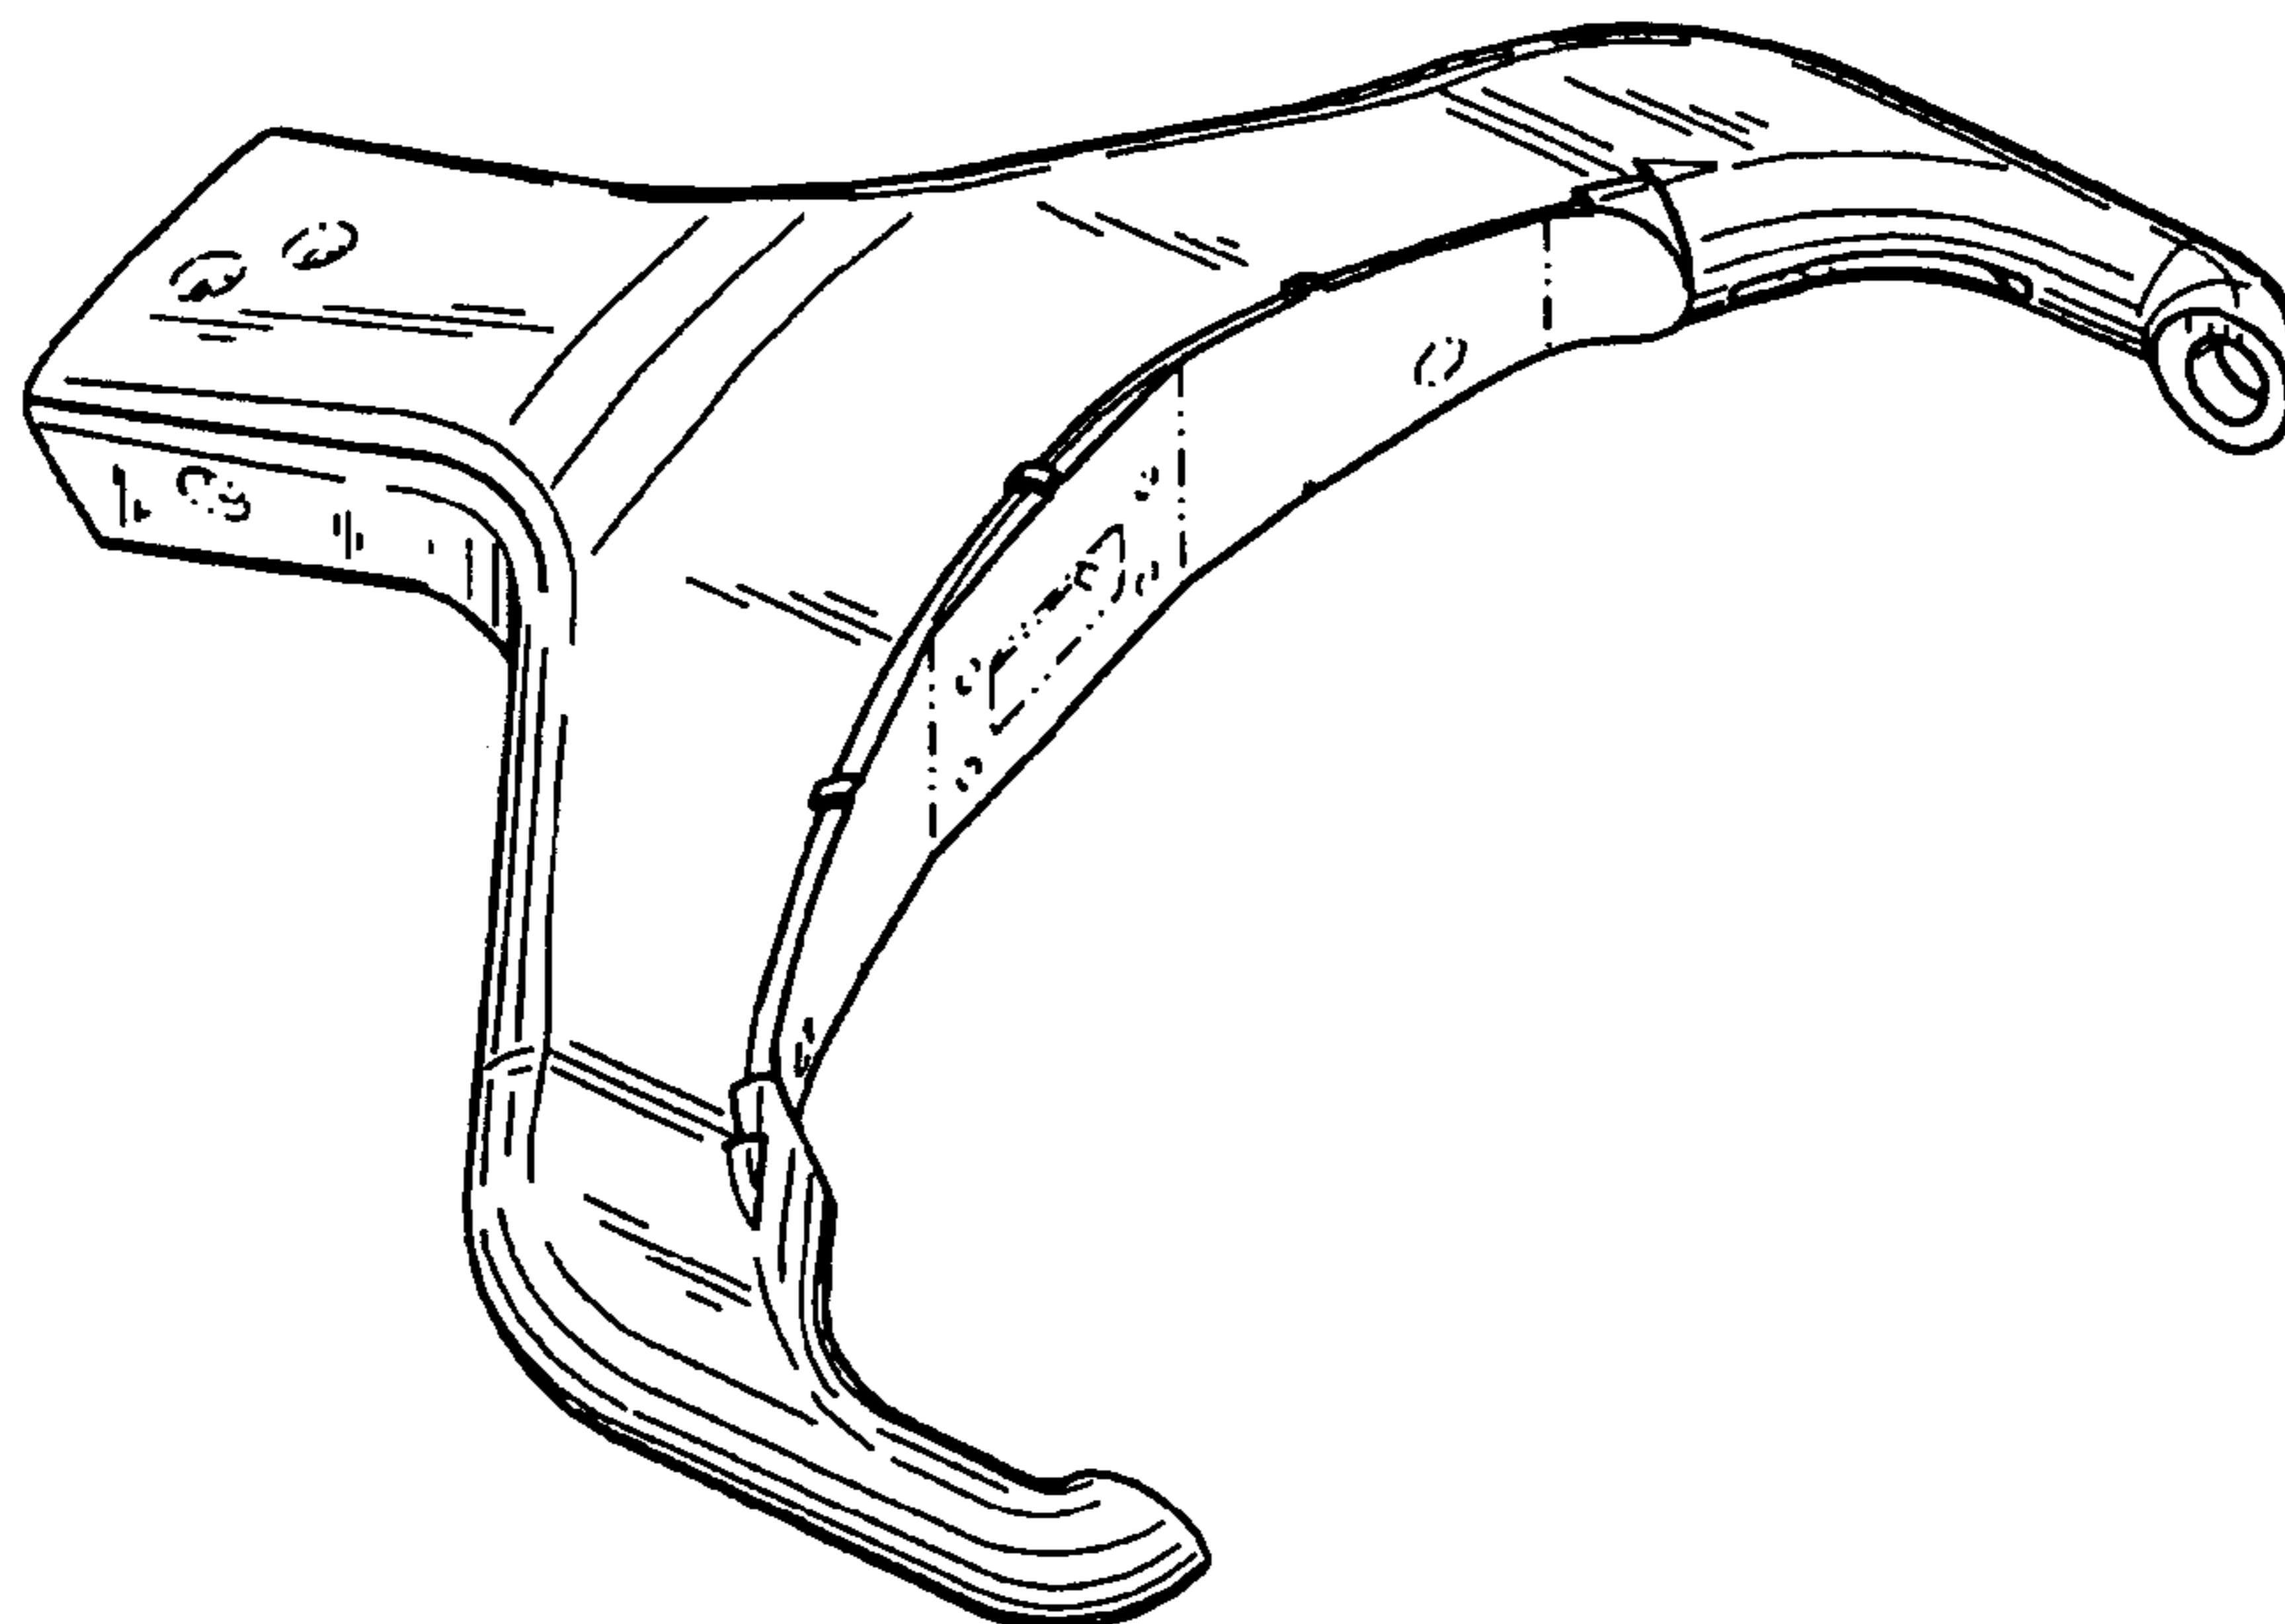

FIG. 4 is a front elevational view thereof;

FIG. 5 is a rear elevational view thereof; and,

FIG. 6 is a bottom plan view thereof.

The broken line representations of holes in FIGS. 1–6 and of bottom structure in FIGS. 5 and 6 are for the purpose of illustration only, and form no part of the claimed design.
