(57) **CLAIM**

The ornamental design for an extension pole, as shown and described.

DESCRIPTION

This application is being filed contemporaneously with application for U.S. Letters Patent Ser. No. 10/708,856, entitled Extension Pole With Tool Lock and Retraction Dampener, which is hereby incorporated by reference herein.

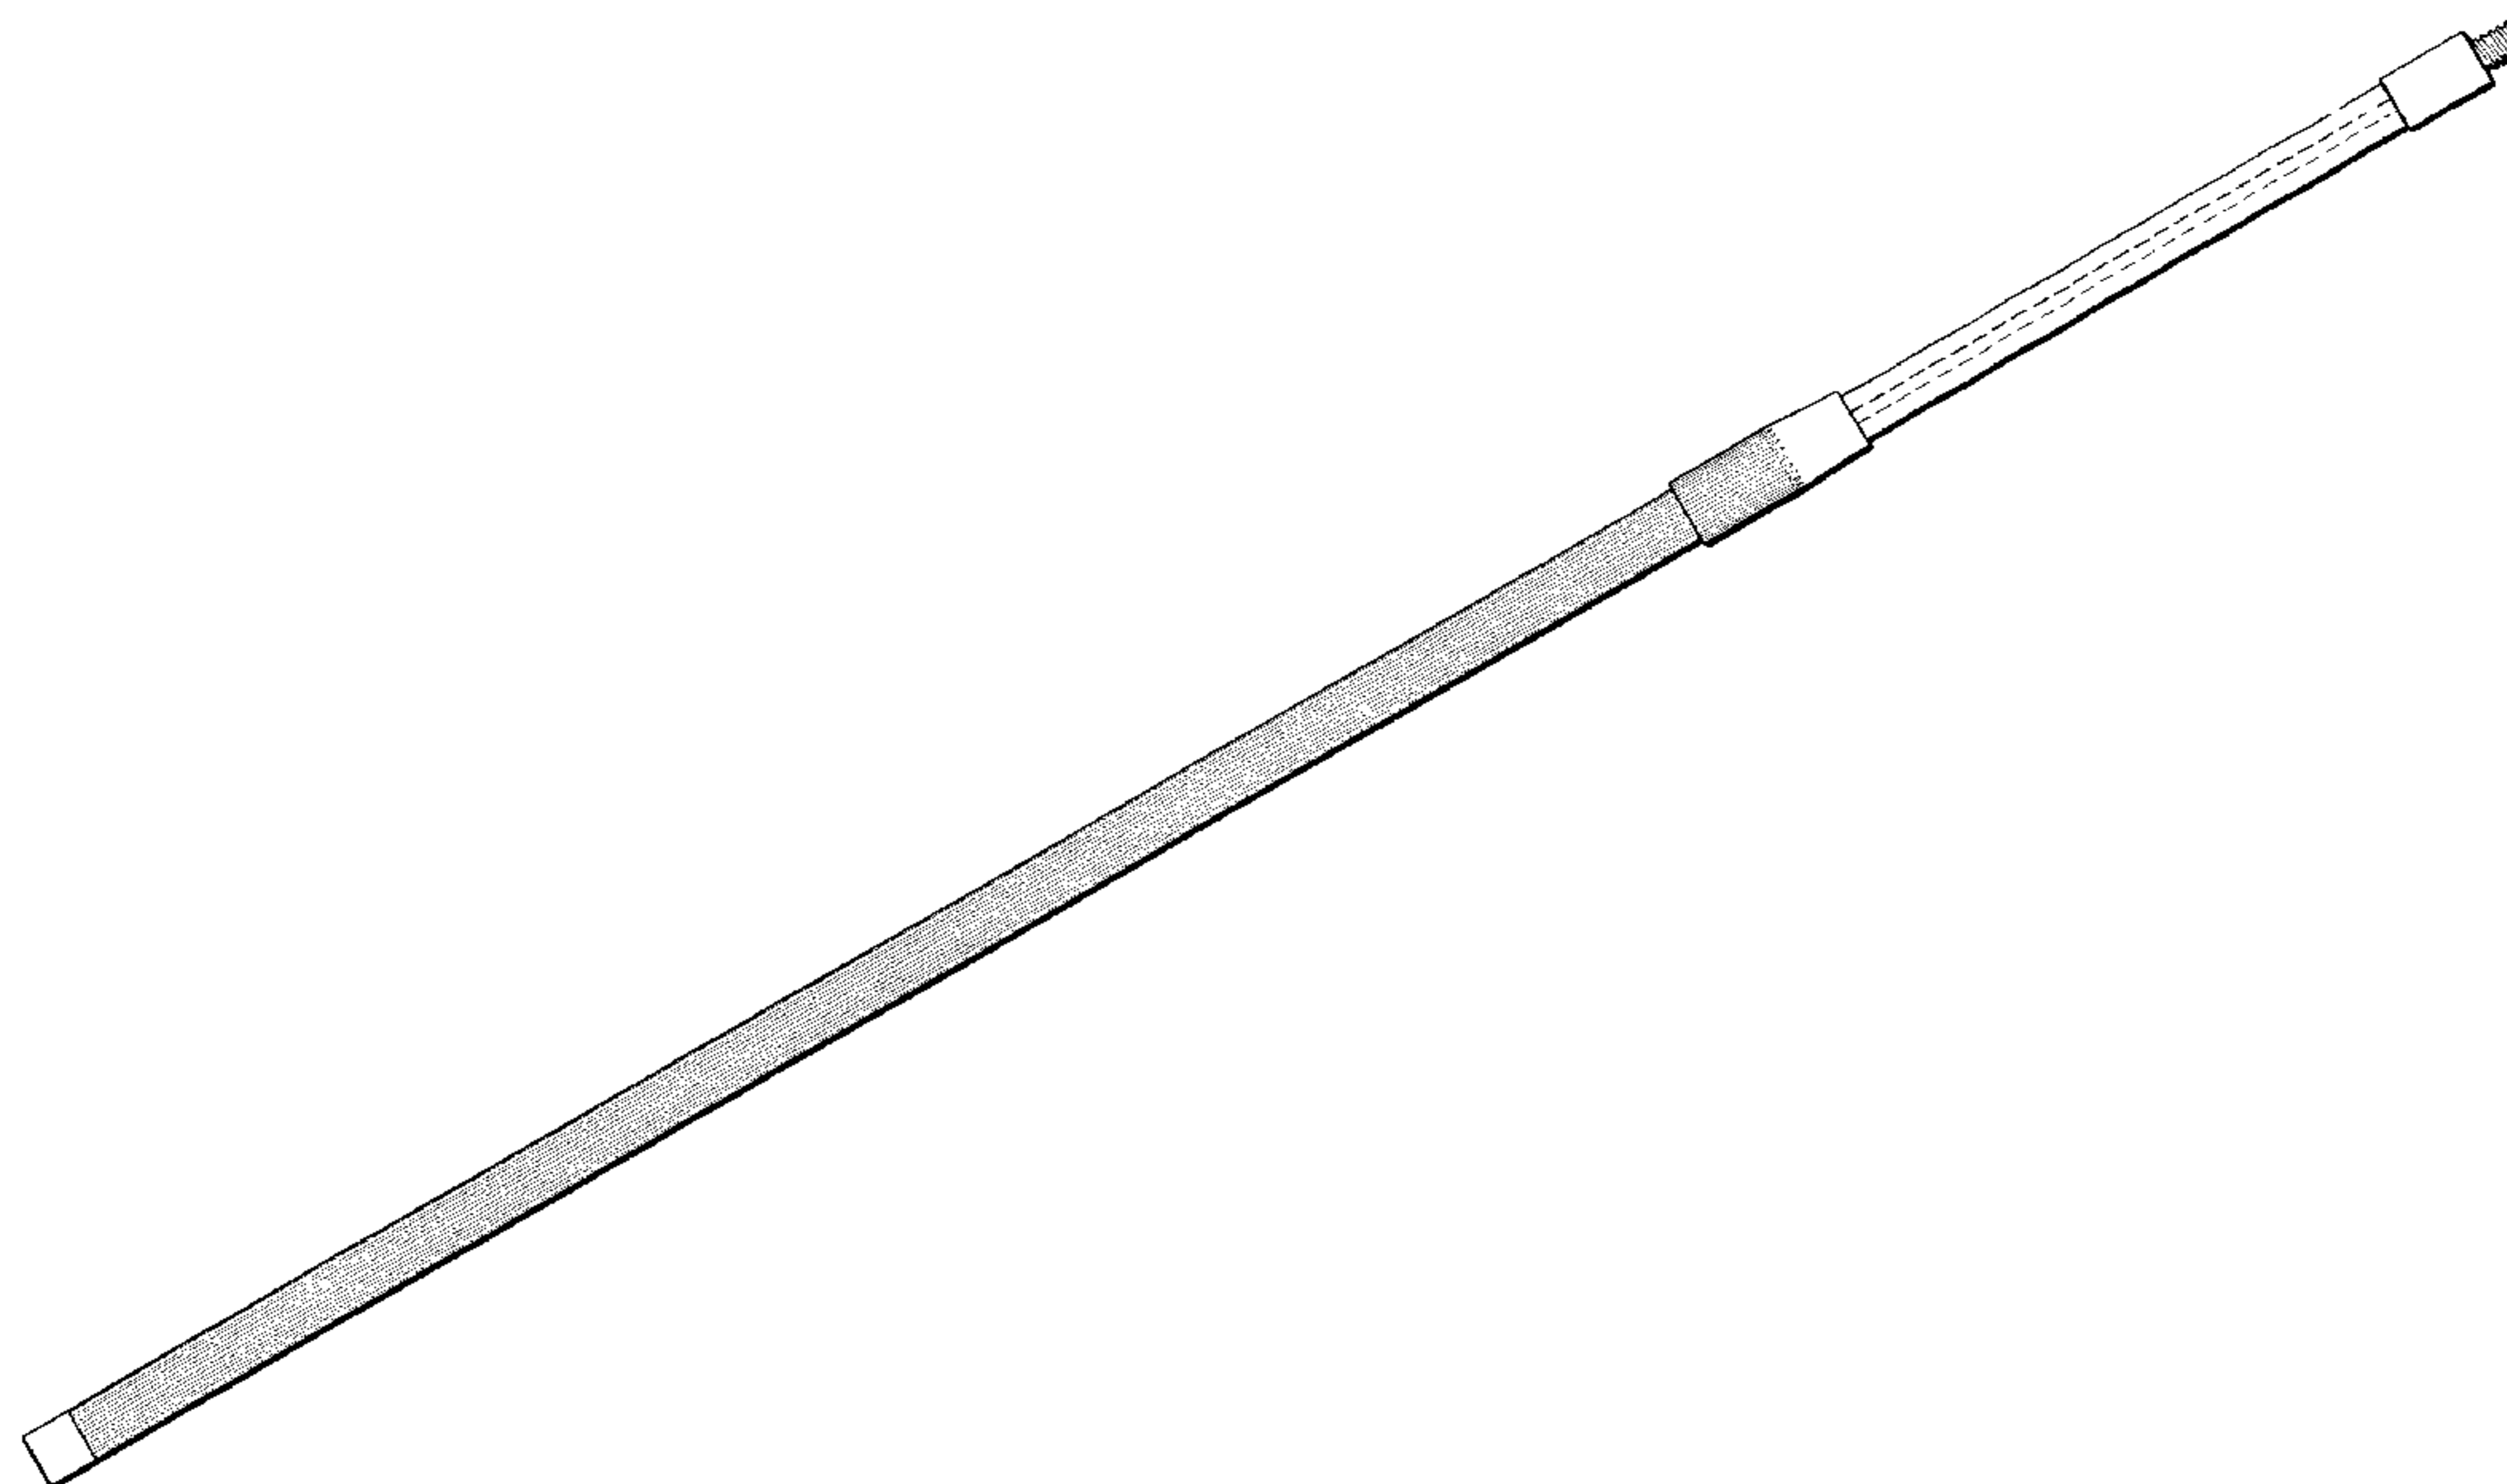

FIG. 1 is a perspective view of an extension pole embodying our design and being depicted in a retracted condition, with the anti-rotational slot on the inner tube being shown in broken lines for illustrative purposes only and forming no part of the claimed design;

FIG. 2 is an enlarged end elevational view of the extension pole depicted in FIG. 1, with a portion of the end cap assembly being shown in broken lines for illustrative purposes only and forming no part of the claimed design;

FIG. 3 is an enlarged end elevational view of the extension pole opposite that depicted in FIG. 2; and,

FIG. 4 is a side elevation view of the extension pole depicted in FIG. 1 but showing the pole in an extended condition.
