(57) **CLAIM**

The ornamental design for a tool tray base for motorcycle seats, as shown and described.

FIG. 1 is a perspective view of a tool tray base for motorcycle seats showing my new design, wherein a motorcycle seat is shown in broken lines for illustrative purposes only to show an example perch therefor and forms no part of the claimed design;

FIG. 2 is an enlarged left side elevational view of the tool tray base for motorcycle seats of FIG. 1 as shown in isolation, the opposite right side elevational view comprising a mirror image thereof;

FIG. 3 is an enlarged rear elevational view thereof, wherein a sectional view of a motorcycle seat, as taken through a vertical plane common with a rear end of the tool tray base, is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 4 is a front elevational view of FIG. 2, wherein a sectional view of a motorcycle seat, as taken through a vertical plane common with a front end of the tool tray base, is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 5 is a top plan view of FIG. 2;

FIG. 6 is a bottom plan view of FIG. 2;

FIG. 7 is a perspective view comparable to FIG. 1 except exemplary tool-tray portions for construction on top the base, as well as a spare selection of exemplary tools like aerosol cans or magnetically-held wrenches, are all shown in broken lines for illustrative purposes only and form no part of the claimed design; and,

FIG. 8 is a bottom plan view comparable to FIG. 6 except exemplary tool-tray portions for construction on top the base are shown in broken lines for illustrative purposes only and form no part of the claimed design.

The broken line boundaries along the top edge form no part of the claimed design.
