(57) **CLAIM**

The ornamental design for an air freshener device, as shown and described.

DESCRIPTION

An air freshener device has a wall socket plug-in portion and a material container designed to fit in a recess of the socket plug in portion.

FIG. 1 is a front and side perspective view of an embodiment of an air freshener device in accordance with the present invention;

FIG. 2 is a back view of an embodiment of an air freshener device in accordance with the present invention;

FIG. 3 is a side view of an embodiment of an air freshener device in accordance with the present invention;

FIG. 4 is a top view of an embodiment of an air freshener device in accordance with the present invention;

FIG. 5 is a front view of an embodiment of an air freshener device in accordance with the present invention;

FIG. 6 is a side view of an embodiment of an air freshener device in accordance with the present invention; and,

FIG. 7 is a bottom view of an embodiment of an air freshener device in accordance with the present invention.
