(57) **CLAIM**

The ornamental design for a pattern for leather sheets.

DESCRIPTION

The new design concerns an embossing pattern for sheets of leather which can be repeated in two dimensions, to confer to otherwise smooth leather sheets an appearance resembling that of natural corrugated leather.

The sole FIGURE is a top plan view of a pattern for leather sheets showing the new design, it being understood that the broken line border surrounding the pattern for leather sheets forms no part of the claimed design.
