(57)**CLAIM**

The ornamental design for a surface configuration of a vehicle, toy, and/or other replicas, as shown and described.

DESCRIPTION

This application is related to the following co-pending application, of the inventor, filed on even date hereinwith: Application Ser. No. 29/227,209, entitled "Surface Configuration of a Rear Fender for a Vehicle".

FIG. 1 is a left, front persepctive view of a surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right, front perspective view being mirror symmetrical;

FIG. 2 is a left, rear perspective view of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right, rear perspective view being mirror symmetrical;

FIG. 3 is a left side view of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design;

FIG. 4 is a right side view of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design;

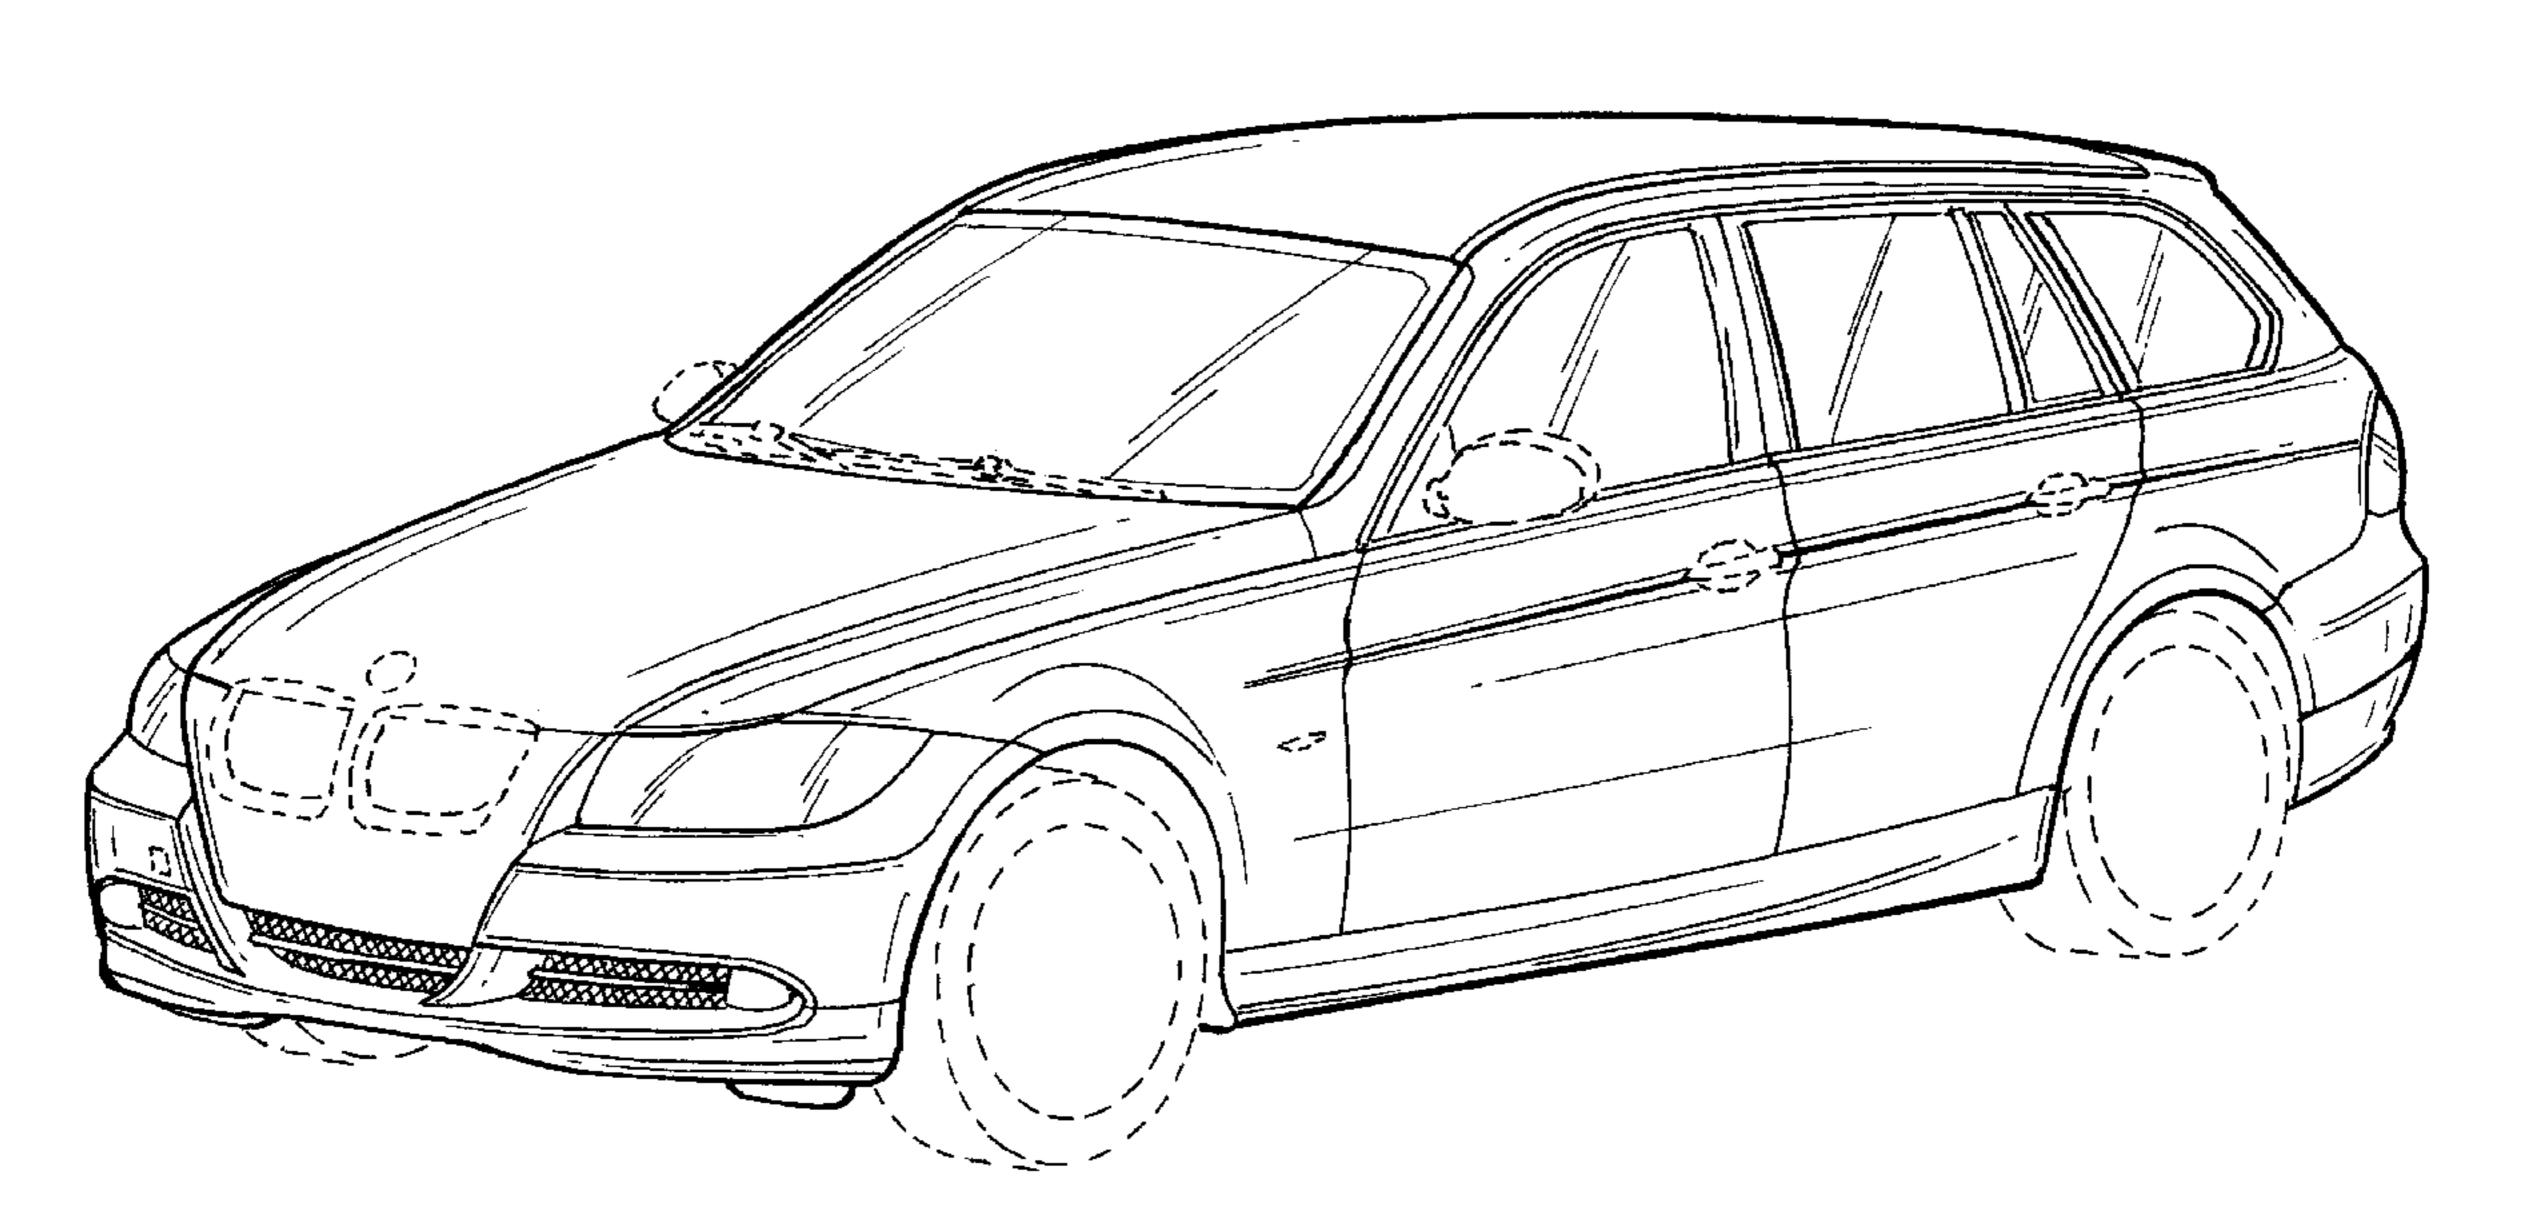

FIG. 5 is a front view of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design;

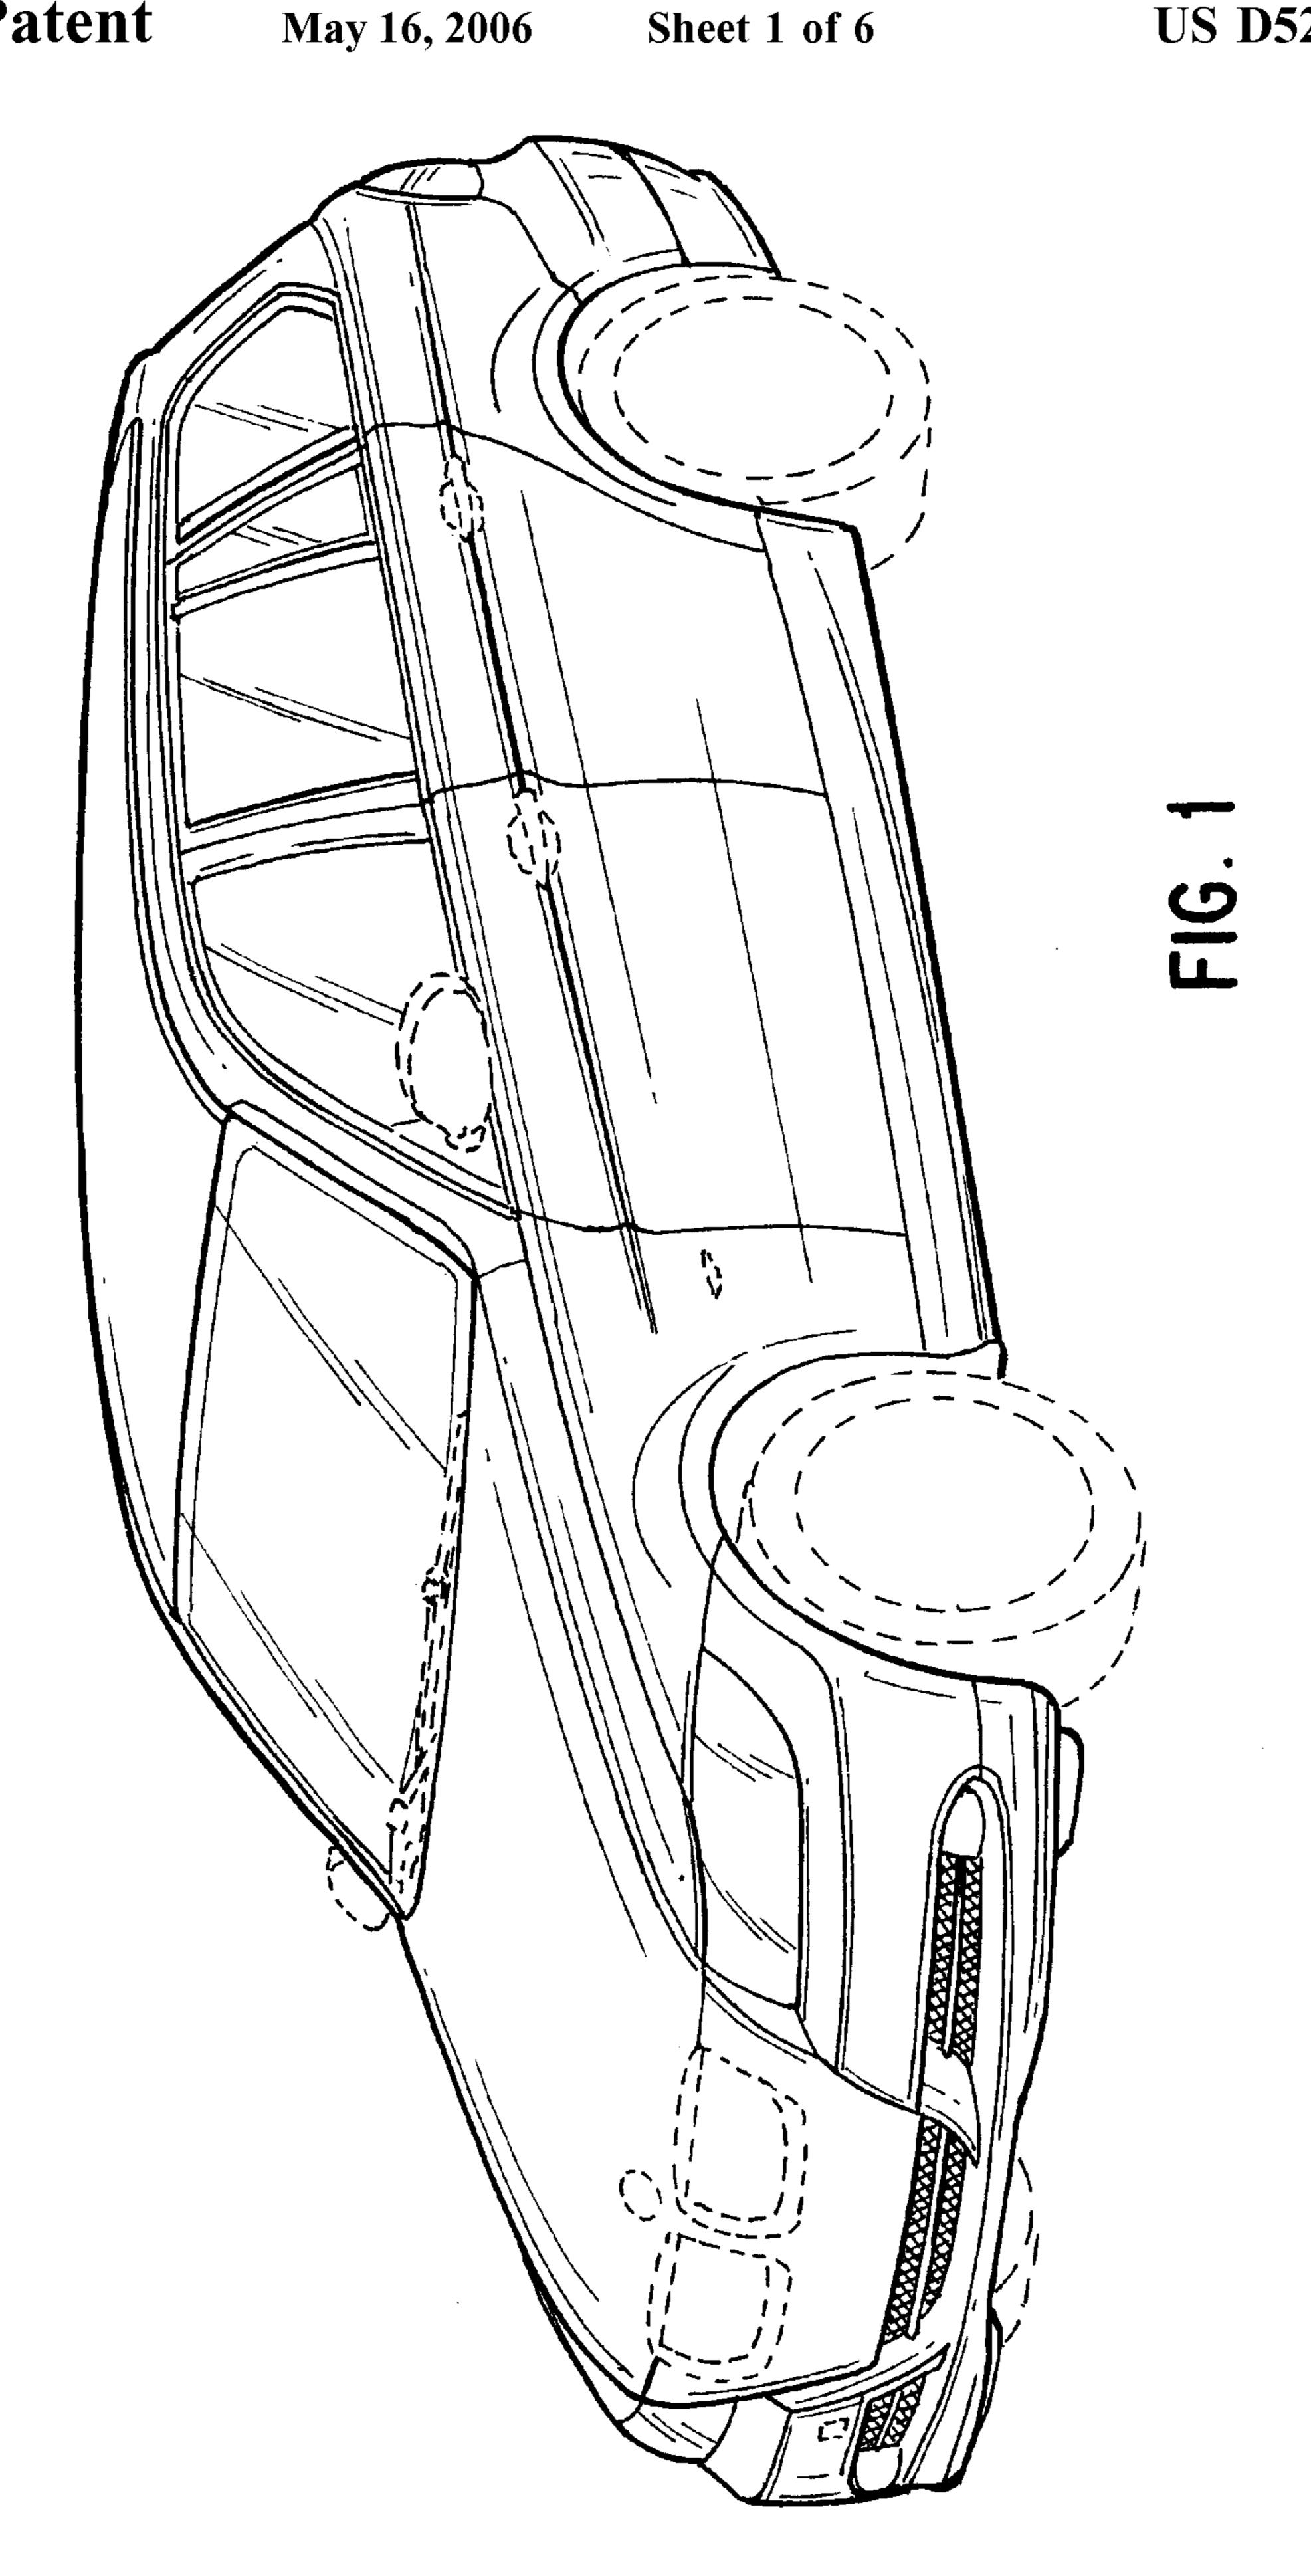

FIG. 6 is a rear view of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design; and,

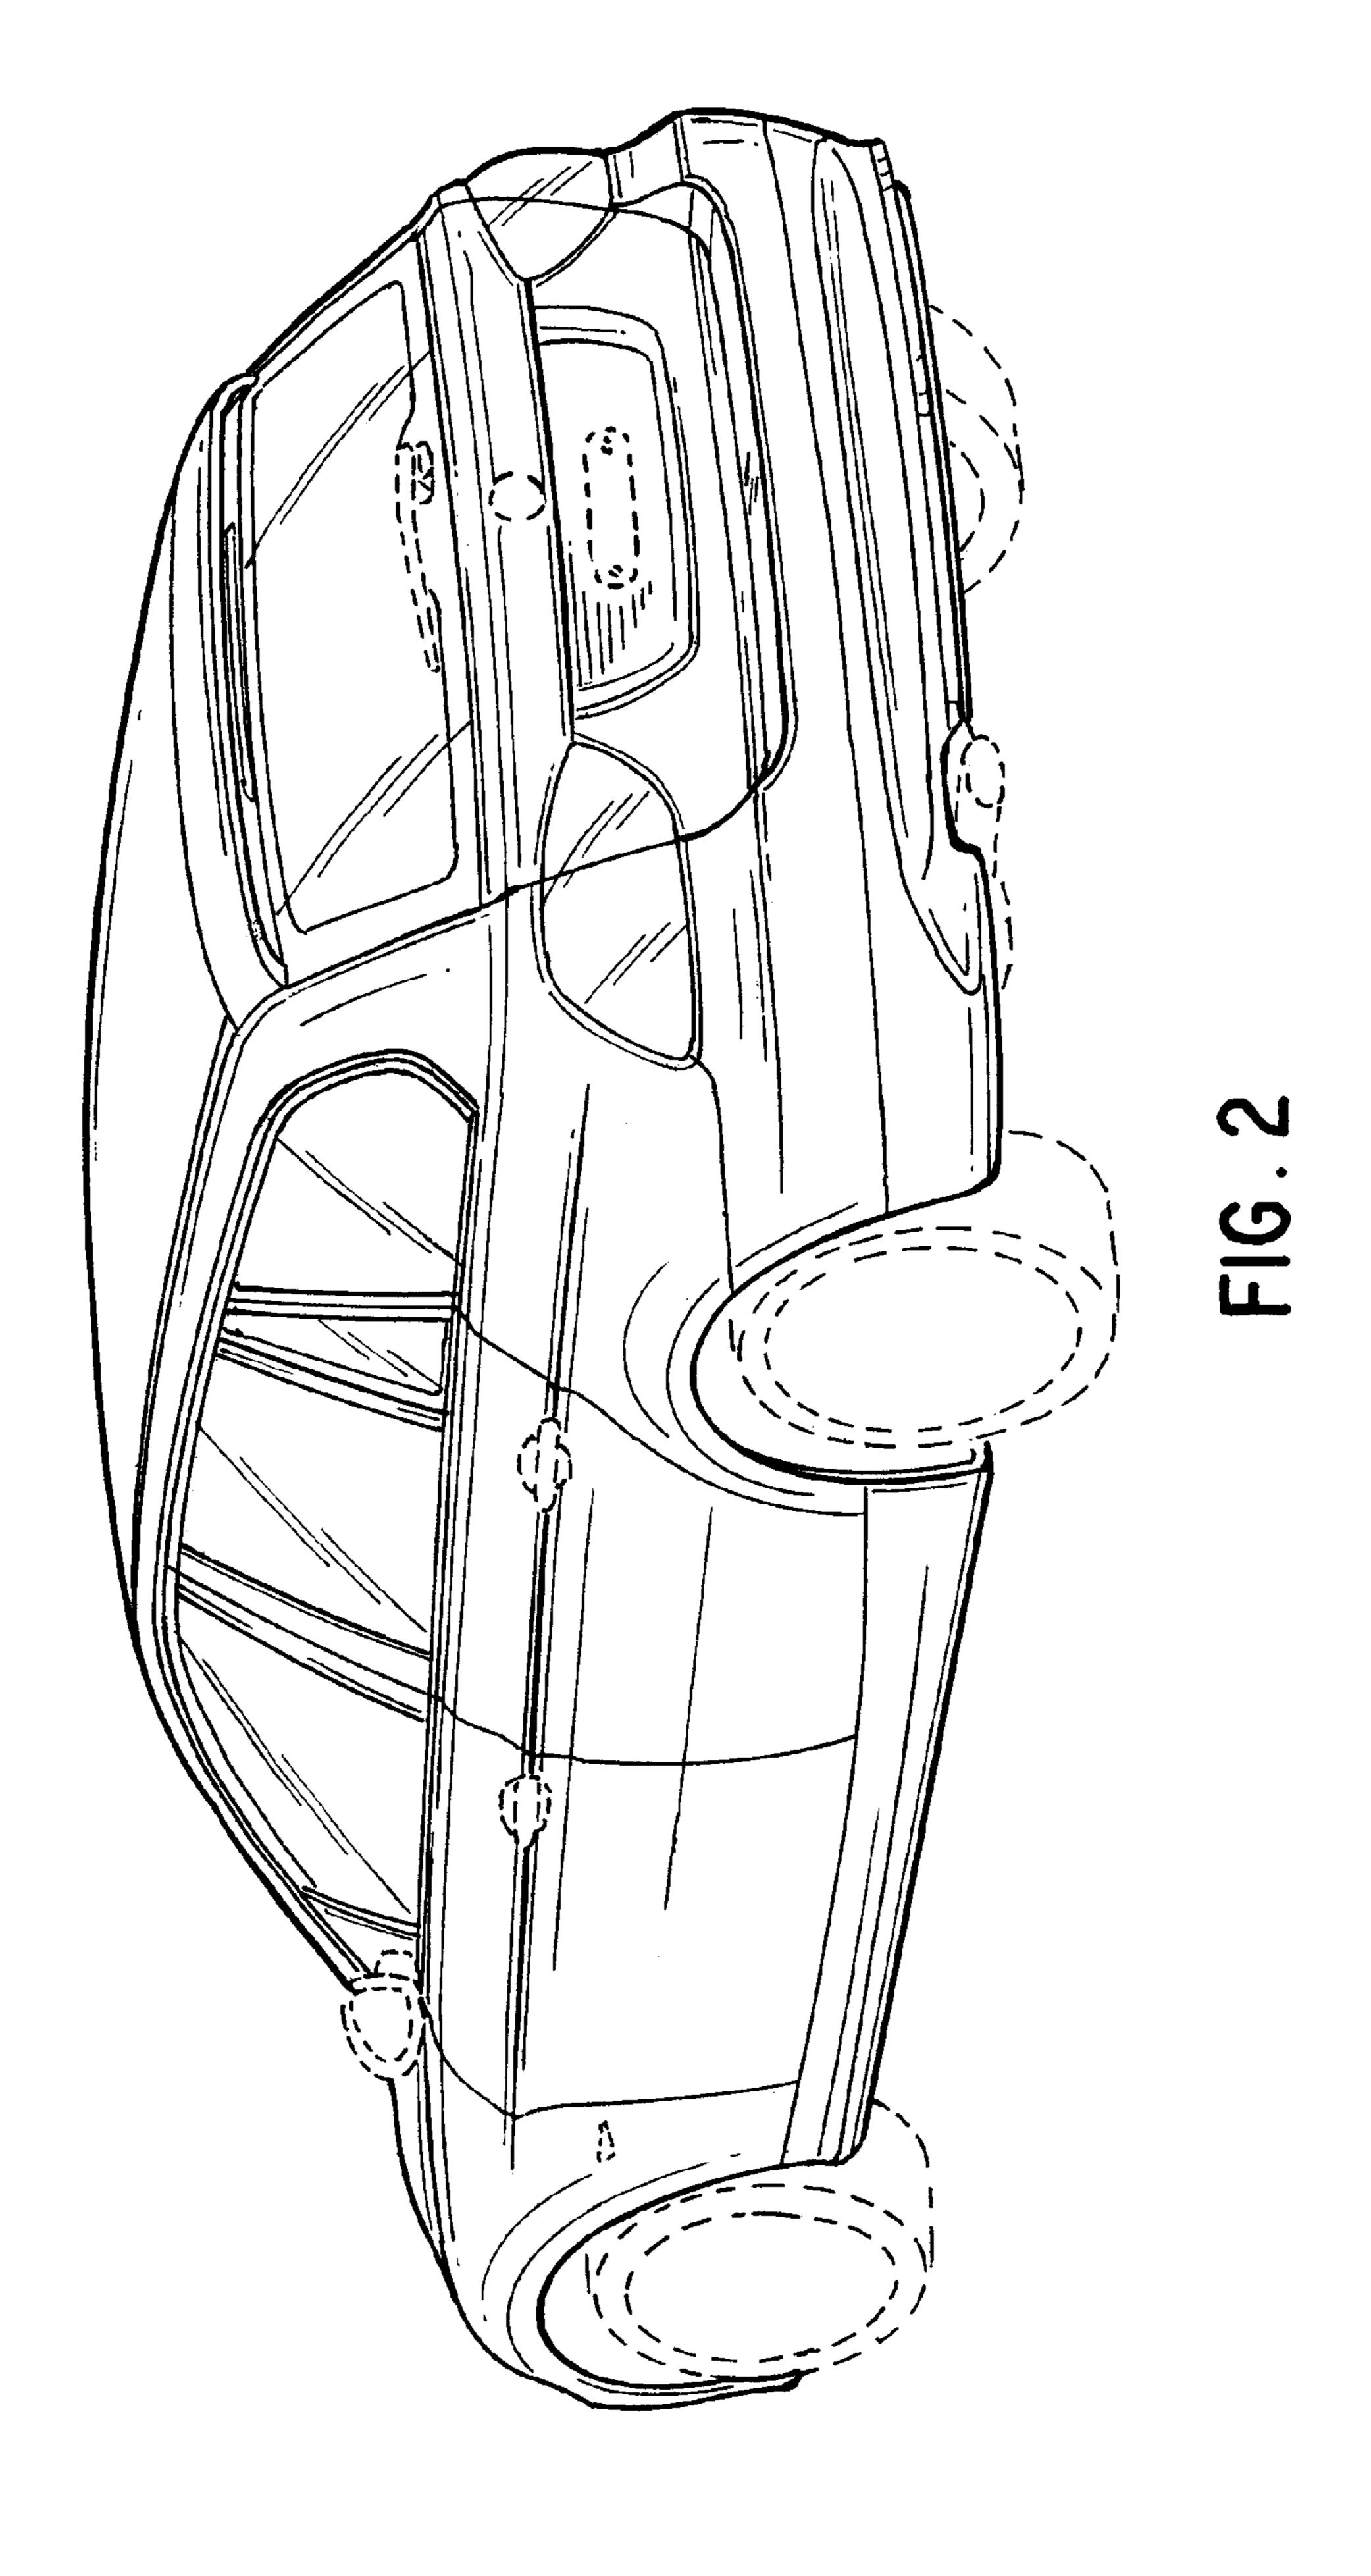

FIG. 7 is a top view of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design.

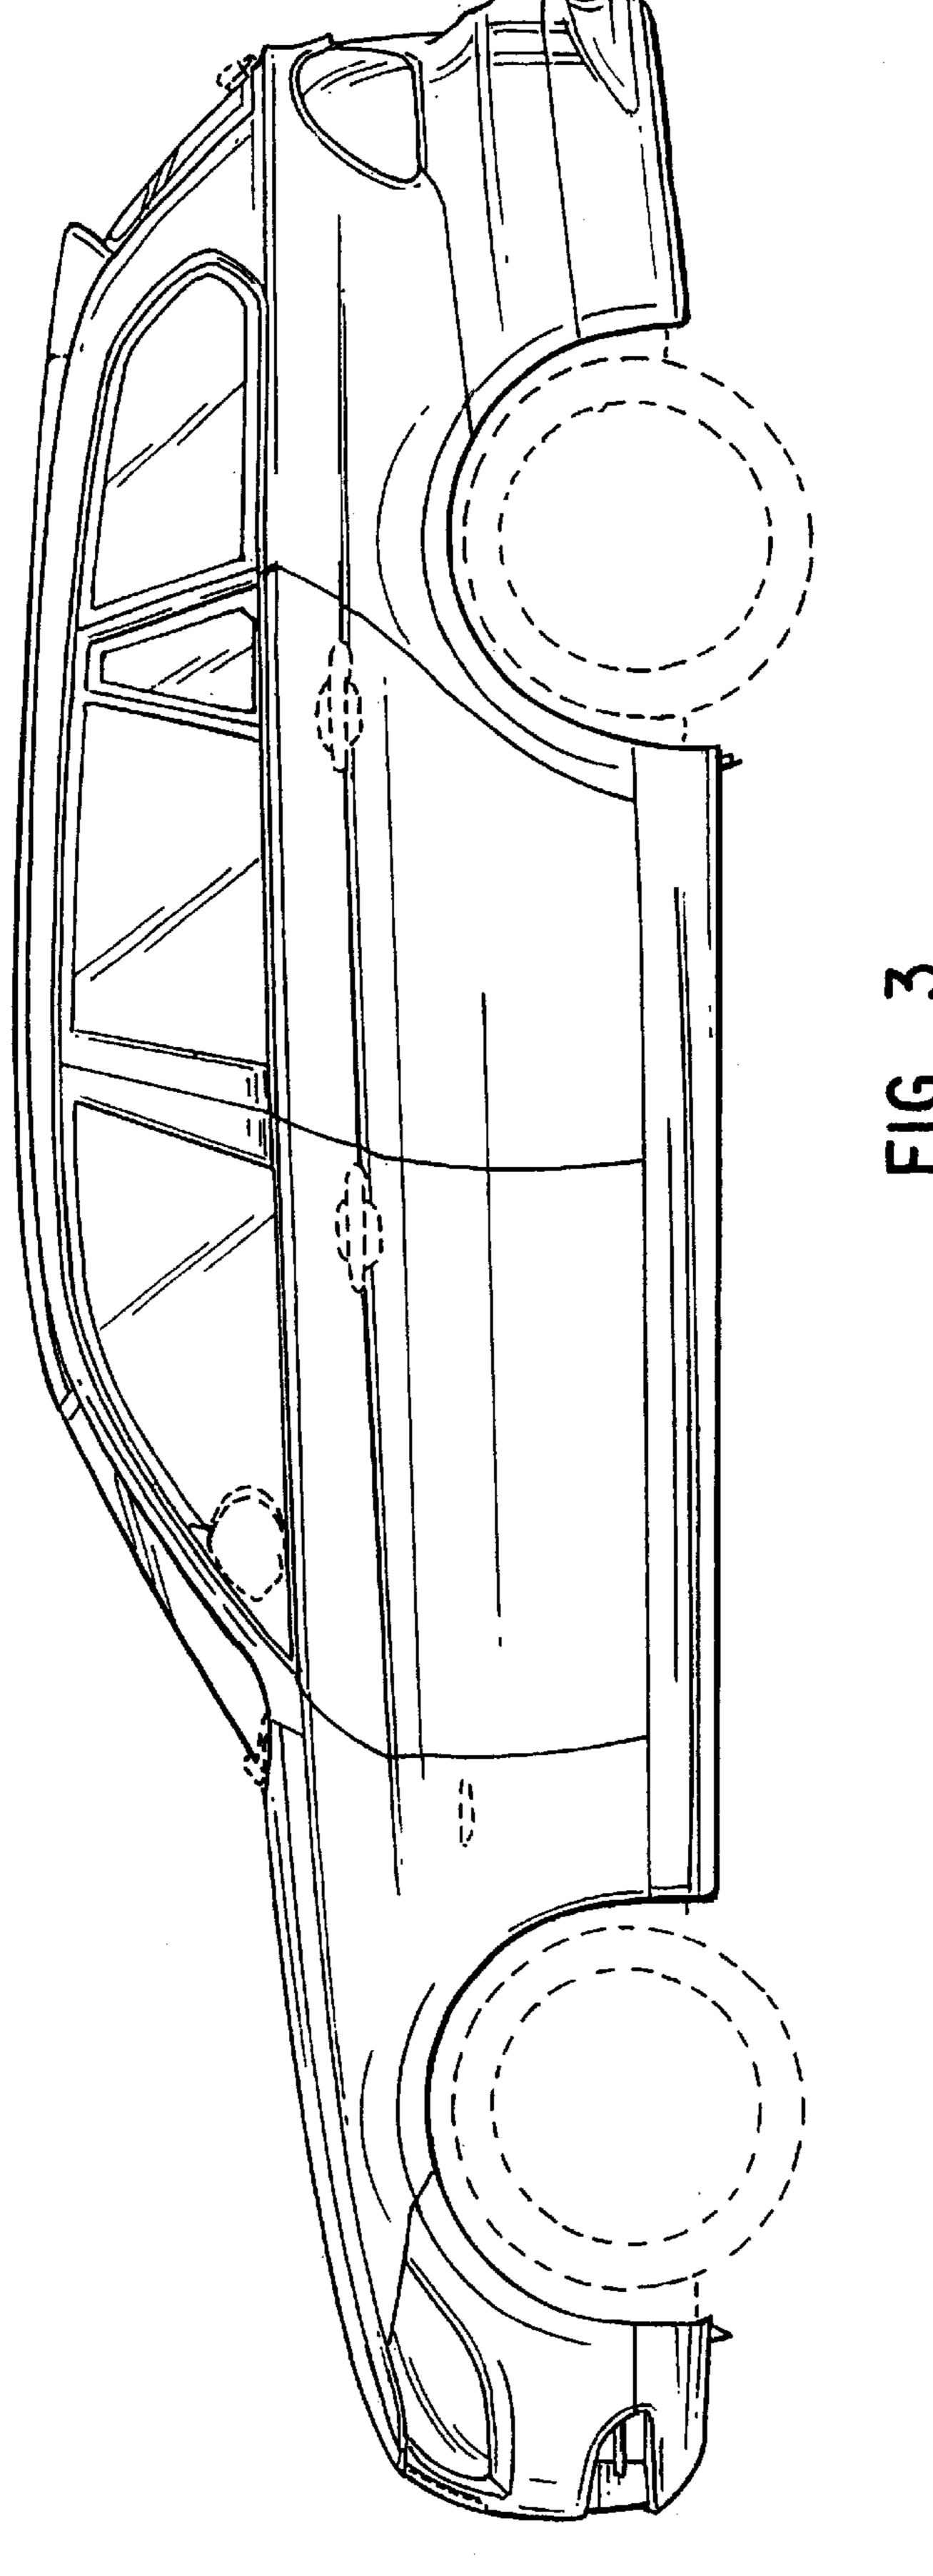

The broken lines are for illustrative purposes only and form no part of the claimed design. Enclosed is a set of photographs of an embodiment of the invention.
