(57) **CLAIM**

The ornamental design for the wall mounting bracket for a defibrillator, as shown and described

DESCRIPTION

The intended use of the wall mounting bracket is to hold a defibrillator, such as an automated external defibrillator, on a wall type surface.

FIG. 1 is a right isometric view of the mounting bracket.

FIG. 2 is a right side view of the mounting bracket.

FIG. 3 is a front view of the mounting bracket.

FIG. 4 is a rear view of the mounting bracket.

FIG. 5 is a top view of the mounting bracket.

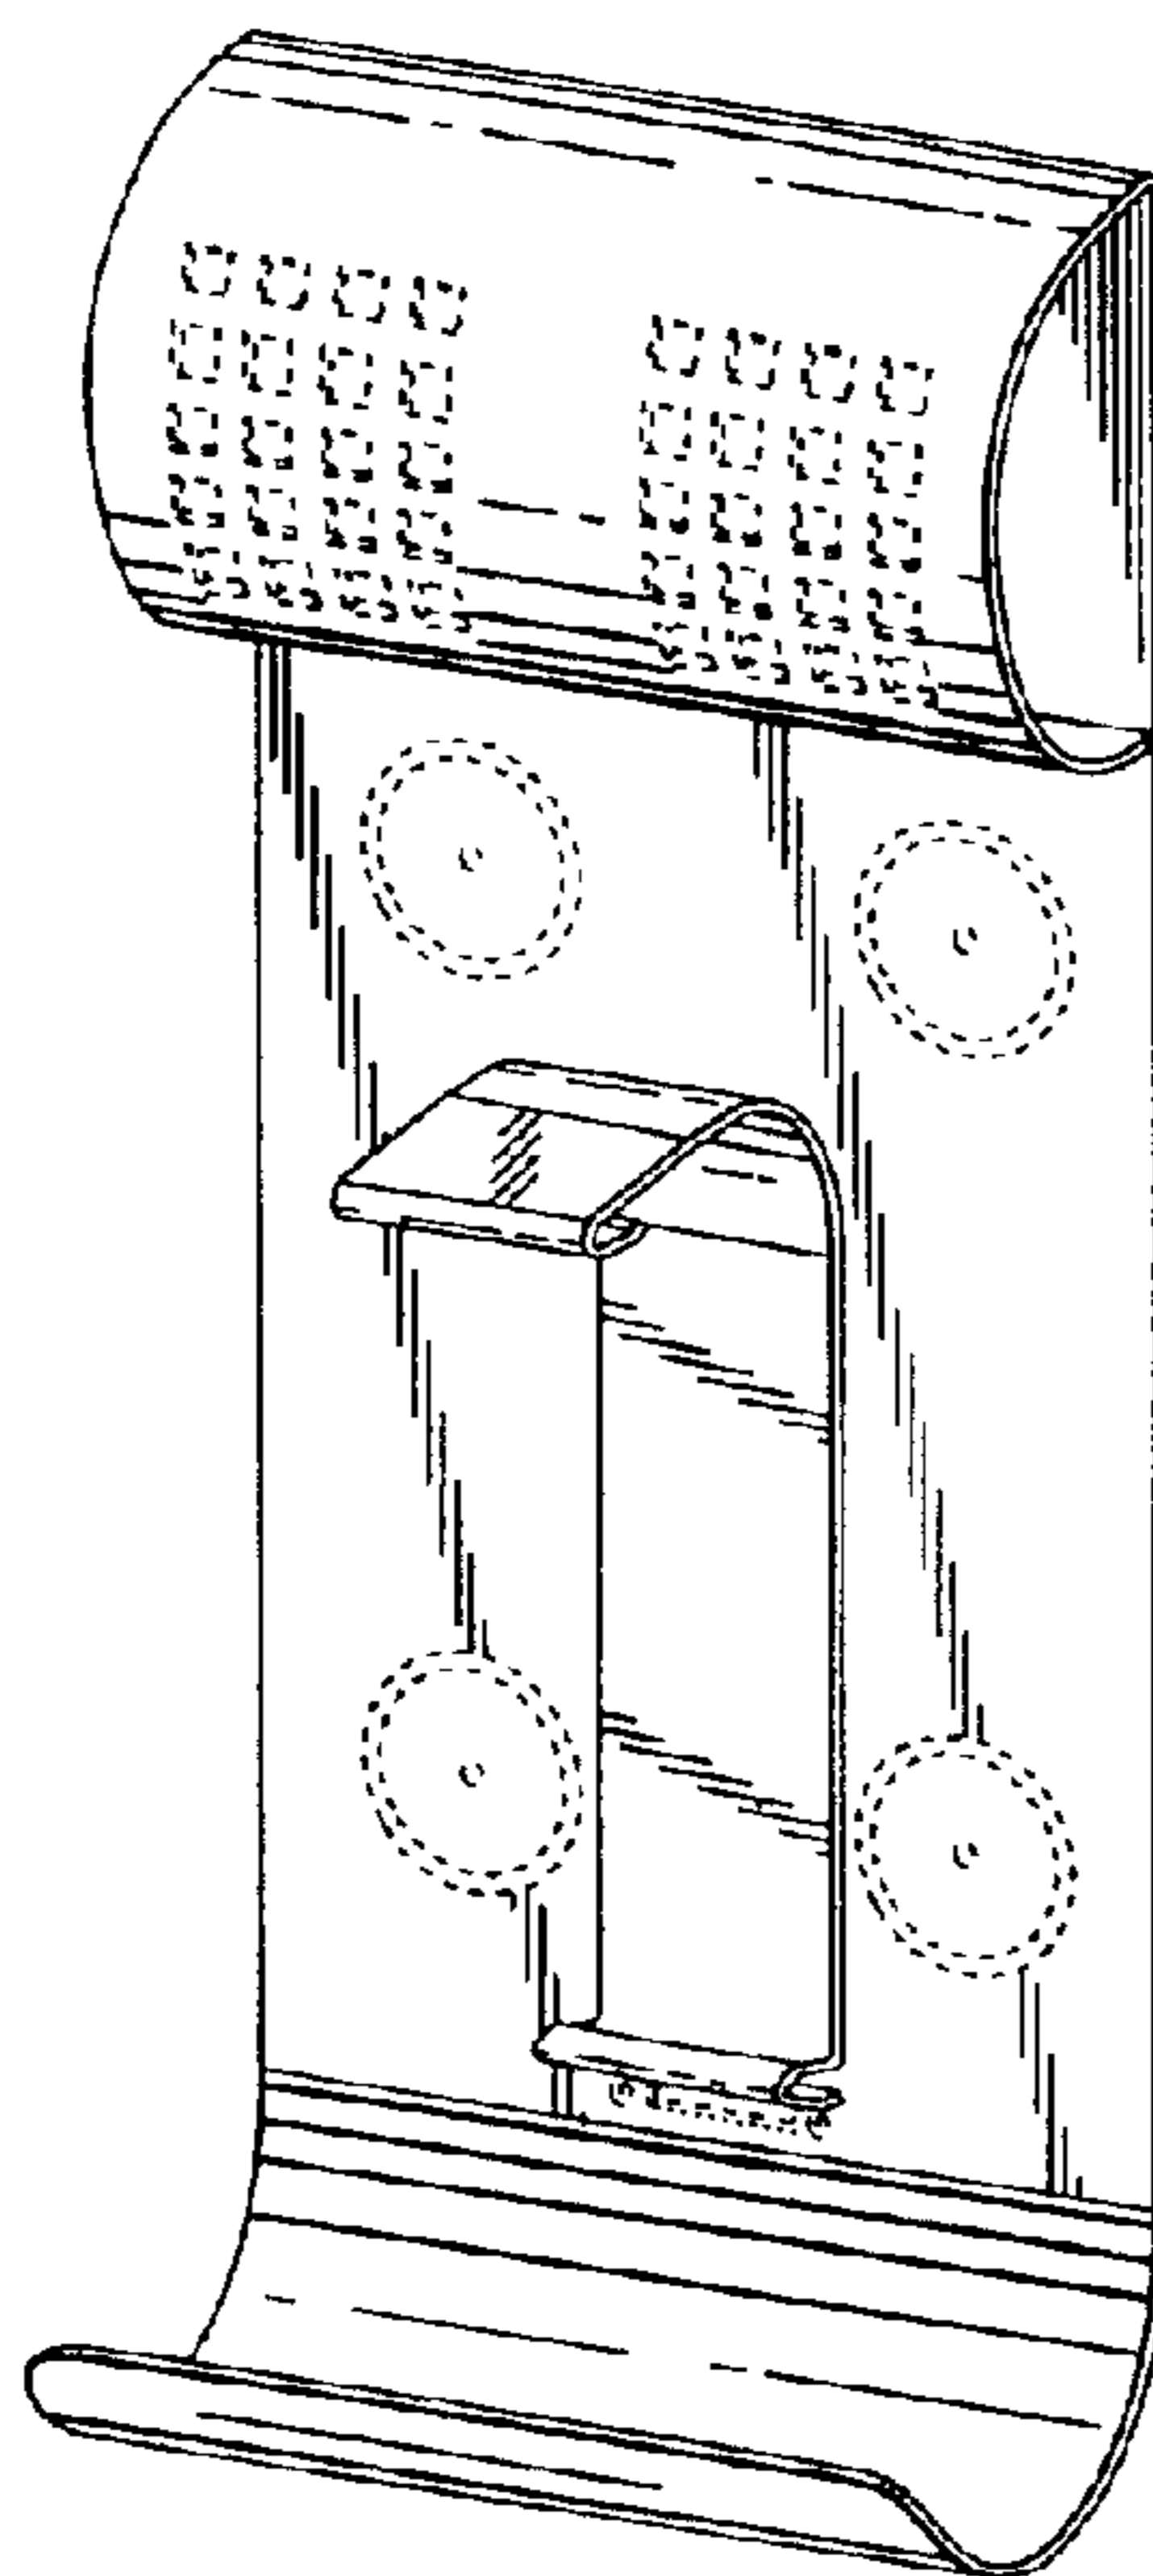

FIG. 6 is a bottom view of the mounting bracket.

FIG. 7 is a right isometric view of an alternate embodiment of the mounting bracket; and,

FIG. 8 is a right perspective view of an alternate embodiment of the mounting bracket.

The broken line showing of structure and a defibrillator is for illustrative purposes only and forms no part of the claimed design.
