(57) **CLAIM**

The ornamental design for a surface pattern for a soft,
flexible disposable wipe, as shown and described.

DESCRIPTION

The FIGURE is a top plan view of a surface pattern for a
soft, flexible disposable wipe showing my new design. One
repeat unit is shown within the broken lines boundaries,
which indicate the design extends indefinitely to the bound-
aries of the product on which it is embodied. The broken line
boundaries form no part of the claimed design.
