FIG. 1 is a perspective view of a master cylinder in accordance with the present invention;

FIG. 2 is a side view thereof, the opposite side view being a mirror image thereof;

FIG. 3 is a top view thereof;

FIG. 4 is a front view thereof;

FIG. 5 is a rear view thereof; and,

FIG. 6 is a bottom view thereof.

The broken lines and surface shading shown in all figures are for illustrative environmental purposes only and form no part of the claimed design. The broken lines immediately adjacent the shaded areas represent the boundaries of the claimed design and form no part of the claimed design.
