(57) **CLAIM**

We claim the ornamental design for the holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera, as shown and described.

DESCRIPTION

FIG. 1 is the front elevational view of the holster for small personal electronic devices such as cell a phone, personal data assistant, flash memory music player or digital camera.

FIG. 2 is the rear elevational view of the holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 1.

FIG. 3 is the left side elevational view of the holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 1 (the right side being a mirror image of the left side view).

FIG. 4 is the top plan view of the holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 1.

FIG. 5 is the bottom plan view of the holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 1.

FIG. 6 is the front elevational view of the holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera wherein the holster is colored black and the tick tac toe shade pattern represents the color gold. FIG. 6 is lined for color.

FIG. 7 is the rear elevational view of the black colored holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 6.

FIG. 8 is the left side elevational view of the black colored holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 6 wherein the holster is colored black and the tick tac toe shade pattern represents the color gold. FIG. 8 is lined for color. (The right side being a mirror image of the left side view).

FIG. 9 is the top plan view of the black colored holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 6; and,

FIG. 10 is the bottom plan view of the black colored holster for small personal electronic devices such as a cell phone, personal data assistant, flash memory music player or digital camera shown in FIG. 6.
