(57) CLAIM

The ornamental design for a configuration of suspension bridge cables, as shown and described.

DESCRIPTION

FIG. 1 is front view of a configuration of suspension bridge cables according to the present invention, the rear view being a mirror image thereof.

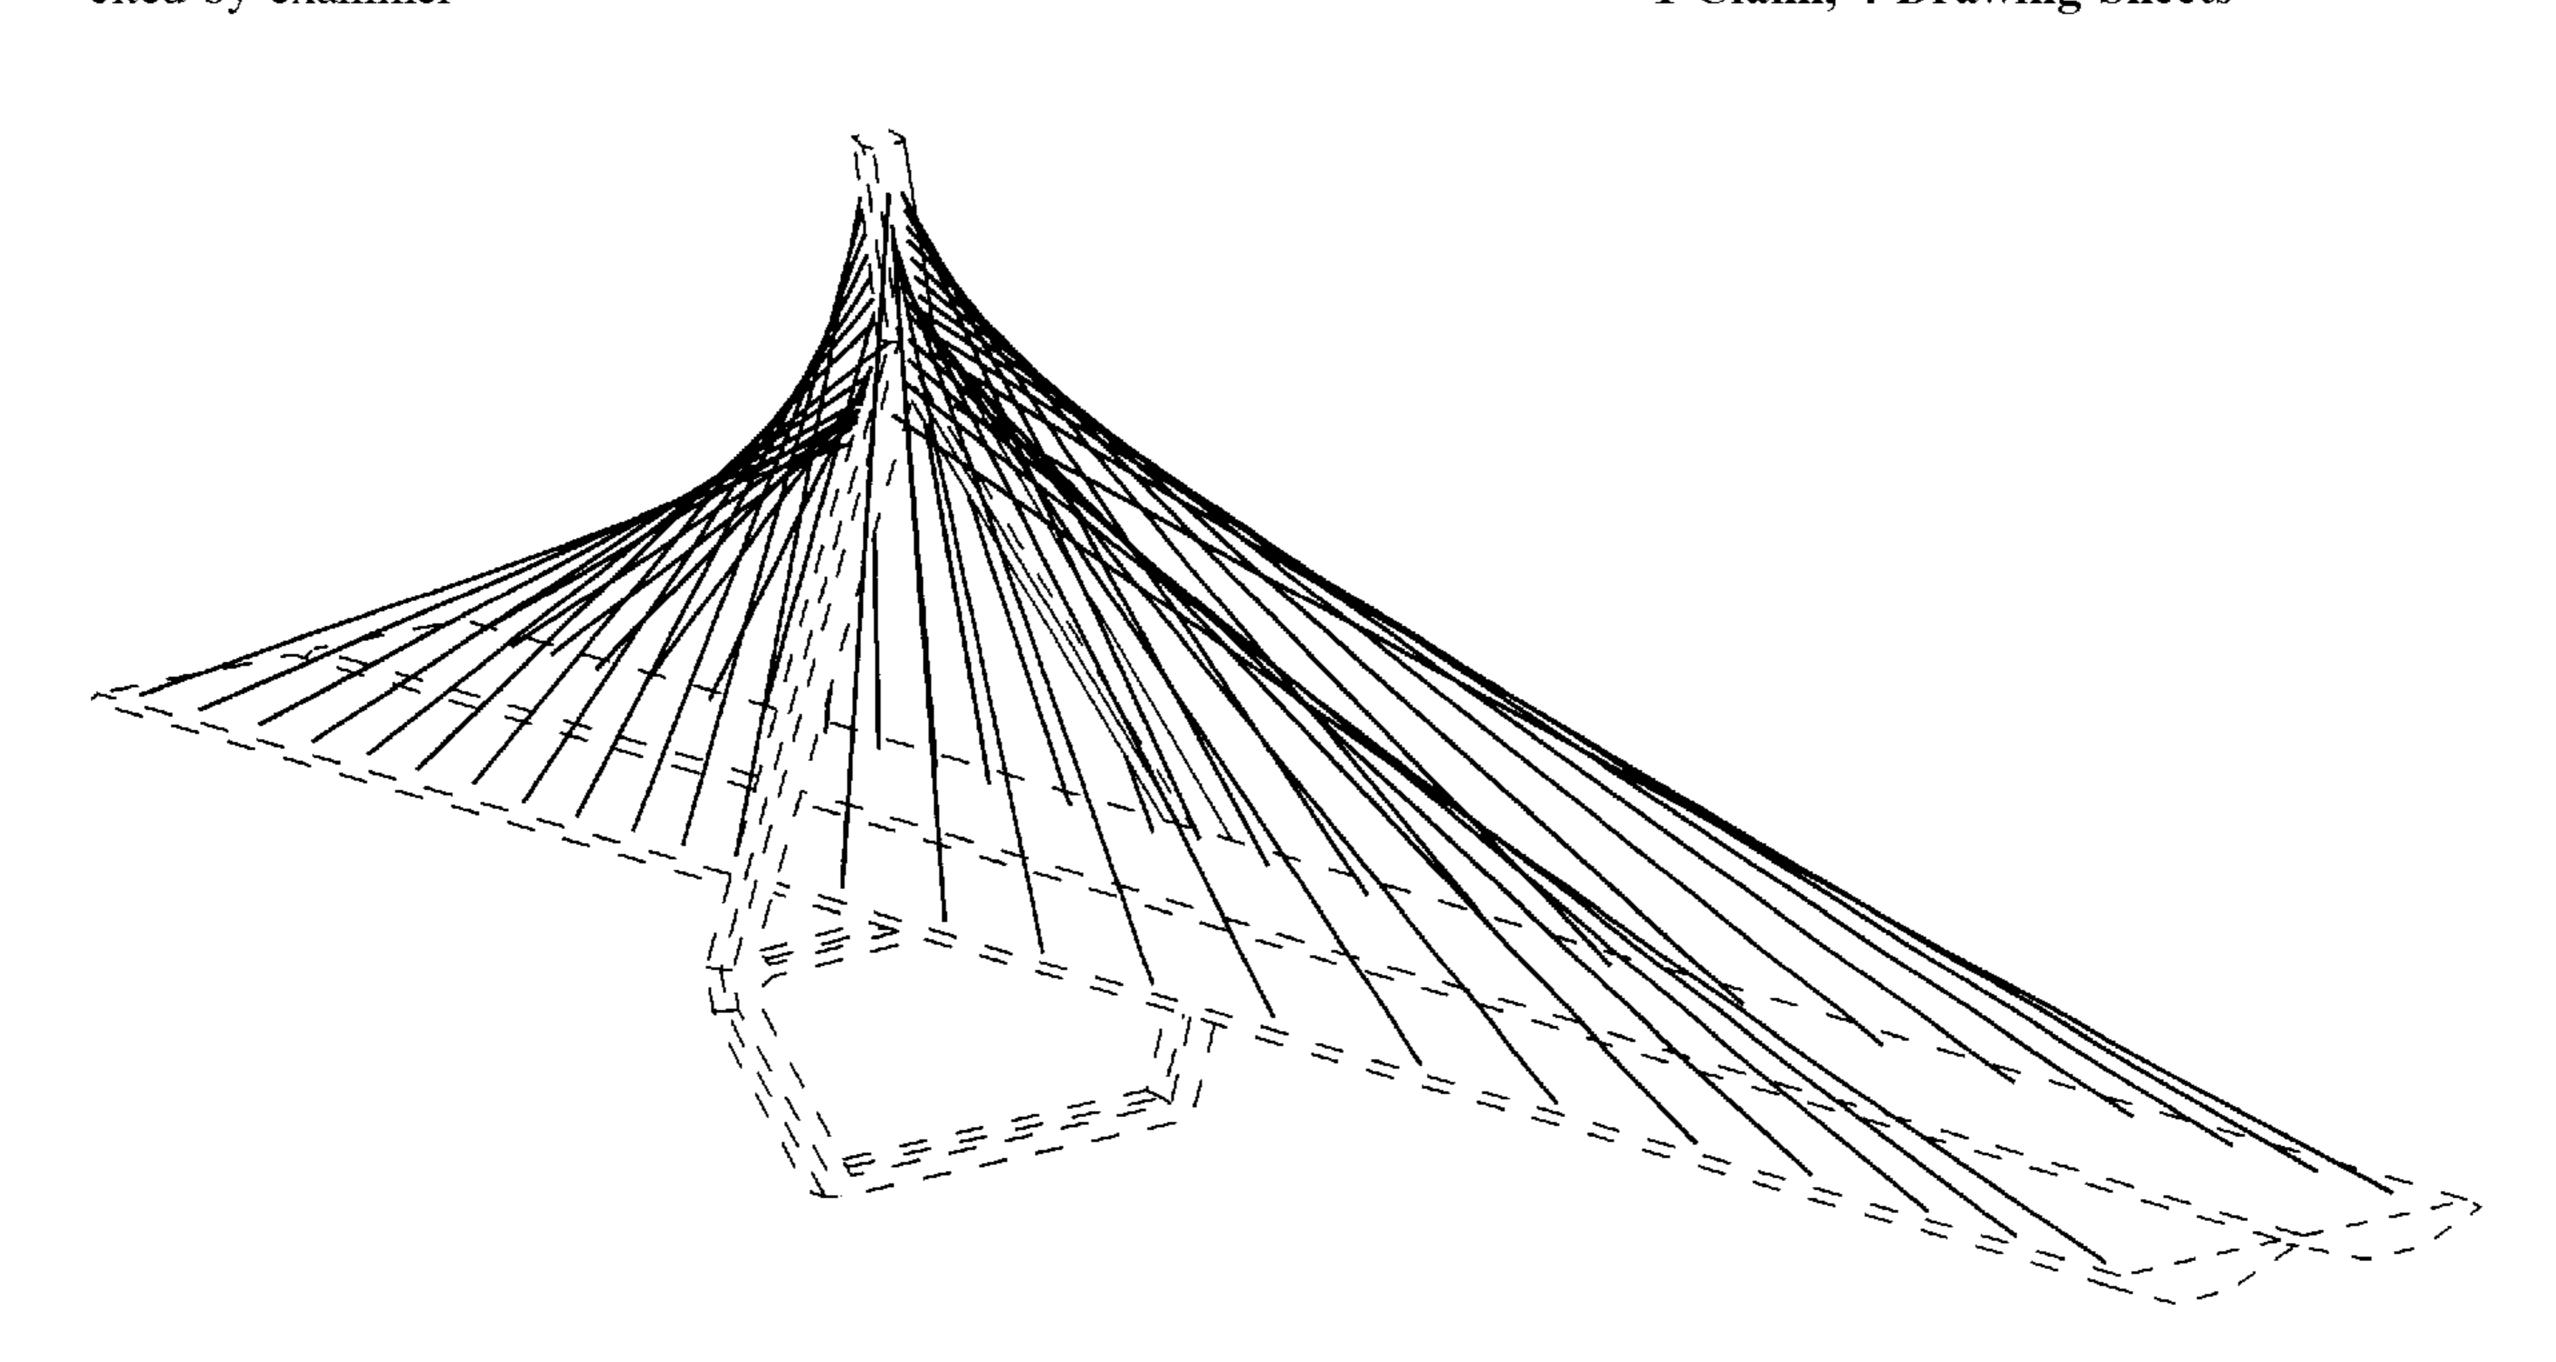

FIG. 2 is a left side view of the configuration of suspension bridge cables depicted in FIG. 1, the right side view being a mirror image thereof.

FIG. 3 is a left side, front and top perspective view of the configuration of suspension bridge cables depicted in FIG. 1; and,

FIG. 4 is a left side, front and top perspective view, from a different angle than that of FIG. 3, of the configuration of suspension bridge cables depicted in FIG. 1.

The broken lines showing the vertical cable support member and the supported highway are for illustrative purposes only and form no part of the claimed design.
