(57)**CLAIM**

The ornamental design for a suspension bridge, as shown and described.

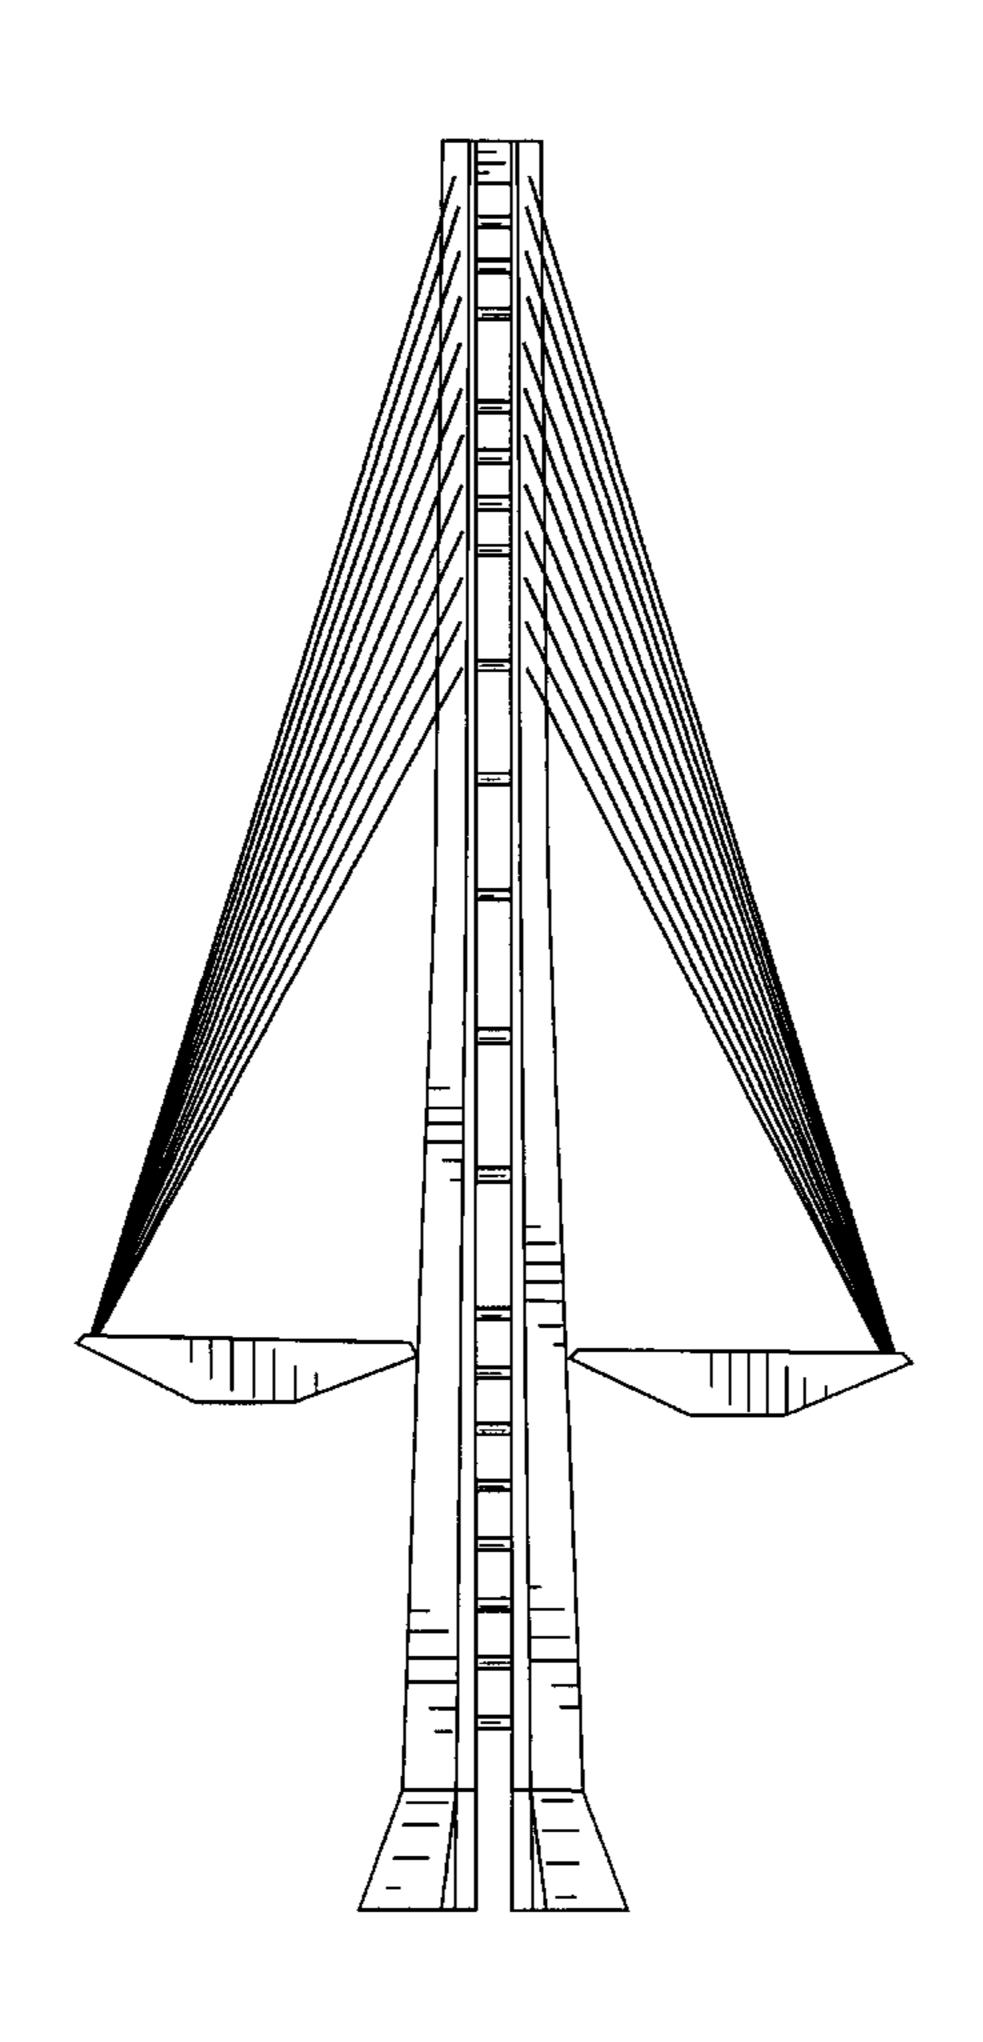

DESCRIPTION

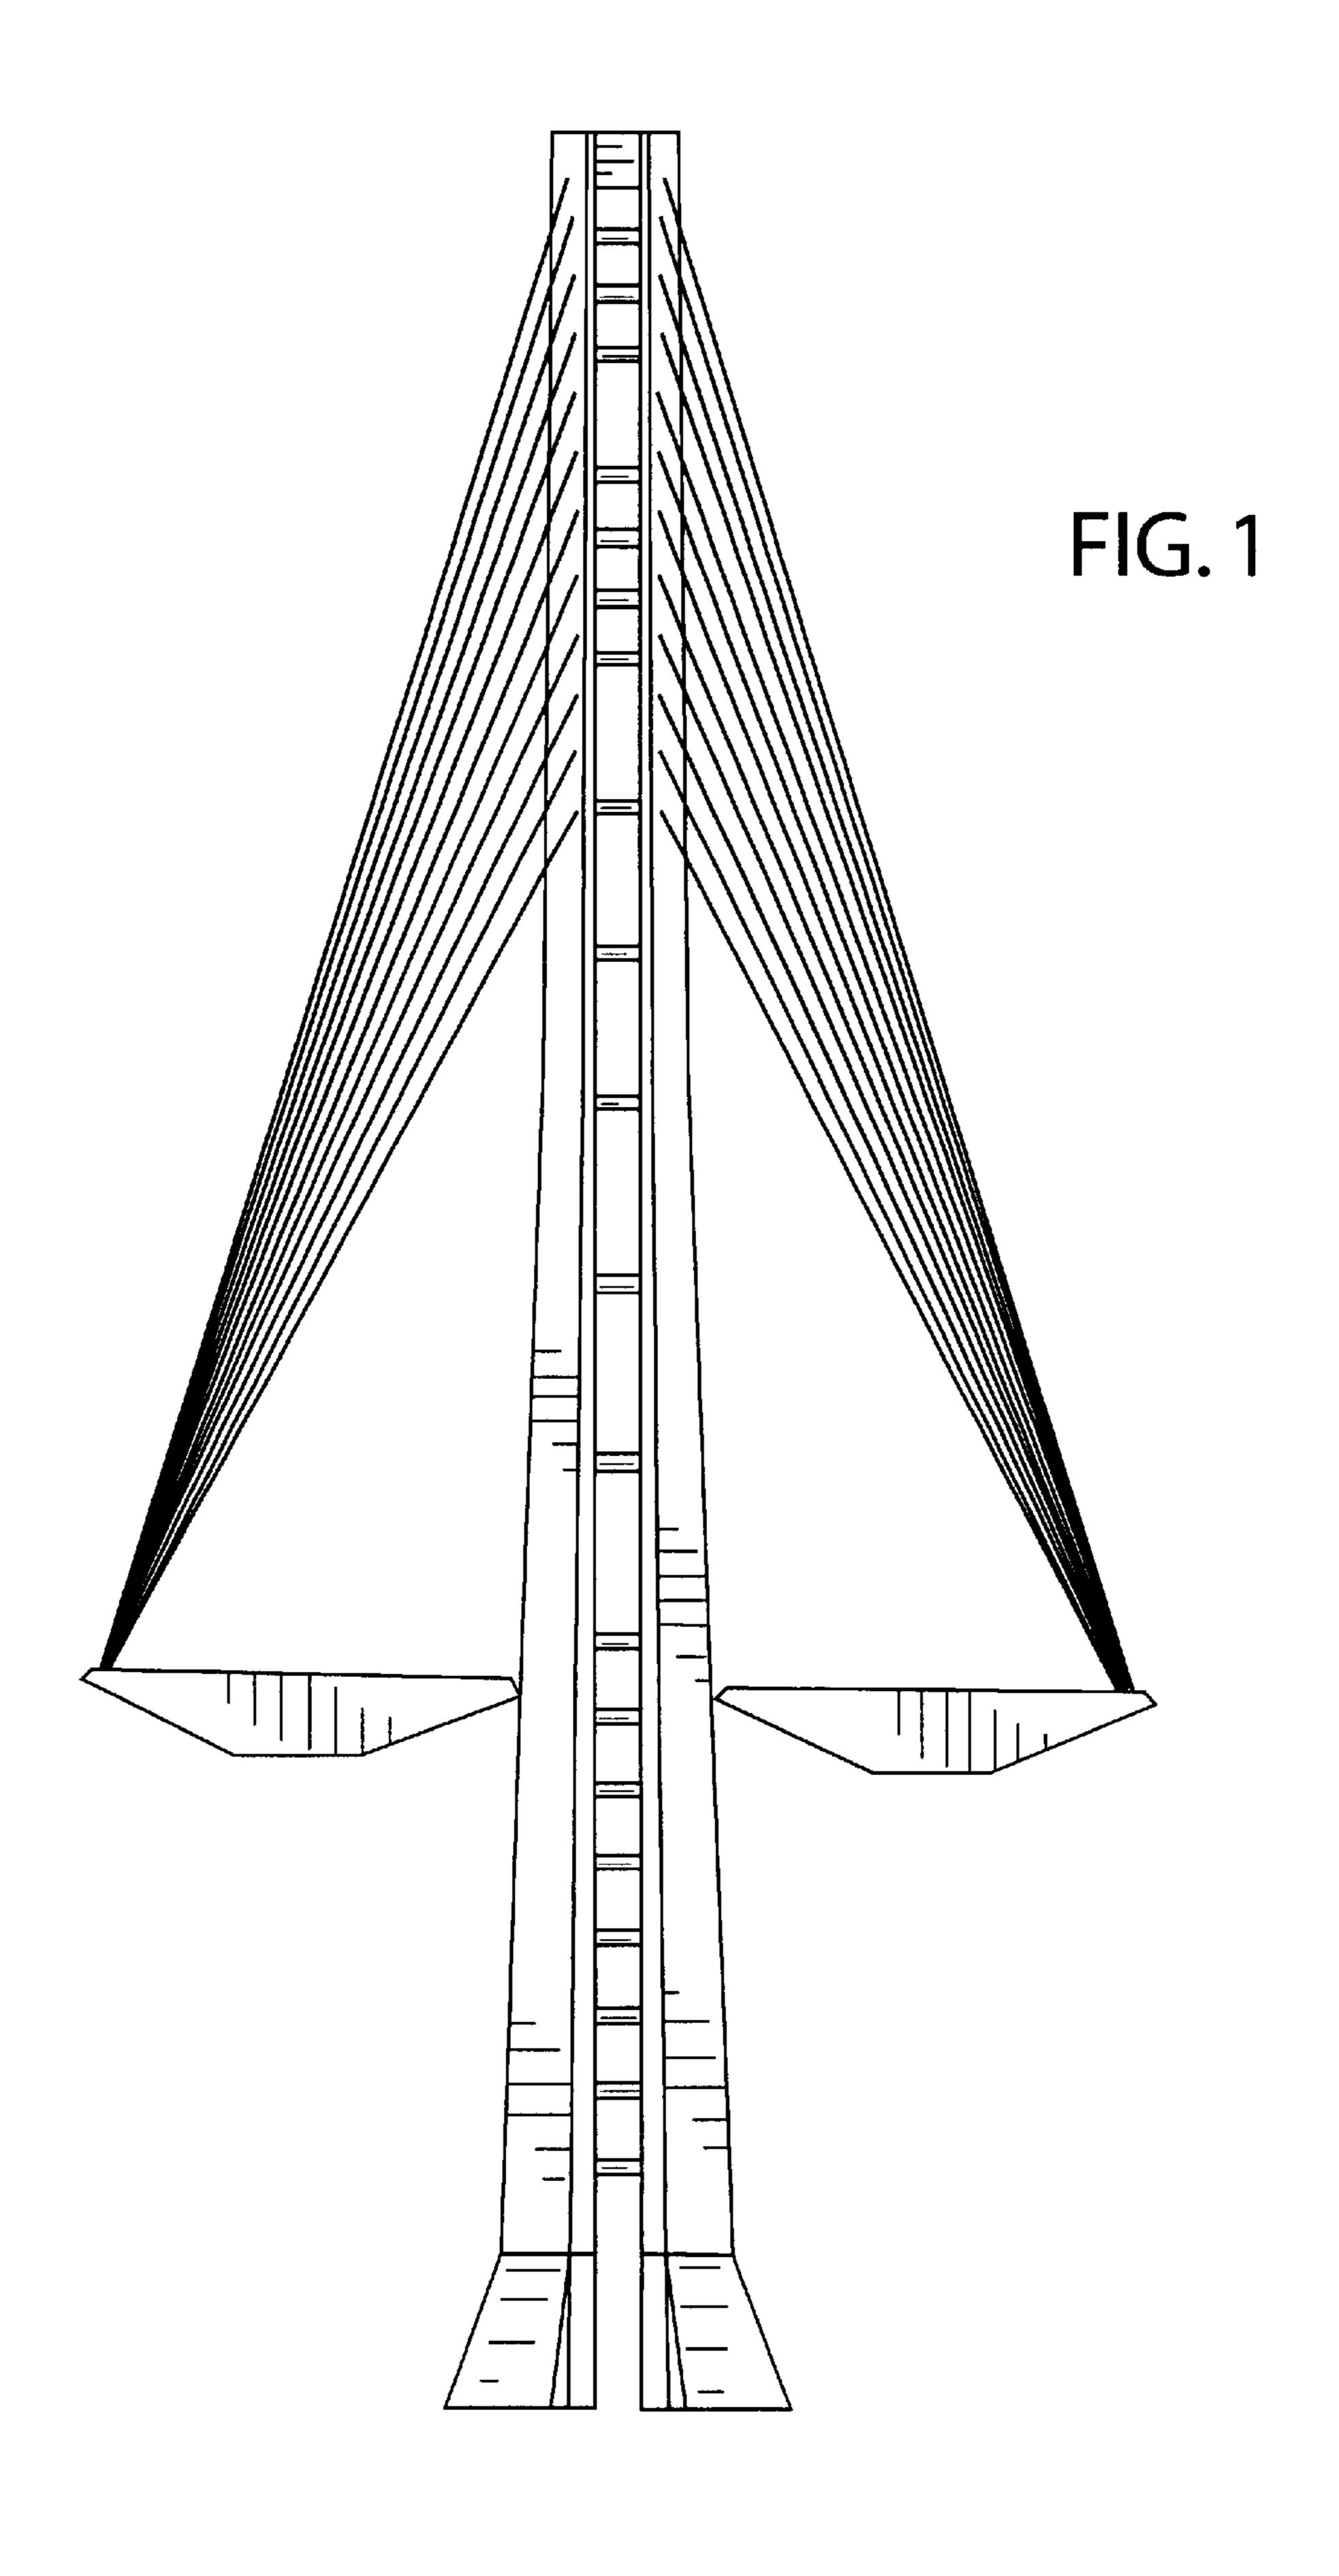

FIG. 1 is front view of a suspension bridge according to the present invention, the rear view being a mirror image thereof.

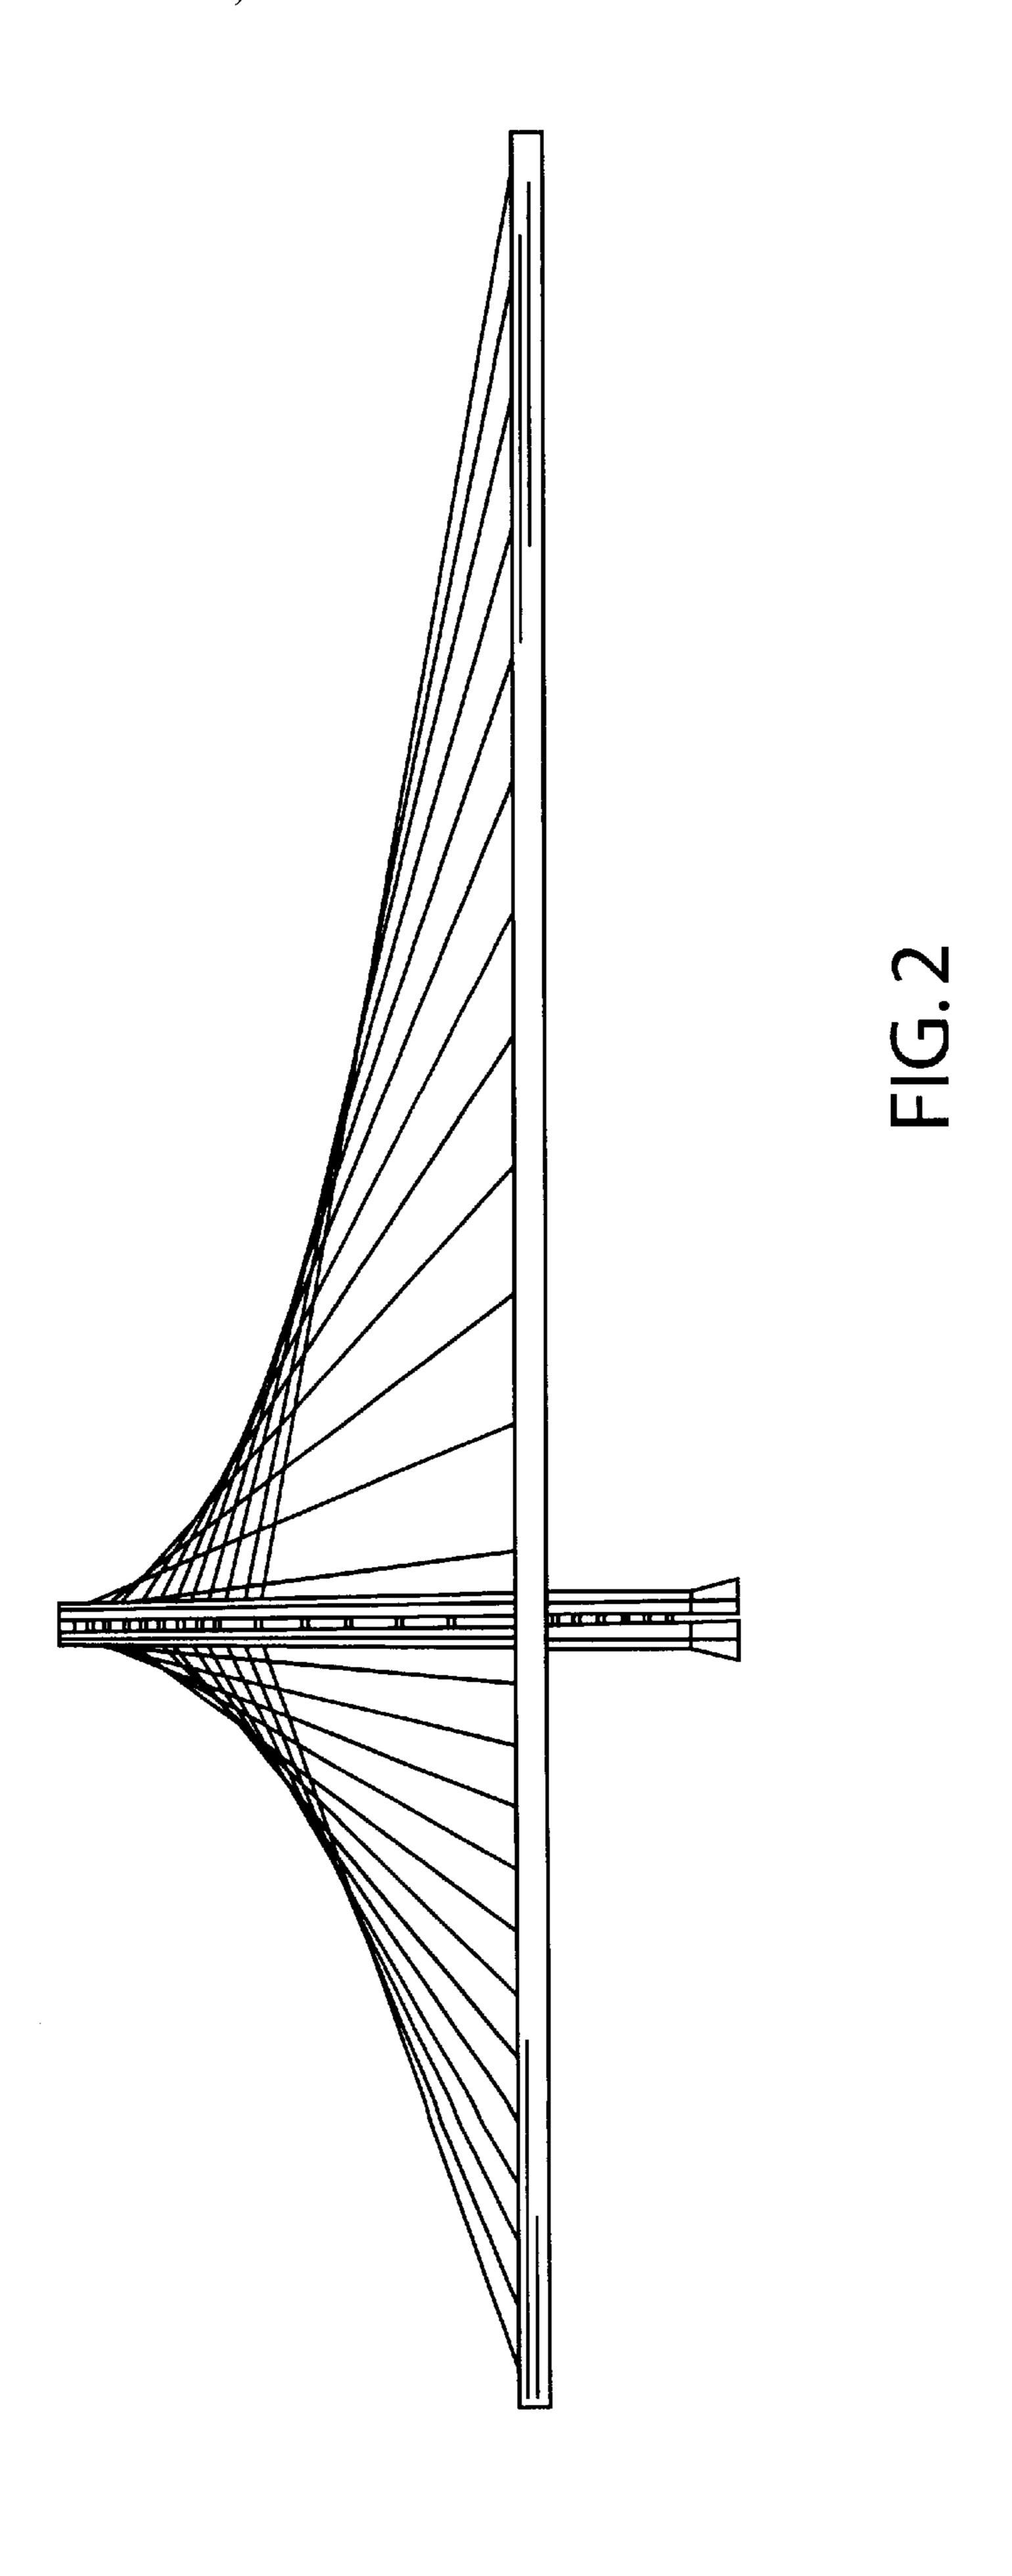

FIG. 2 is a left side view of the suspension bridge depicted in FIG. 1, the right side view being a mirror image thereof. FIG. 3 is a left side, front and top perspective view of the suspension bridge depicted in FIG. 1; and,

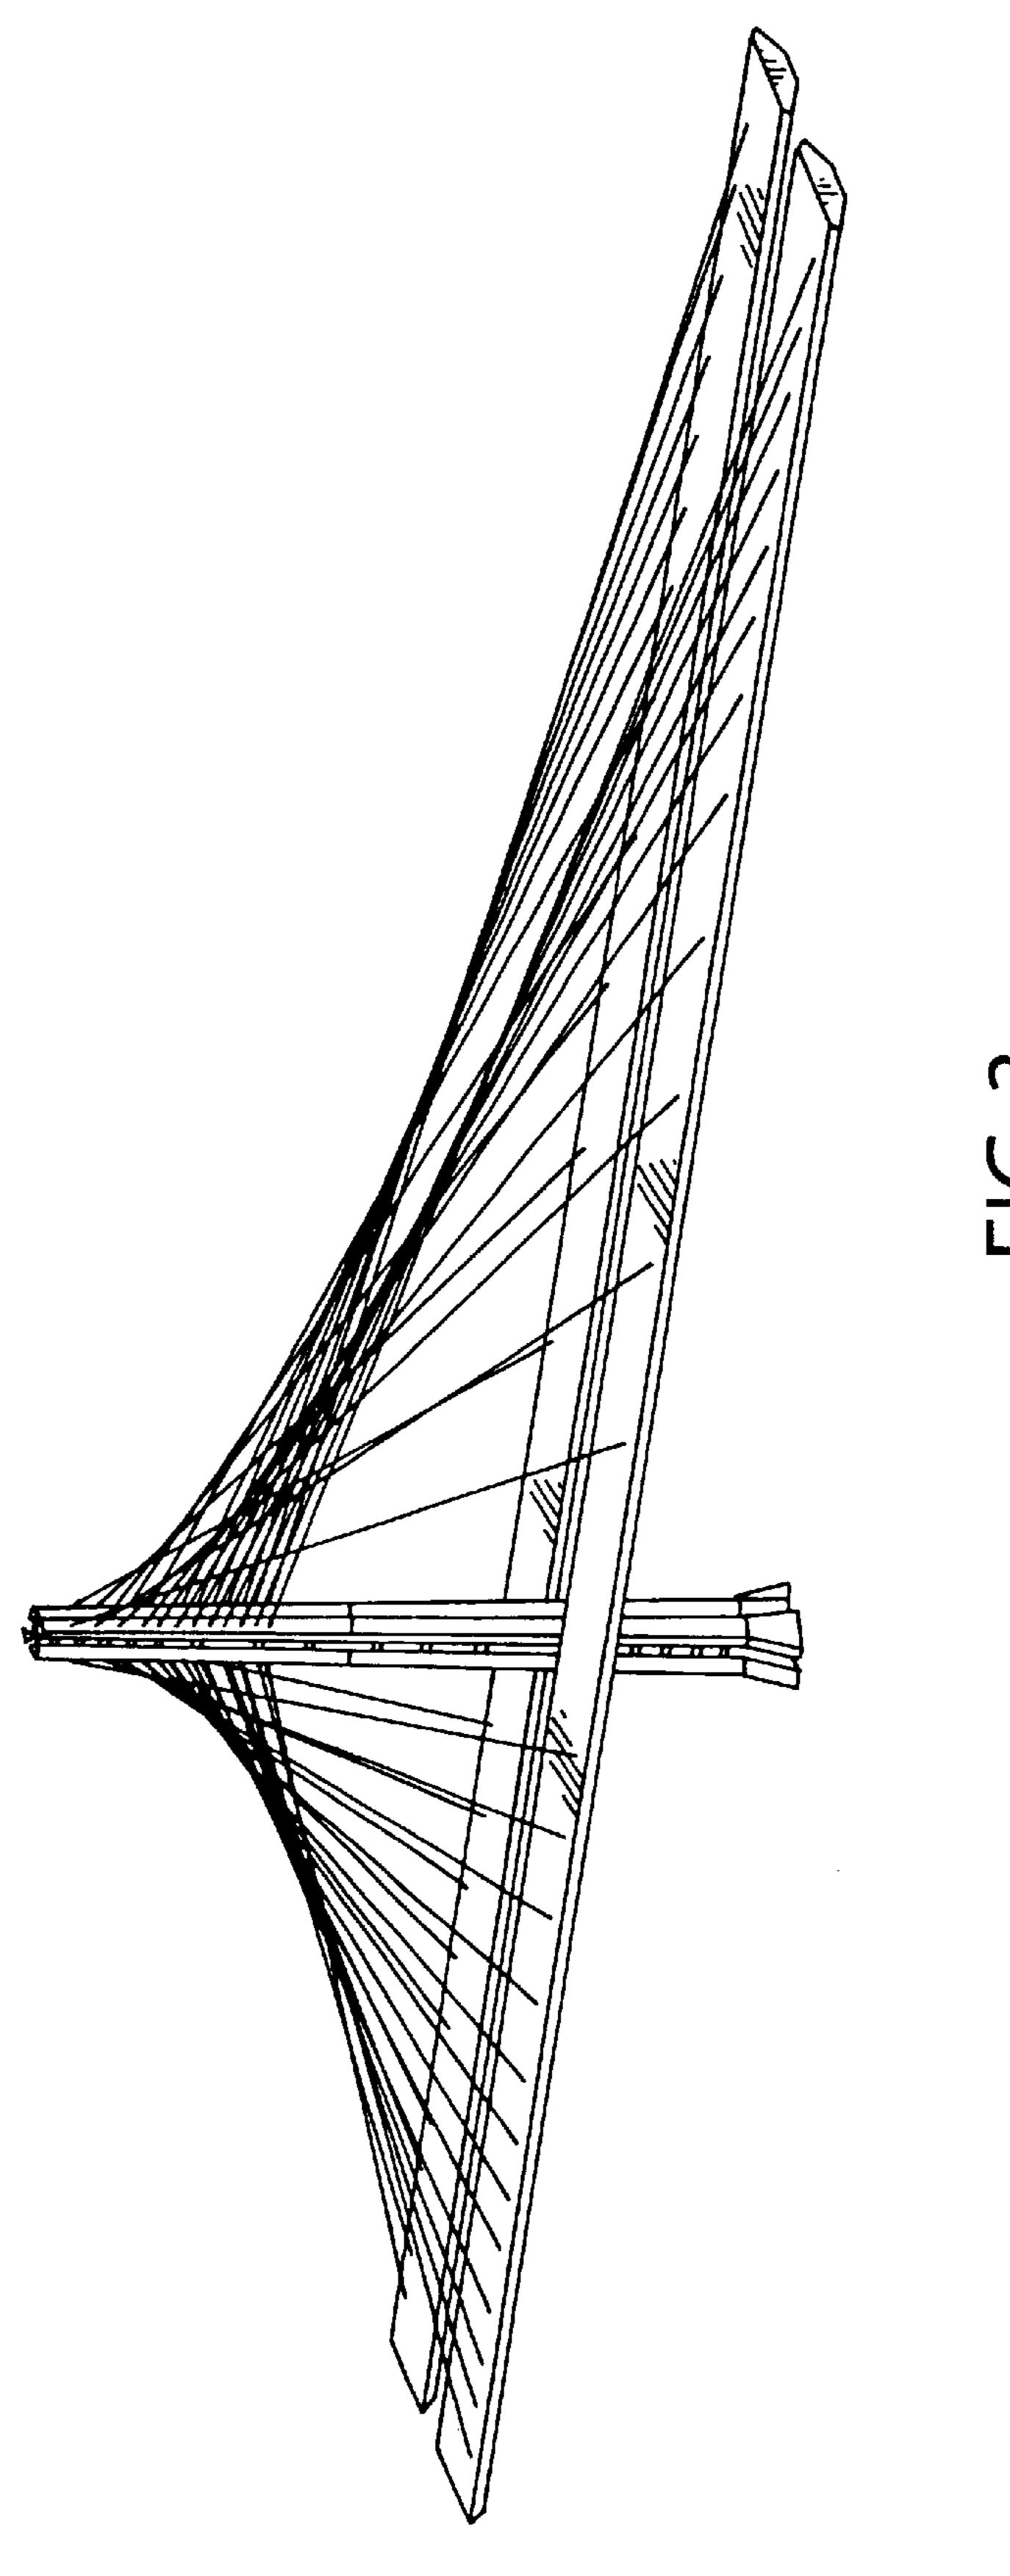

FIG. 4 is a left side, front and top perspective view, from a different angle than that of FIG. 3, of the suspension bridge depicted in FIG. 1.
