An animal collar with magnets embedded throughout it to help relieve an animal's joint pain and muscle aches. In one embodiment, the claimed subject matter serves as a novel and a practical collar to be worn by pets. It comprises of leather or nylon with embedded magnets to provide claimed magnetic therapy benefits, including pain reduction for afflictions such as arthritis, as well as aiding in speeding up the healing process of wounds or broken bones. The collar is durable, lightweight, and easy to handle and clean, and comfortable for animals. The collar can be produced in a variety of colors, patterns, and sizes and could give the pet a unique and stylish appearance, while giving the animal physical comfort. Pet owners are also given comfort by knowing that they are helping to relieve a pet's pain.

FIG. 1 is a top plan view showing my new design;

FIG. 2 is a bottom plan view thereof;

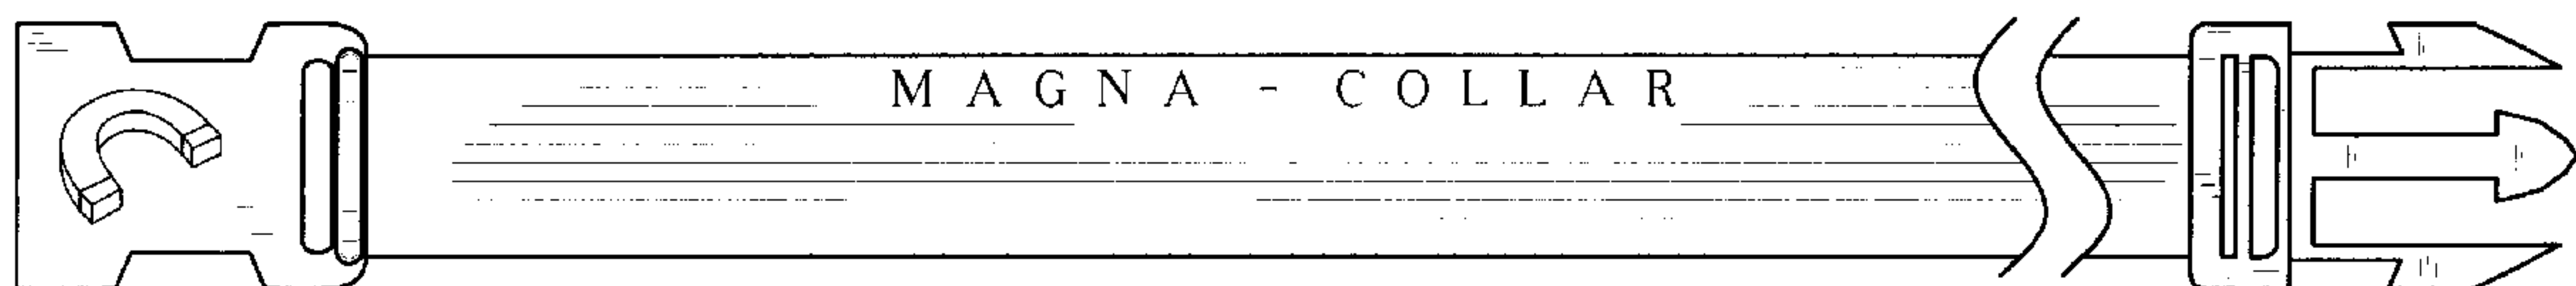

FIG. 3 is a left side view thereof;

FIG. 4 is a front view thereof; and,

FIG. 5 is a rear view of my design.

The figures have been shown broken away for ease of illustration.
