(57) **CLAIM**

The ornamental design for a tire tread, as shown and
described.

DESCRIPTION

FIG. 1 is a front elevational view of a tire tread showing my
new design, it being understood that the tire pattern repeats
circumferentially throughout the outer circumference;

FIG. 2 is a perspective view of one side of the tire tread
shown in FIG. 1;

FIG. 3 is a fragmentary side elevational view of one side of
the tire tread shown in FIG. 1; and,

FIG. 4 is a fragmentary side elevational view of the other
side of the tire tread shown in FIG. 1.

In the drawings, the dark stippled surface shading represents
the recessed portion of the tread grooves, having a depth as
best shown along the top of FIG. 1. The broken line
disclosure of the tire sidewall and inner bead is for illustra-
tive purposes only and forms no part of the claimed design.
