(57) **CLAIM**

The ornamental design for a “writing instrument,” as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing our new design;
 FIG. 2 is a front elevational view of the writing instrument of FIG. 1;
 FIG. 3 is a left side elevational view of the writing instrument of FIG. 1, the right side elevational view being a mirror image thereof;
 FIG. 4 is a rear elevational view of the writing instrument of FIG. 1;
 FIG. 5 is a top plan view of the writing instrument of FIG. 1;
 FIG. 6 is a bottom plan view of the writing instrument of FIG. 1;
 FIG. 7 is a perspective view showing a second embodiment of our new design being shown with the cap member in a stored condition;
 FIG. 8 is a front elevational view of the writing instrument of FIG. 7 being shown with the cap member in a stored condition;

FIG. 9 is a left side elevational view of the writing instrument of FIG. 7, the right side elevational view being a mirror image thereof being shown with the cap member in a stored condition;

FIG. 10 is a rear elevational view of the writing instrument of FIG. 7 being shown with the cap member in a stored condition;

FIG. 11 is a top plan view of the writing instrument of FIG. 7 being shown with the cap member in a stored condition;

FIG. 12 is a bottom plan view of the writing instrument of FIG. 7 being shown with the cap member in a stored condition;

FIG. 13 is a perspective view of the writing instrument of FIG. 7 being shown with the cap member in an exploded condition;

FIG. 14 is a perspective view showing a third embodiment of our new design being shown with the cap member in a stored condition;

FIG. 15 is a front elevational view of the writing instrument of FIG. 14 being shown with the cap member in a stored condition;

FIG. 16 is a left side elevational view of the writing instrument of FIG. 14, the right side elevational view being a mirror image thereof being shown with the cap member in a stored condition;

FIG. 17 is a rear elevational view of the writing instrument of FIG. 14 being shown with the cap member in a stored condition;

FIG. 18 is a top plan view of the writing instrument of FIG. 14 being shown with the cap member in a stored condition; and,

FIG. 19 is a bottom plan view of the writing instrument of FIG. 14 being shown with the cap member in a stored condition.

The dashed lines are for illustrative purposes only and form no part of the claimed design.
