(57) **CLAIM**

I claim the ornamental design for a patriotic license plate, as shown and described.

DESCRIPTION

A patriotic license plate, for viewing from one direction, frontal. It is used to denote appreciation for both countries whose flags are displayed, and show the appreciation of the owner for both countries, whose names are also shown in tribute.

The sole FIGURE is a frontal elevation view of a patriotic license plate showing my new design.

The broken lines in the FIGURE represent unclaimed environmental structure and form no part of the claim design.
