(57) **CLAIM**

I claim the ornamental design for a garment, as shown and
described.

DESCRIPTION

FIG. 1 is a front view of a garment, showing my new design;
and,

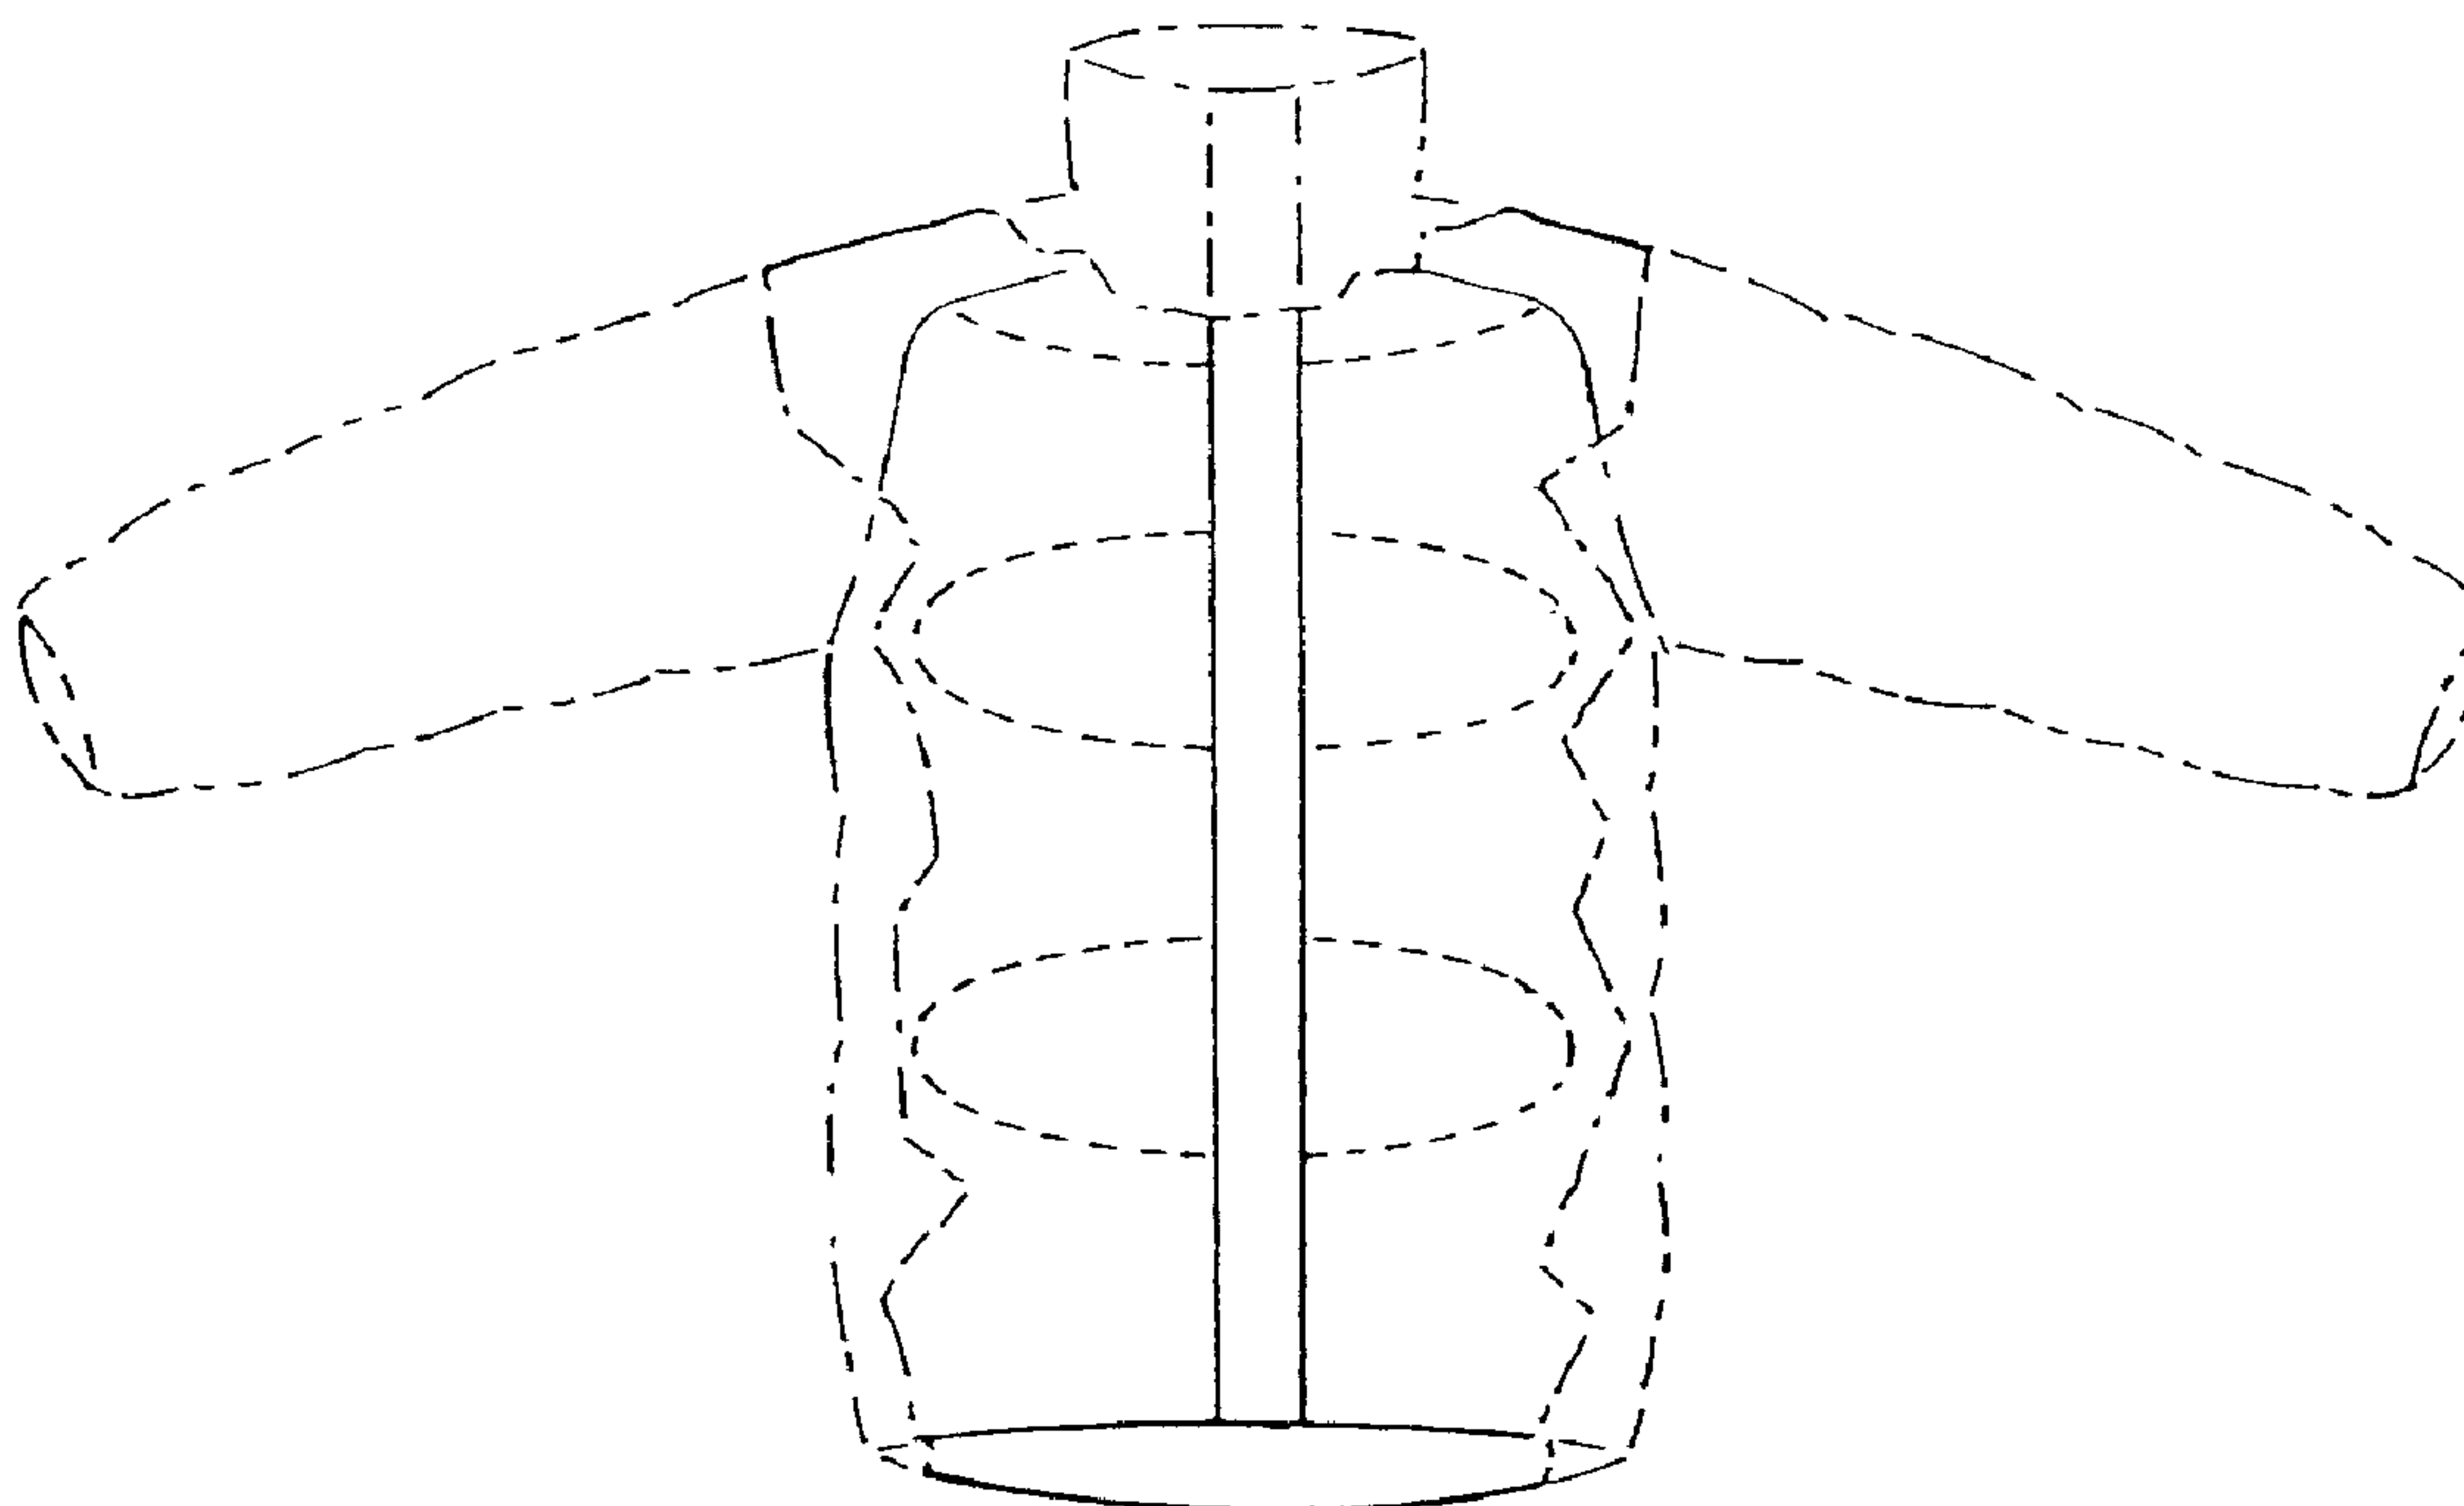

FIG. 2 is a rear view thereof.

The jagged broken line segment near the neck of the garment
and the two jagged broken line segments extending down-
wardly from near the upper portions of the sleeves of the
garment to the bottom of the garment represent portions of
the boundary of the claimed design but are not part of the
claimed design.

The broken line showing in the figures, representing two
ovals and an arc in FIG. 1 and three ovals in FIG. 2, is
indicative of stitches or a surface treatment.

The remaining broken line segments, depicting sleeves and
the side peripheries of the torso portion of the garment, are
for illustrative purposes only and form no part of the claimed
design.
