(57) **CLAIM**

We claim the ornamental design for an electronic device holder, substantially as shown and described.

DESCRIPTION

The electronic device may for example correspond to the electronic device shown and described in U.S. Design patent application No. 29/220,038, filed concurrently herewith, entitled, “Media Device,” and which is herein incorporated by reference.

FIG. 1 is a front perspective view of an electronic device holder in accordance with the present design. The electronic device holder, which can be utilized as an arm clip, may be used to hold an electronic device such as a media player or a media storage device.

FIG. 2 is a rear perspective view of the electronic device holder.

FIG. 3 is a front view for the electronic device holder.

FIG. 4 is a rear view for the electronic device holder.

FIG. 5 is a right side view for the electronic device holder.

FIG. 6 is a left side view for the electronic device holder.

FIG. 7 is a top view for the electronic device holder.

FIG. 8 is a bottom view for the electronic device holder.

FIG. 9 is an exploded view of the electronic device holder with the electronic media device being mounted onto the device;

FIG. 10 is a side view of the electronic device holder showing the media device seated on the holder;

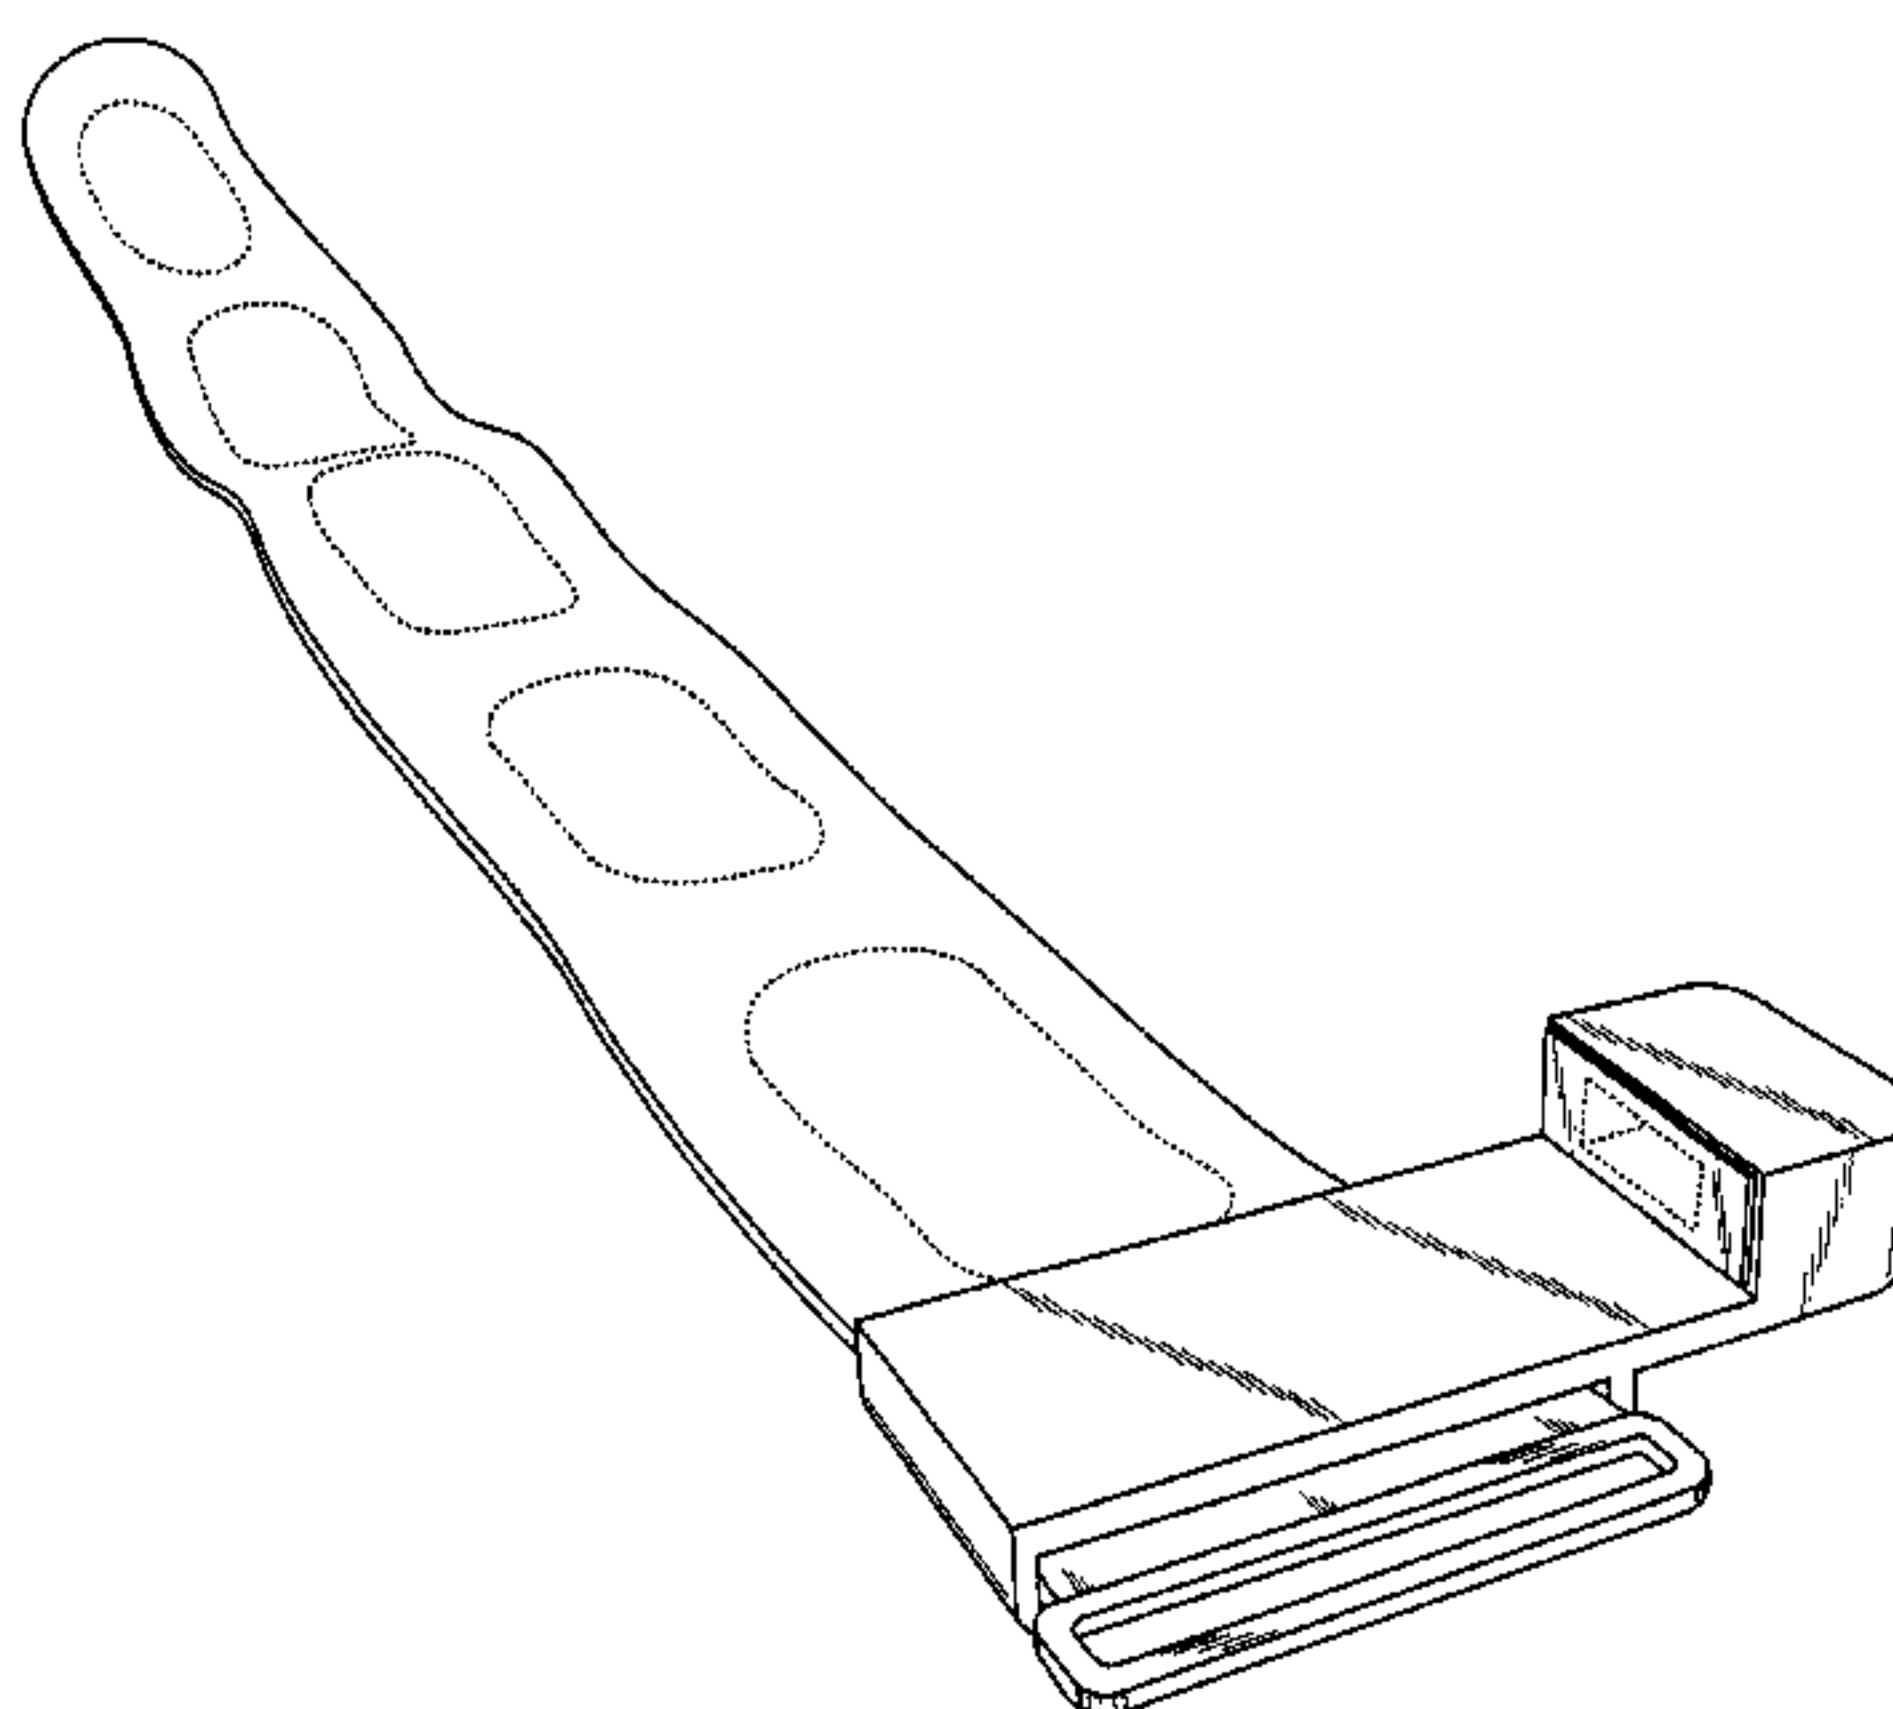

FIG. 11 is an exploded side view of the electronic device holder with the electronic media device being mounted onto the device; and

FIG. 12 is a side view of the electronic device holder showing the media device seated on the holder.

The strap is shown broken away in FIGS. 2—12 for convenience of illustration.

The broken lines illustrating the electronic device are included for the purpose of illustrating environmental structure only and form no part of the claimed design.
