(57) **CLAIM**

The ornamental design for a toolbox, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view, wherein the dotted line representations form no part of the claimed invention;

FIG. 2 is a front elevation view thereof, wherein the dotted line representations form no part of the claimed invention;

FIG. 3 is a rear elevation view thereof, wherein the dotted line representations form no part of the claimed invention;

FIG. 4 is a top plan view thereof, wherein the dotted line representations form no part of the claimed invention;

FIG. 5 is a right side elevation view thereof, wherein the dotted line representations form no part of the claimed invention;

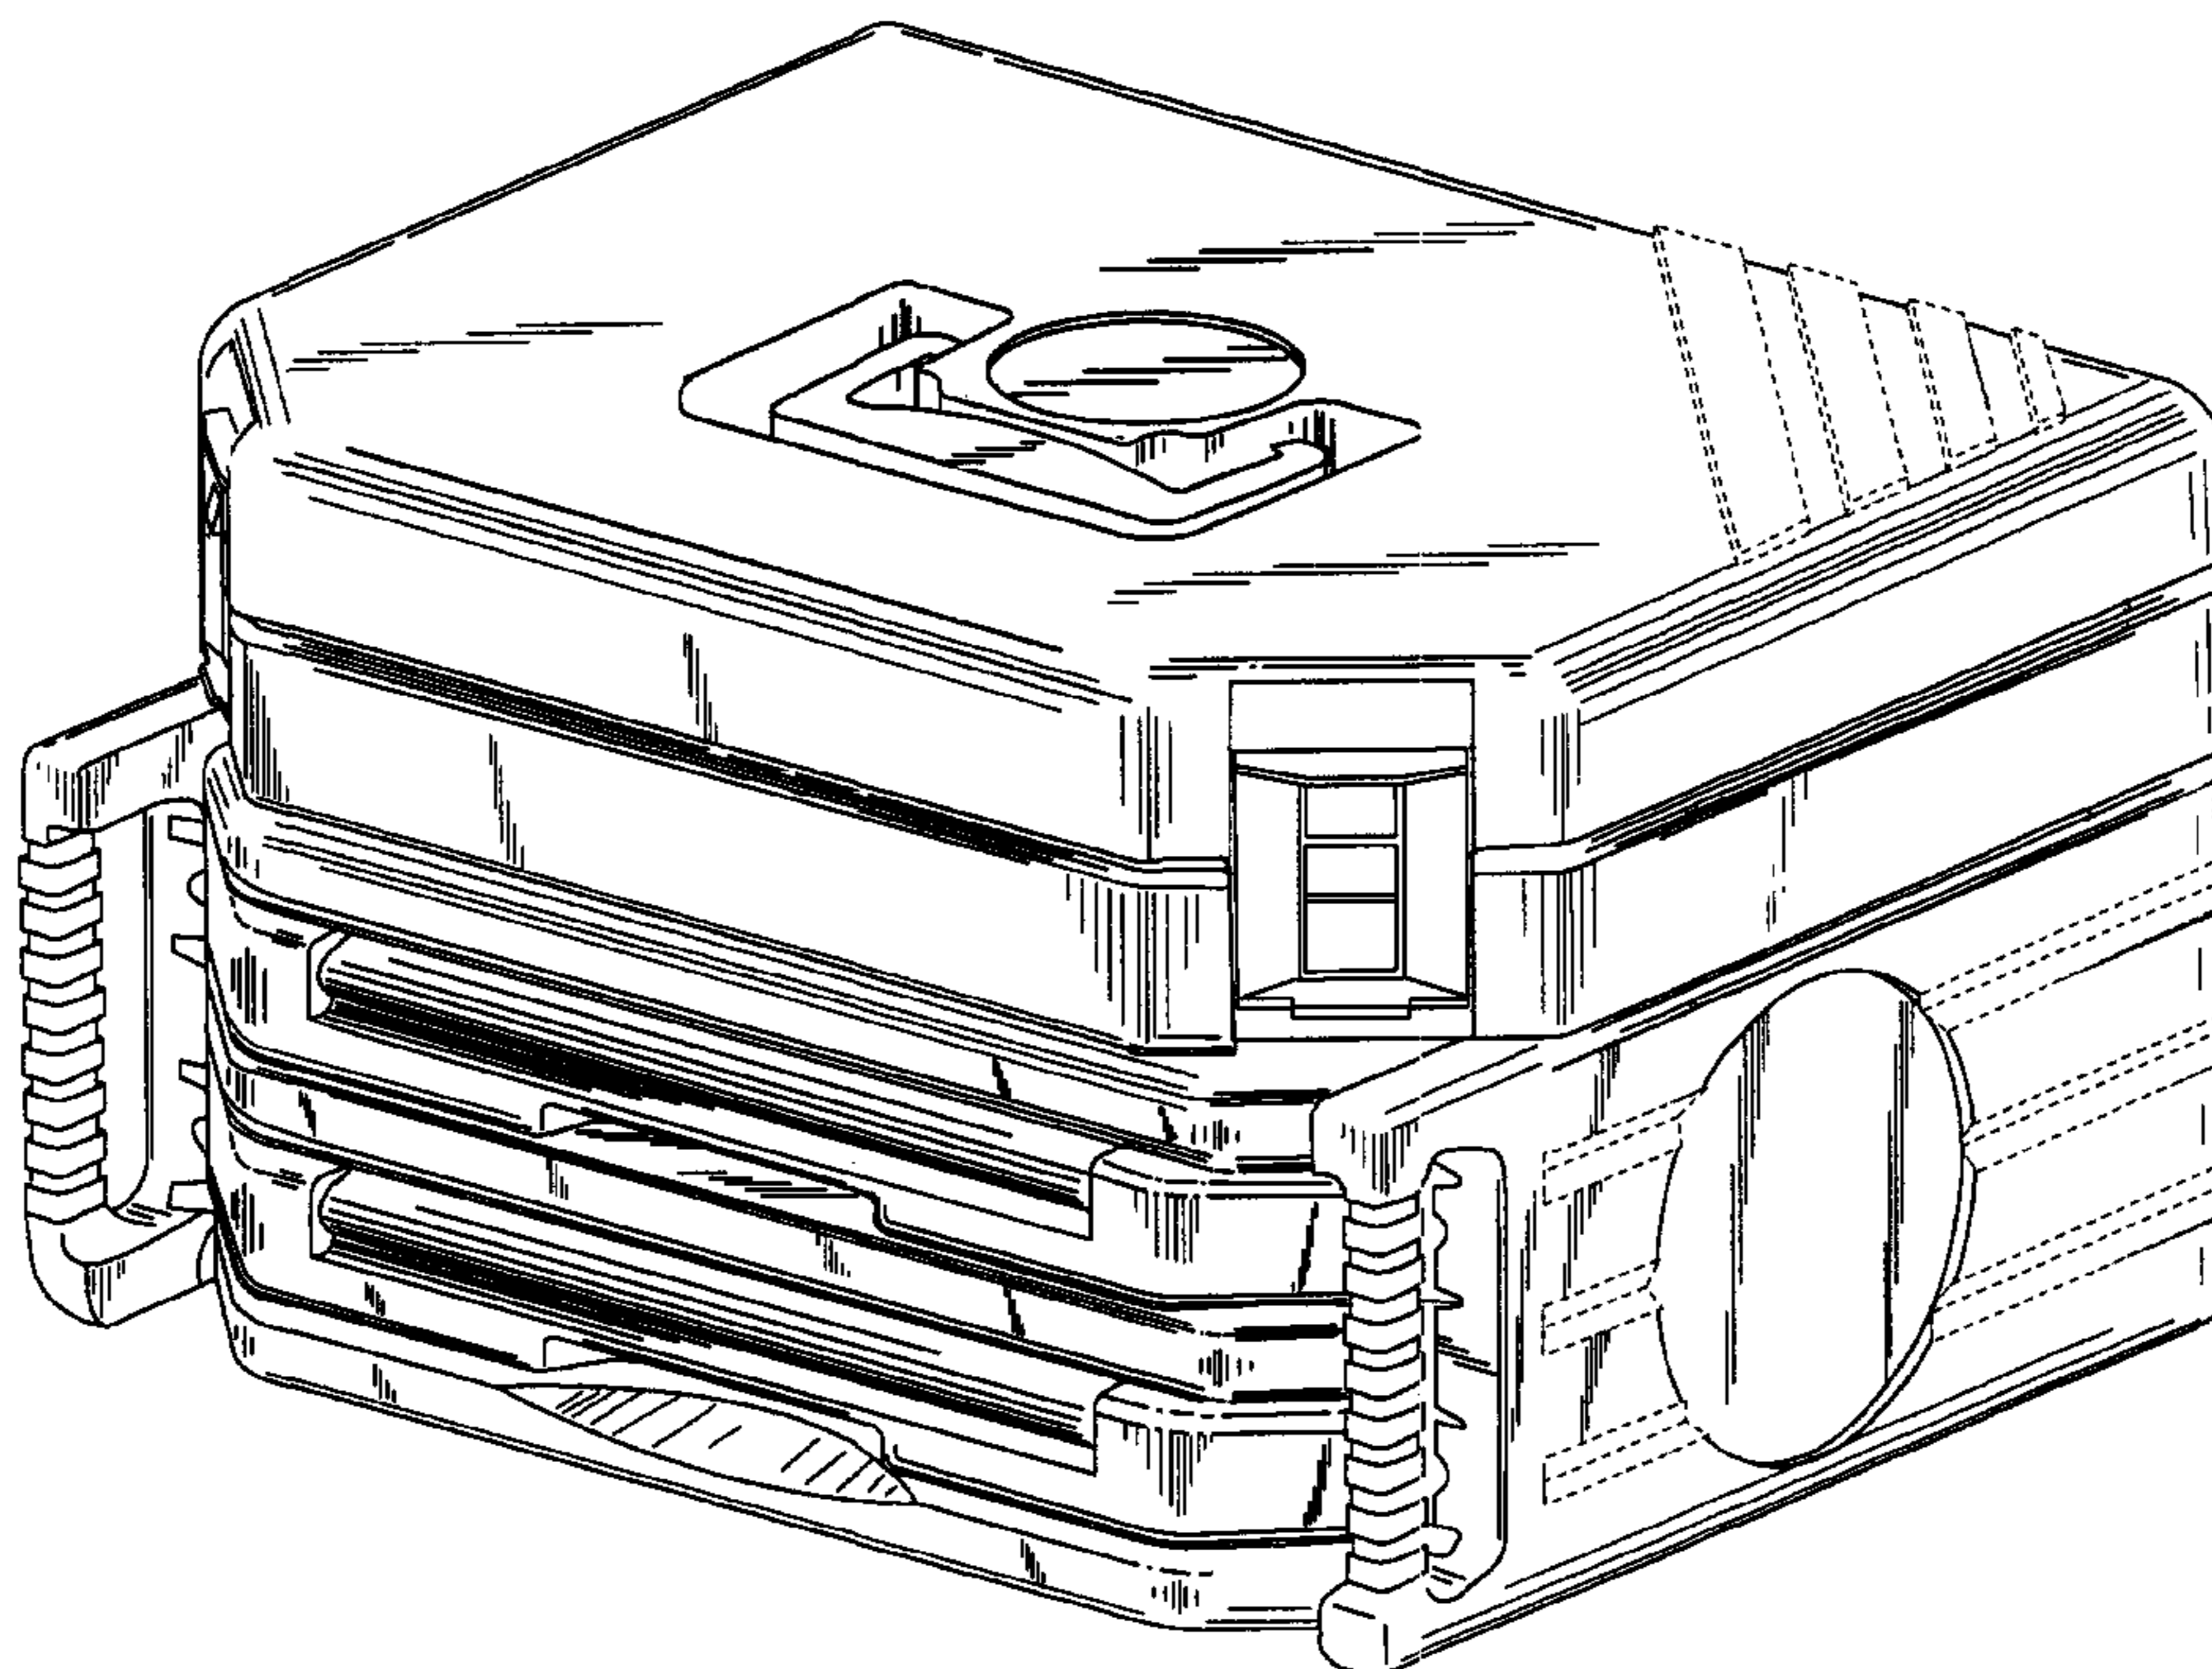

FIG. 6 is a left side elevation view thereof, wherein the dotted line representations form no part of the claimed invention;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is an additional front perspective view partially open, wherein the dotted line representations form no part of the claimed invention; and,

FIG. 9 is an additional front perspective view-partially open, where the broken lines appearing in the Figure define boundaries of the claimed design, and wherein the components represented in dotted lines form no part of the present invention.
