(57) **CLAIM**

The ornamental design for a tire tread, as shown and  
described.

**DESCRIPTION**

FIG. 1 is a perspective view of a tire tread showing our new  
design, it being understood that the pattern repeats uni-  
formly throughout the circumference of the tread;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a right side elevational view thereof; the other side  
being a mirror image thereof; and,

FIG. 4 is an enlarged fragmentary front elevational view  
thereof.

In the drawings, the broken lines defining the sidewall, inner  
bead and the peripheral boundary between the tire tread and  
the sidewall are for illustrative purposes only and form no  
part of the claimed design.
