(57) **CLAIM**

The ornamental design for a hanging file folder box storage system, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a hanging file folder box storage system showing my new design, wherein the hangers are shown in an extended position;

FIG. 2 is a front perspective view thereof, showing the hangers in a retracted position;

FIG. 3 is a front elevational view thereof, showing the hangers in the extended position;

FIG. 4 is a front elevational view thereof, showing the hangers in the retracted position;

FIG. 5 is a rear elevational view thereof, showing the hangers in the extended position;

FIG. 6 is a rear elevational view thereof, showing the hangers in the retracted position;

FIG. 7 is a top plan view thereof, showing the hangers in the extended position;

FIG. 8 is a top plan view thereof, showing the hangers in the retracted position;

FIG. 9 is a bottom plan view thereof, showing the hangers in the extended position;

FIG. 10 is a bottom plan view thereof, showing the hangers in the retracted position;

FIG. 11 is a front perspective view of an alternative embodiment of the present invention, wherein the hangers are shown in an extended position;

FIG. 12 is a front perspective view thereof, showing the hangers in a retracted position;

FIG. 13 is a front elevational view thereof, showing the hangers in the extended position;

FIG. 14 is a front elevational view thereof, showing the hangers in the retracted position;

FIG. 15 is a rear elevational view thereof, showing the hangers in the extended position;

FIG. 16 is a rear elevational view thereof, showing the hangers in the retracted position;

FIG. 17 is a top plan view thereof, showing the hangers in the extended position;

FIG. 18 is a top plan view thereof, showing the hangers in the retracted position;

FIG. 19 is a bottom plan view thereof, showing the hangers in the extended position; and,

FIG. 20 is a bottom plan view thereof, showing the hangers in the retracted position.
