(57) **CLAIM**

The ornamental design for fabric portion of a lounge chair having a face opening in the foot support end, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view showing my new design for a fabric portion of a lounge chair having a face opening in the foot support end, the portions shown in dotted lines being for illustrative purpose only forming no part of the present invention;

FIG. 2 is a right side perspective view thereof, the opposite side being a mirror image thereof, and the portions shown in dotted lines being for illustrative purpose only forming no part of the present invention;

FIG. 3 is a top view thereof, the portions shown in dotted lines being for illustrative purpose only forming no part of the present invention;

FIG. 4 is a bottom view thereof, the portions shown in dotted lines being for illustrative purpose only forming no part of the present invention;

FIG. 5 is a right side view thereof, the opposite end being a mirror image thereof; and,

FIG. 6 is a front view thereof, the rear view being a mirror image thereof.
