(57) **CLAIM**

The ornamental design for a tire pressure gauge, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a tire pressure gauge including a detachable cover and showing our new design;

FIG. 2 is a rear view of the tire pressure gauge of FIG. 1 including a detachable cover and showing our new design; FIG. 3 is a left-side elevational view of the tire pressure gauge of FIG. 1 including a detachable cover and showing our new design; FIG. 4 is a right-side elevational view of the tire pressure gauge of FIG. 1 including a detachable cover and showing our new design; FIG. 5 is a top view of the tire pressure gauge of FIG. 1 including a detachable cover and showing our new design; FIG. 6 is a bottom view of the tire pressure gauge of FIG. 1 including a detachable cover and showing our new design; FIG. 7 is a front view of the tire pressure gauge of FIG. 1 having the detachable cover removed and showing our new design; FIG. 8 is a rear view of the tire pressure gauge of FIG. 1 having the detachable cover removed and showing our new design; FIG. 9 is a left-side elevational view of the tire pressure gauge of FIG. 1 having the detachable cover removed and showing our new design; FIG. 10 is a right-side elevational view of the tire pressure gauge of FIG. 1 having the detachable cover removed and showing our new design; FIG. 11 is a top view of the tire pressure gauge of FIG. 1 having the detachable cover removed and showing our new design; and, FIG. 12 is a bottom view of the tire pressure gauge of FIG. 1 having the detachable cover removed and showing our new design. The matter shown in broken lines is shown for illustrative purposes only, and forms no part of the claimed invention.
