(57) **CLAIM**

The ornamental design for a graphical user interface for a display screen of a communications terminal, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright and trademark is made. The copyright and trademark owner has no objection to the reproduction of the patent document or the patent disclosure, as it appears in the U.S. Patent Office records, but reserves all other copyright and trademark rights whatsoever.

The single FIGURE is a front view of a graphical user interface of the present invention. The text and images shown in broken lines are for illustrative purposes only and form no part of the claimed design. The broken line drawing of a display screen of a communications terminal is for illustrative purposes only and forms no part of the claimed design.
