DESCRIPTION

FIG. 1 is a top plan view of an artificial fish eye of this invention;
FIG. 2 is a bottom plan view of the invention and depicting a notch therein;
FIG. 3 is a front elevational view of the present invention;
FIG. 4 is a side elevational view of the present invention, the opposite side being a mirror image thereof; and,
FIG. 5 is a rear elevational view of the present invention.
The stippling depicted in the accompanying drawings depicts surface contour only and does not depict any texture, color, shading or other characteristic.
