DESCRIPTION

FIG. 1 is a top plan view of an artificial fish eye of this invention;
FIG. 2 is a bottom plan view of the invention and depicting a notch therein;
FIG. 3 is an elevation view of the side of the invention, the opposite side being a mirror image thereof;
FIG. 4 is an elevation view of the side of the invention disposed approximately 90 degrees from the view shown in FIG. 3; and,
FIG. 5 is an elevation view of the side of the invention opposite of that shown in FIG. 4, having the notch of FIG. 2 therein.
