(57) **CLAIM**

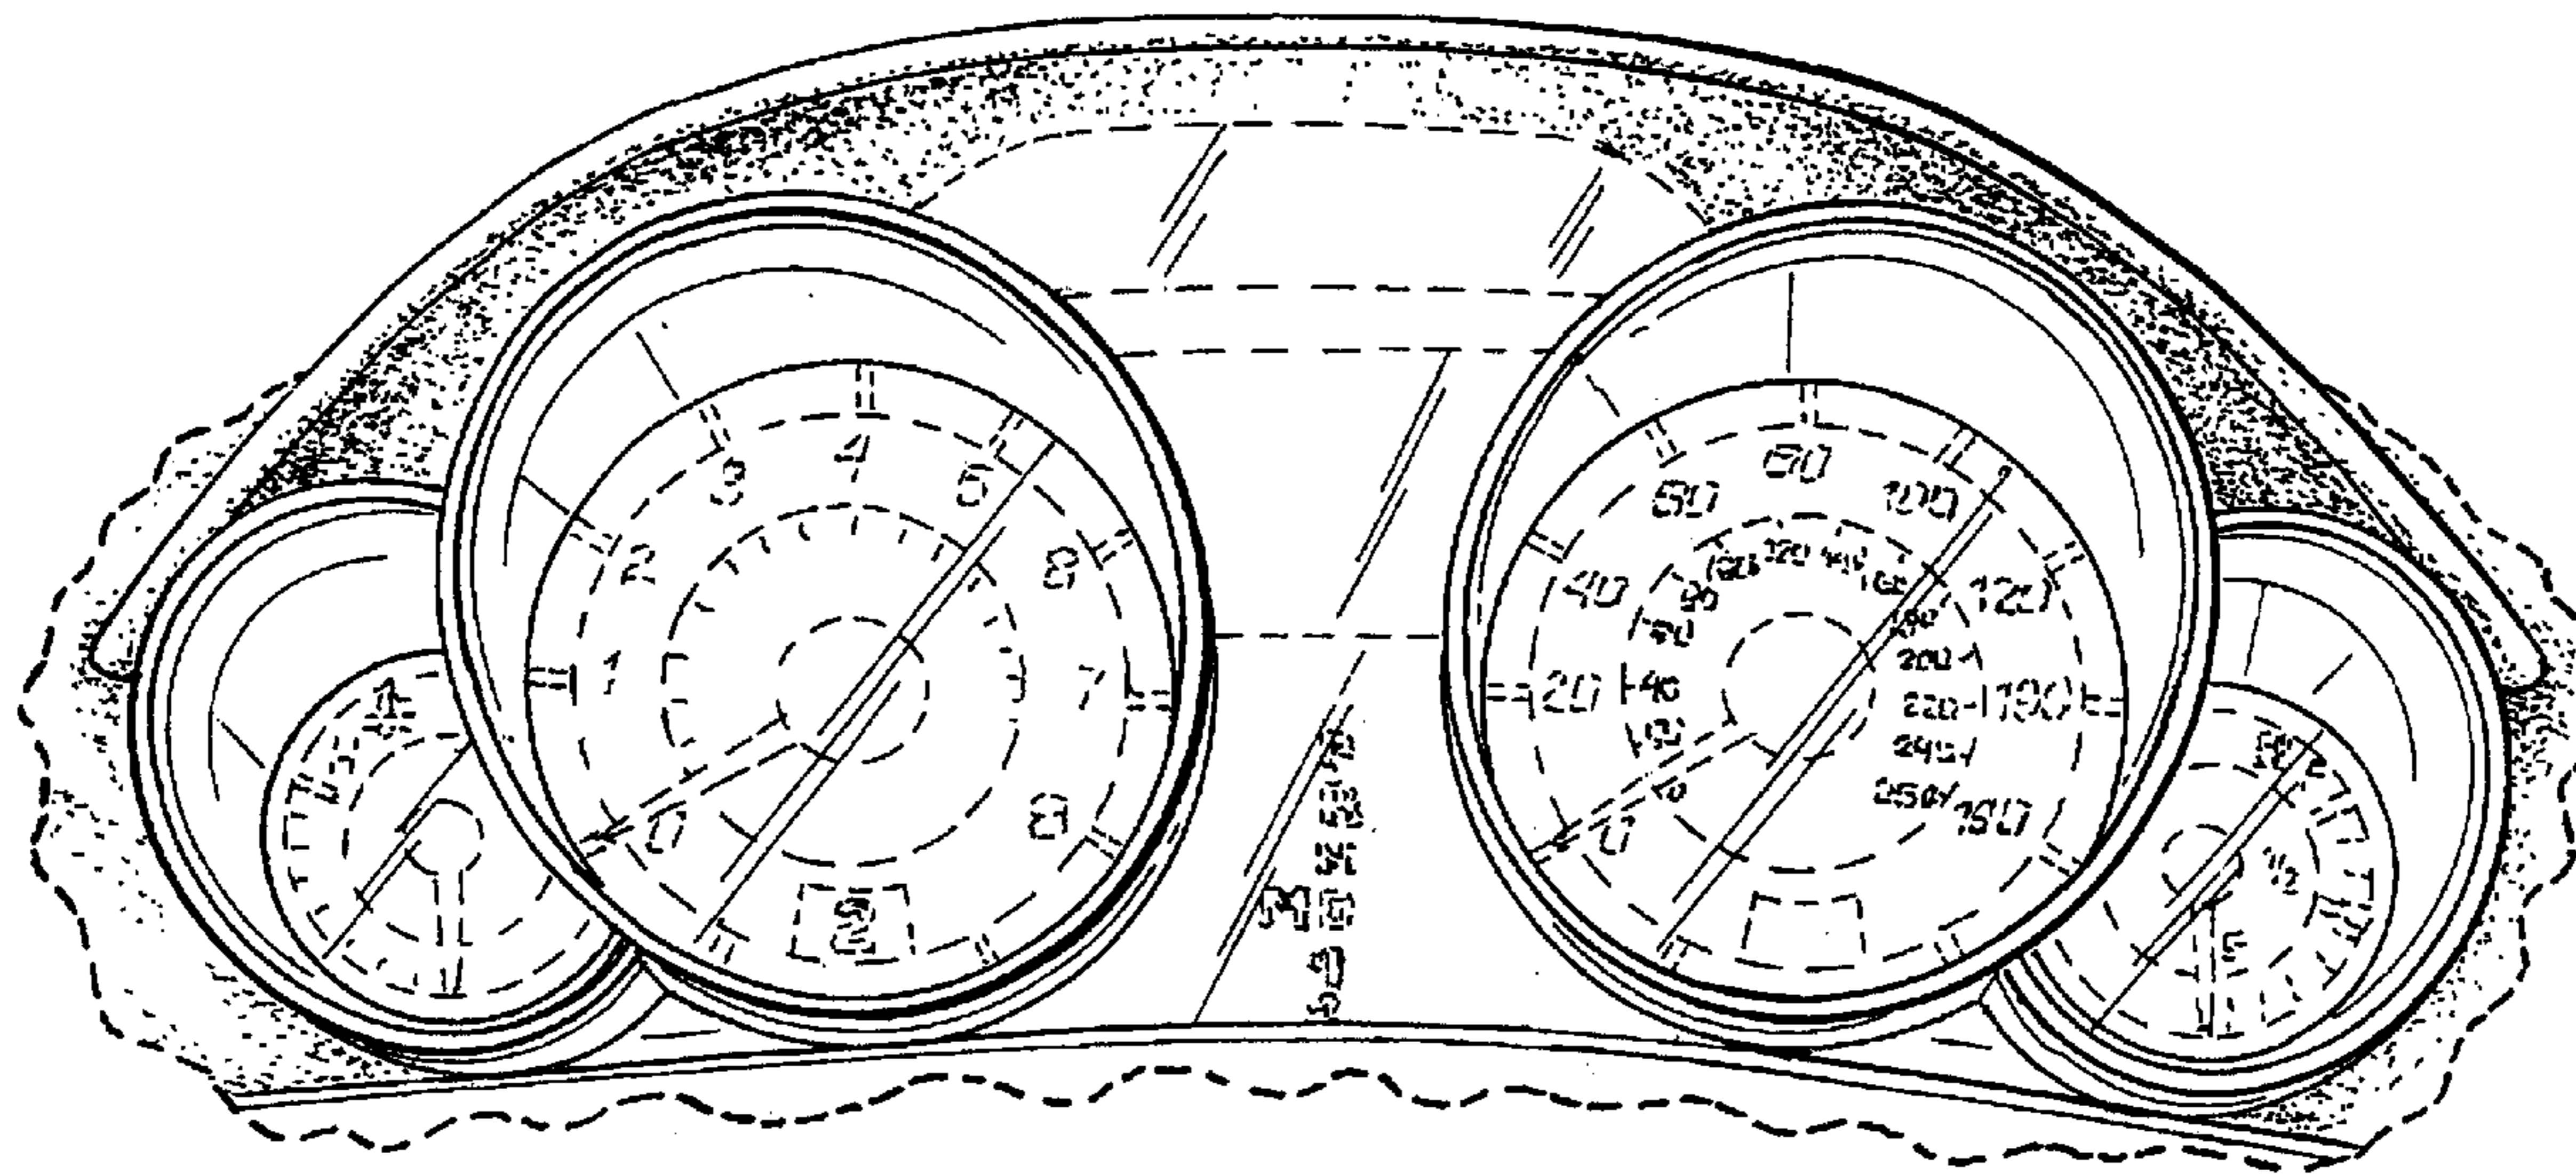

The ornamental design for a vehicle instrument cluster, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a vehicle instrument cluster showing our new design, a perspective view from the opposite side being a mirror image thereof; and, FIG. 2 is a front elevational view thereof.

The broken line showings of the indicia and lines between the dials are for illustrative purposes only and form no part of the claimed design. The uneven broken lines surrounding the vehicle instrument cluster represents an unclaimed boundary of the claimed design.
