(57) **CLAIM**

The ornamental design of a disk drive carrier, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the disk drive carrier according to a first embodiment of our design.

FIG. 2 is a plan view from above of the disk drive carrier according to the first embodiment.

FIG. 3 is a plan view from below of the disk drive carrier according to the first embodiment.

FIG. 4 is an elevation of one end of the disk drive carrier according to the first embodiment.

FIG. 5 is an elevation of one side of the disk drive carrier according to the first embodiment.

FIG. 6 is an elevation of the other side of the disk drive carrier according to the first embodiment.

FIG. 7 is a perspective view of the disk drive carrier according to a second embodiment of our design.

FIG. 8 is a plan view from above according to the second embodiment.

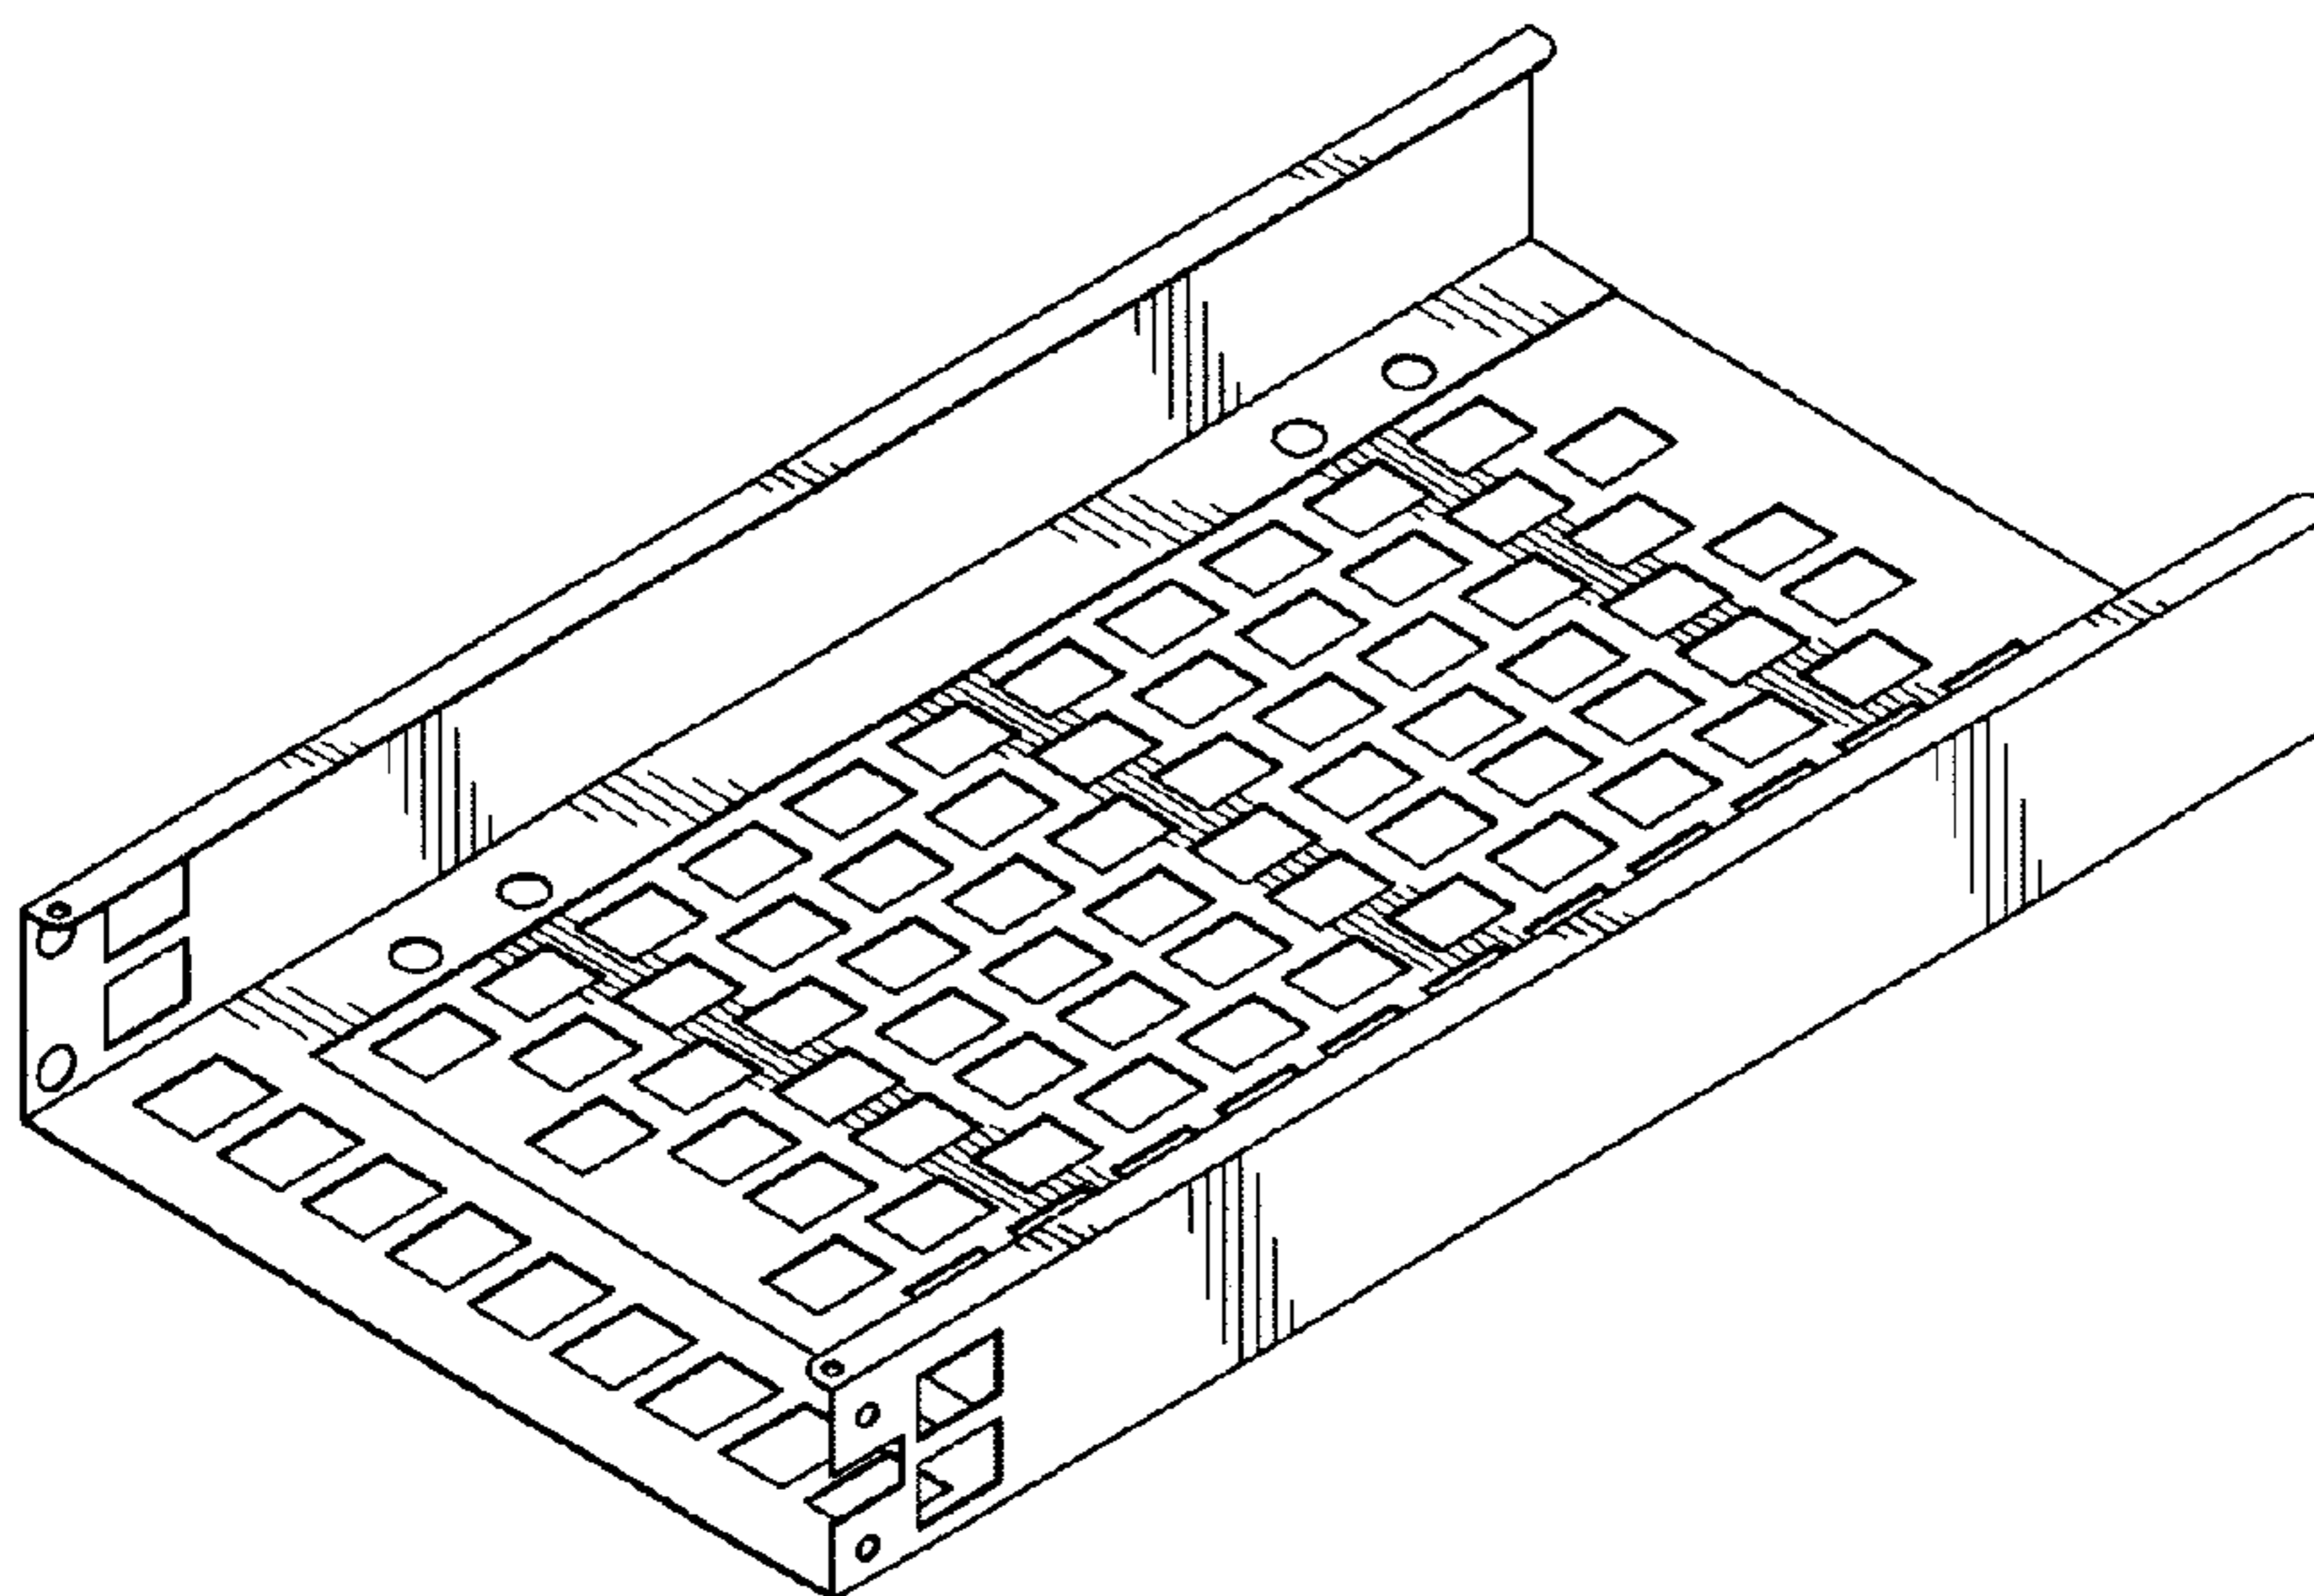

FIG. 9 is a plan view from below according to the second embodiment.

FIG. 10 is an elevation of one end according to the second embodiment.

FIG. 11 is an elevation of one side according to the second embodiment; and,

FIG. 12 is an elevation of the other side according to the second embodiment.
