A portion of the disclosure of this patent document contains material to which a claim for copyright and trademark is made. The copyright and trademark owner has no objection to the reproduction of the patent document of the patent disclosure, as it appears in the U.S. Patent Office records, but reserves all other copyright and trademark rights whatsoever. The single FIGURE is a front view of a graphical user interface for a display screen of a communications terminal. The broken line drawings of text, text underlines, cameras, and a display screen of a communications terminal are for illustrative purposes only and form no part of the claimed design.
