The present invention relates to a device for hanging and
transporting plastic bags. The bags may be loaded onto the
device of the present invention. The device may then be
placed, for example, on a clothing hook of an automobile.
FIG. 1 is an isometric view of a plastic bag transporter of the
present invention.

FIG. 2 is a front view of the present invention.
FIG. 3 is a right view of the present invention.
FIG. 4 is a back view of the present invention.
FIG. 5 is a left view of the present invention.
FIG. 6 is a top view of the present invention; and,
FIG. 7 is a bottom view of the present invention.
The broken lines are for illustrative purposes only and form
no part of the design of the present invention.
