(57) **CLAIM**

The ornamental design for an animated icon for a cellularly communicative electronic device, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of an animated icon for a cellularly communicative device in a first state;

FIG. 2 is a front elevational view thereof in a second state; and,

FIG. 3 is a front elevational view thereof in a third state.

The subject matter in this patent includes a process or period during which an image changes into another image. This process or period in which one image transitions into another forms no part of the claimed design.

The broken-line drawings of a cellularly communicative electronic device including a display screen are for illustrative purposes only and form no part of the claimed design.
