(57) **CLAIM**

The ornamental design for a nasal delivery device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a nasal delivery device showing the top, front and side of our new design;

FIG. 2 is a side elevational view of the nasal delivery device, the opposite side being a mirror image thereof;

FIG. 3 is an end elevational view of the nasal delivery device;

FIG. 4 is an other end elevational view of the nasal delivery device;

FIG. 5 is a plan view of the nasal delivery device;

FIG. 6 is a perspective view of another embodiment of a nasal delivery device according to our new design;

FIG. 7 is a side elevational view of the nasal delivery device of FIG. 6, the opposite side being a mirror image thereof;

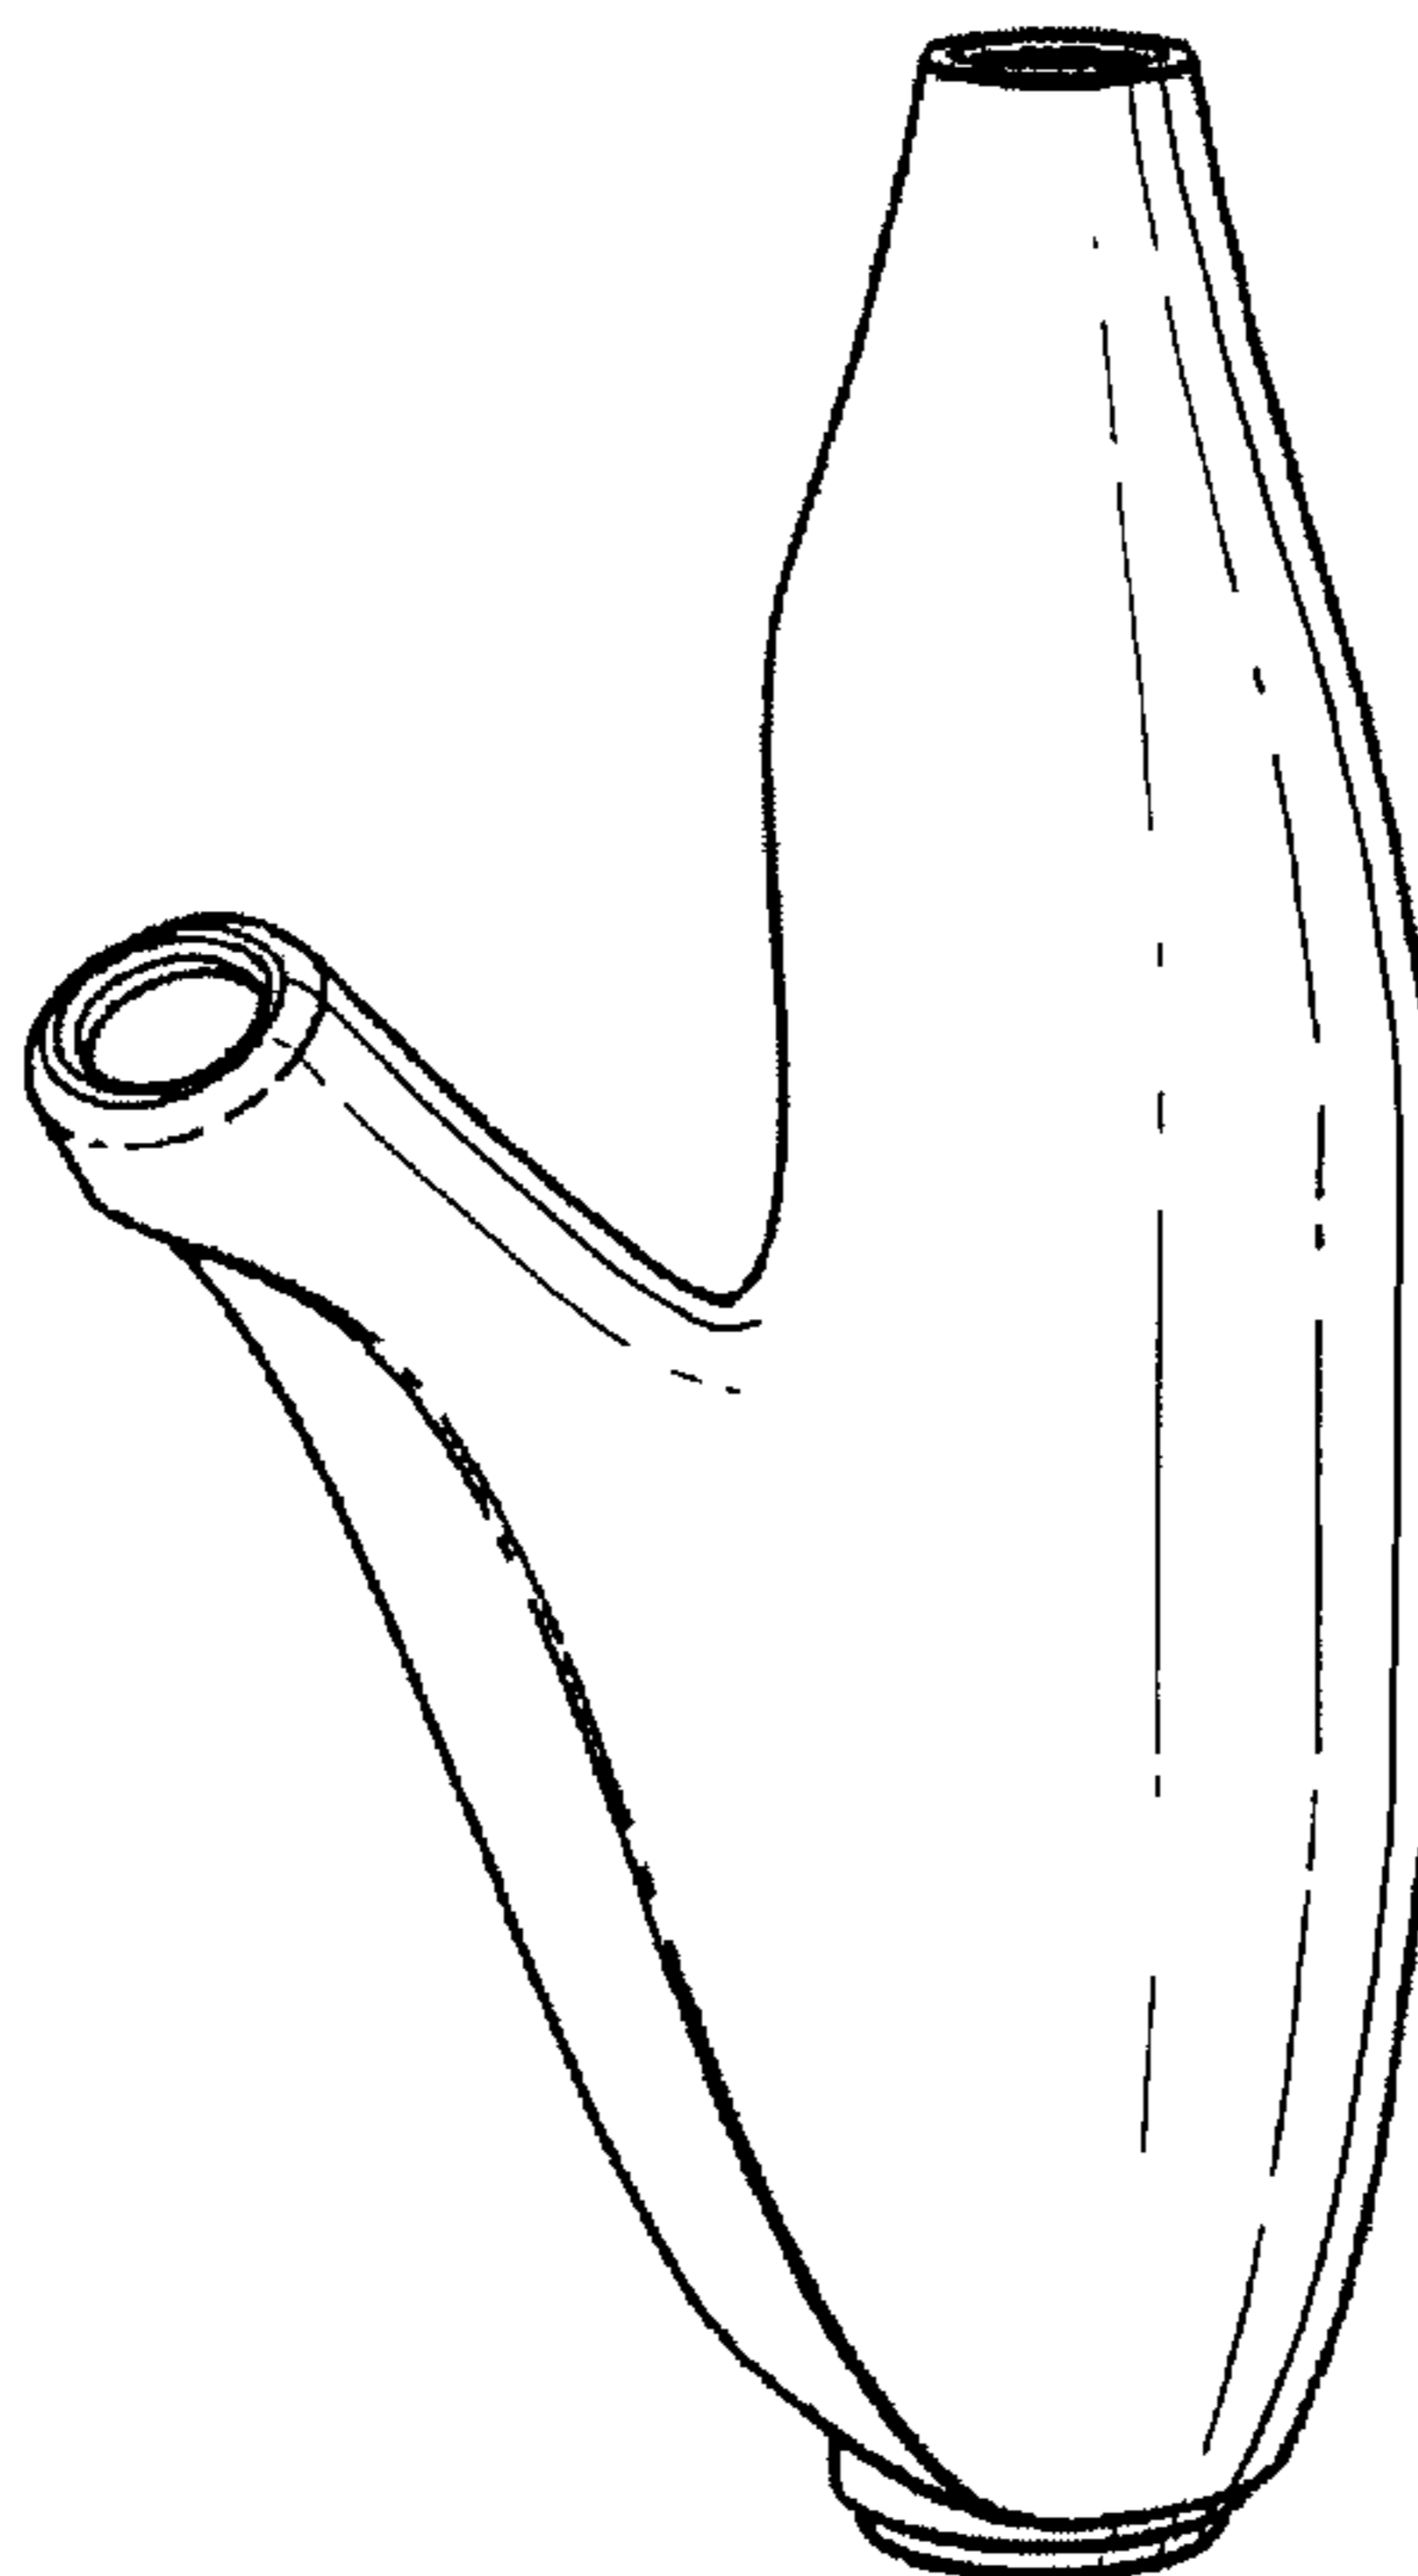

FIG. 8 is an end elevational view of the nasal delivery device of FIG. 6;

FIG. 9 is an other end elevational view of the nasal delivery device of FIG. 6; and,

FIG. 10 is a plan view of the nasal delivery device of FIG. 6.

The bottom of both embodiments of the nasal delivery device is plain and unornamented.
