(57) **CLAIM**

The ornamental design for a sterilization tray device, as shown and described.

**DESCRIPTION**

FIG. 1 shows a top perspective view of a sterilization tray device of the present invention in the form of a sterilization tray;

FIG. 2 shows a top plan view;

FIG. 3 shows a front elevational view;

FIG. 4 shows a bottom plan view;

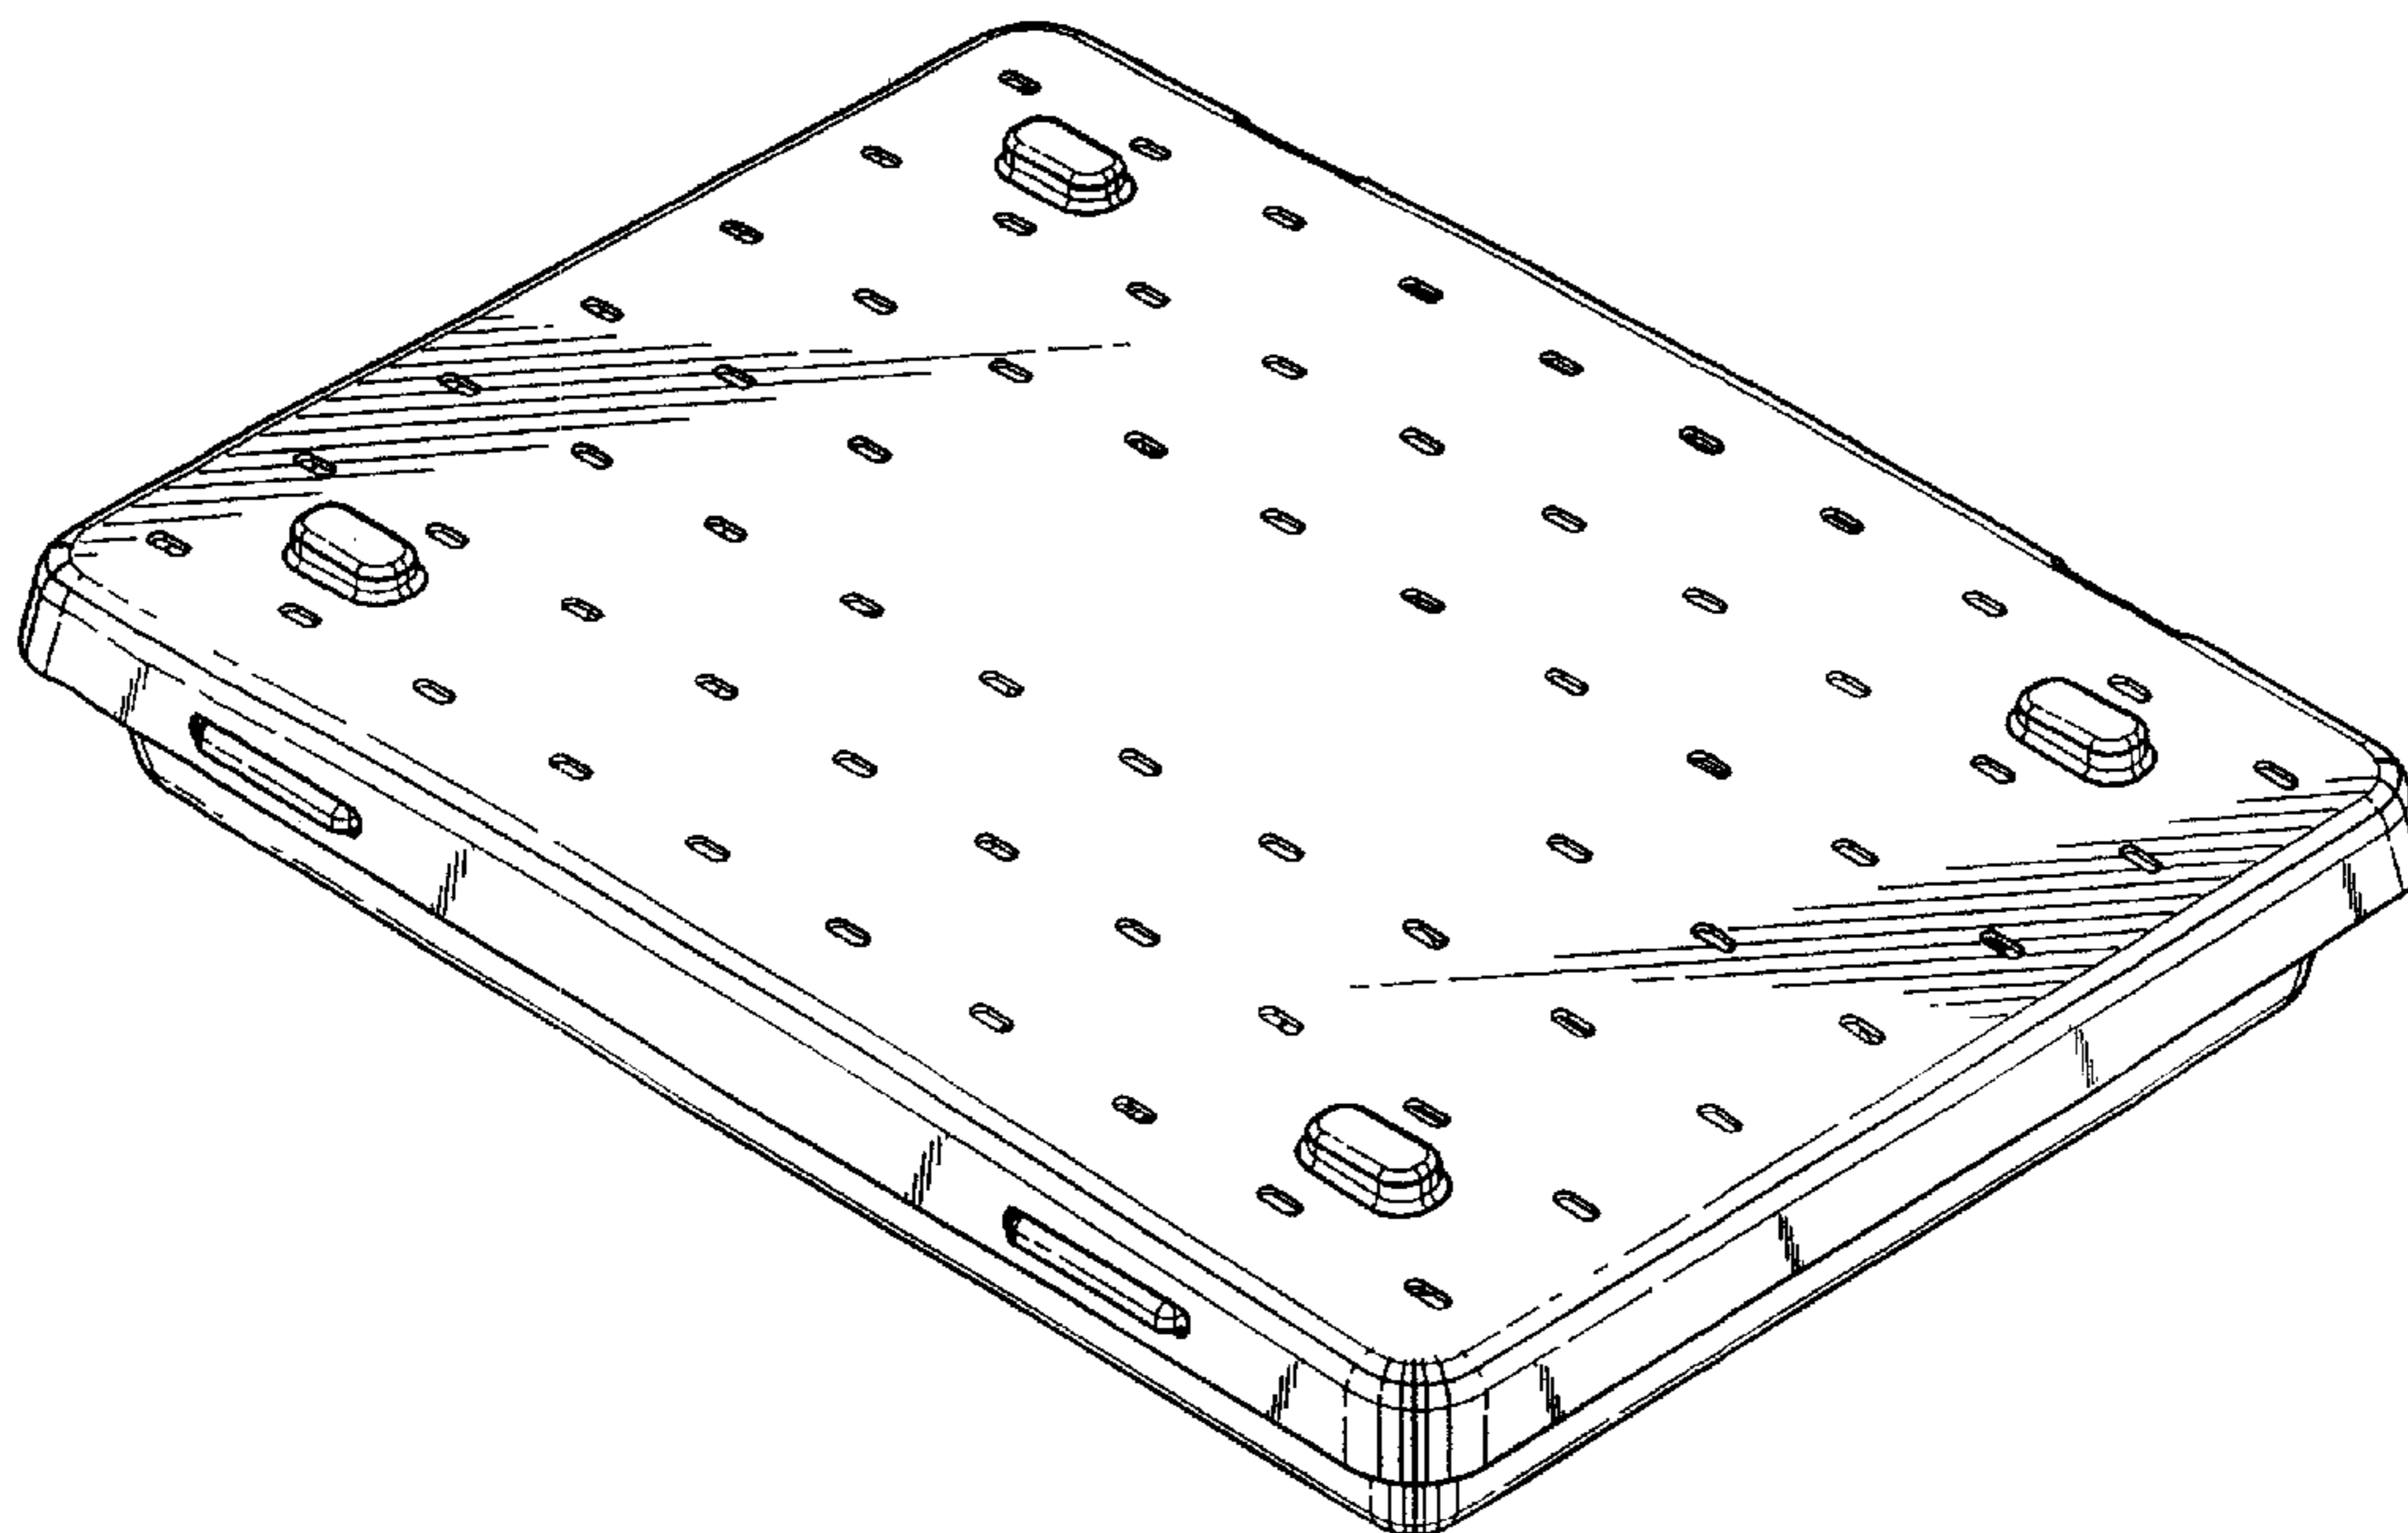

FIG. 5 shows a rear elevational view;

FIG. 6 shows a left side elevational view; and,

FIG. 7 shows a right side elevational view.

The sterilization tray device includes the lidded container of FIGS. 1-7 in which, for example, medical instruments can be placed in order to be sterilized.
