(57) **CLAIM**

The ornamental design for a combined fan and novelty item, substantially as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view showing the front, top, and one side of the first embodiment of our invention.

FIG. 2 is a reduced elevation view of the front of the first embodiment of our invention.

FIG. 3 is a reduced elevation view of the first side of the first embodiment of our invention.

FIG. 4 is a reduced elevation view of the top of the first embodiment of our invention.

FIG. 5 is a reduced elevation view of the rear of the first embodiment of our invention.

FIG. 6 is a reduced elevation view of the second side of the first embodiment of our invention.

FIG. 7 is a reduced plan view of the bottom of the first embodiment of our invention.

FIG. 8 is an isometric view showing the front, top, and one side of the second embodiment of our invention.

FIG. 9 is a reduced elevation view of the front of the second embodiment of our invention.

FIG. 10 is a reduced elevation view of the first side of the second embodiment of our invention.

FIG. 11 is a reduced elevation view of the top of the second embodiment of our invention.

FIG. 12 is a reduced elevation view of the rear of the second embodiment of our invention.

FIG. 13 is a reduced elevation view of the second side of the second embodiment of our invention; and,

FIG. 14 is a reduced elevation view of the bottom of the second embodiment of our invention.
