(57) **CLAIM**

An ornamental design for a vibratory element for an inertial device, as shown and described.

DESCRIPTION

FIG. 1 is a top view of a vibratory element for an inertial device showing our new design;

FIG. 2 is a front view of the vibratory element for an inertial device;

FIG. 3 is a bottom view of the vibratory element for an inertial device;

FIG. 4 is a side view of the vibratory element for an inertial device;

FIG. 5 is a back view of the vibratory element for an inertial device;

FIG. 6 is a side view of the vibratory element for an inertial device; and,

FIG. 7 is a perspective view of the vibratory element for an inertial device.
