(57) **CLAIM**

The ornamental design for a lattice display frame with multiple display windows, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the lattice display frame with multiple display windows.

FIG. 2 is a front view of the present invention;

FIG. 3 is a back view of the present invention;

FIG. 4 is a top view of the present invention;

FIG. 5 is a bottom view of the present invention;

FIG. 6 is a right side view of the present invention; and,

FIG. 7 is a left side view of the present invention.

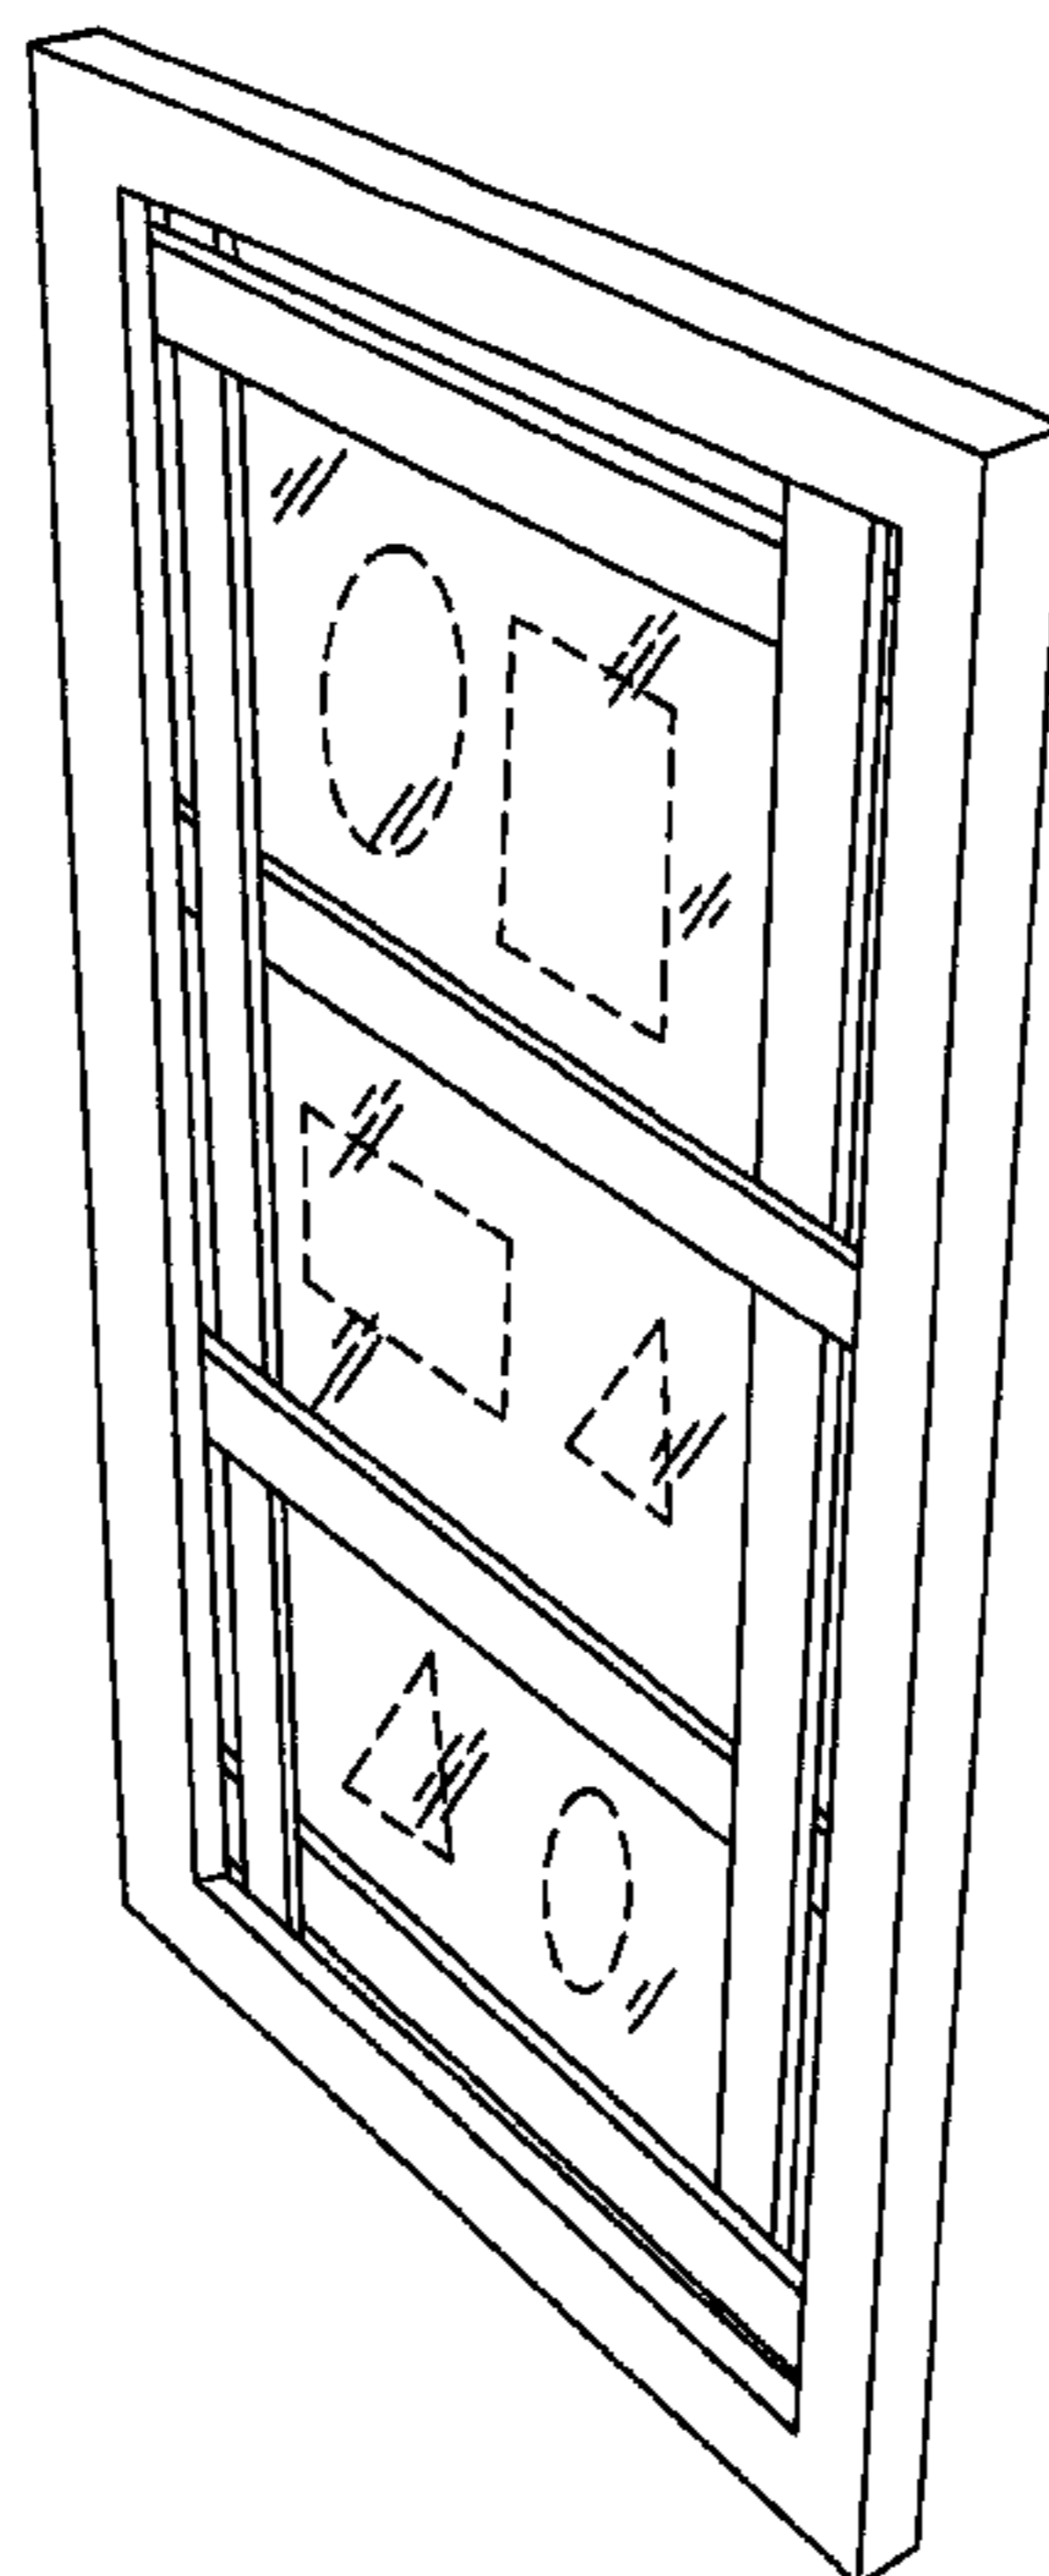

In the front perspective view of FIG. 1 and front view of

FIG. 2, the lattice network is before the transparent facing.

In the back view of FIG. 3, the lattice network is behind the

transparent facing.
