(57) **CLAIM**

The ornamental design for a face display for a timepiece, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the face display for a timepiece showing a typical time indication of 5:45; and, FIG. 2 is a front elevational view of a face display for a timepiece shown in a wall clock, an environment in which the design is used, and showing a typical time indication of 5:45.

The broken lines showing a wall clock in FIG. 2 are for illustrative purposes only and form no part of the claimed design.

The face display for a timepiece is conventionally of no appreciable thickness, and the rear is flat and unornamented.
