U.S. Appl. No. 29/255,393, filed Mar. 8, 2006, Scharr.

Primary Examiner—Ralf Seifert

(57) **CLAIM**

I claim the ornamental design for a combined jewelry component and a cap, as shown and described.

DESCRIPTION

Cross reference to other related Design Patent Applications: Design patent application 29/255,393 filed 03/08/2006; Three other design patent applications filed on this date entitled: A Combined Jewelry Component and a Cap.

FIG. 1 is an exploded front view of the combined jewelry component and cap, with the cap removed; according to the present invention;

FIG. 2 is an exploded perspective back view of the combined jewelry component and cap, with the cap attached; according to the present invention;

FIG. 3 is an exploded perspective front view of the combined jewelry component and cap, with the cap attached; according to the present invention;

FIG. 4 is the right side view of the combined jewelry component and cap, with the cap removed, the reverse side is identical to the right view.

FIG. 5 is the left side view of the combined jewelry component and cap, with the cap removed, the reverse side is identical to the left view;

FIG. 6 is the bottom view of the jewelry component and the bottom view of the cap, with the cap removed from the jewelry component;

FIG. 7 is the top view of the jewelry component, and the top view of the cap, with the cap removed from the jewelry component;

FIG. 8 is the right side view of the combined jewelry component and cap, with the cap attached; the reverse side is identical the right view;

FIG. 9 is the left side view of the combined jewelry component and cap, with the cap attached; the reverse side is identical the left view;

FIG. 10 is the bottom view of the combined jewelry component and cap, with the cap attached; and,

FIG. 11 is the top view of the combined jewelry component and cap, with the cap attached.

The design of the present invention as shown in FIGS. 1-11 is a combined metal body member and cap member, comprised of an aperture on the cap member and a loop or ring on the body member.
