(57) **CLAIM**

The ornamental design for a touch and hold connector strip for an electronic token, as shown and described.

**DESCRIPTION**

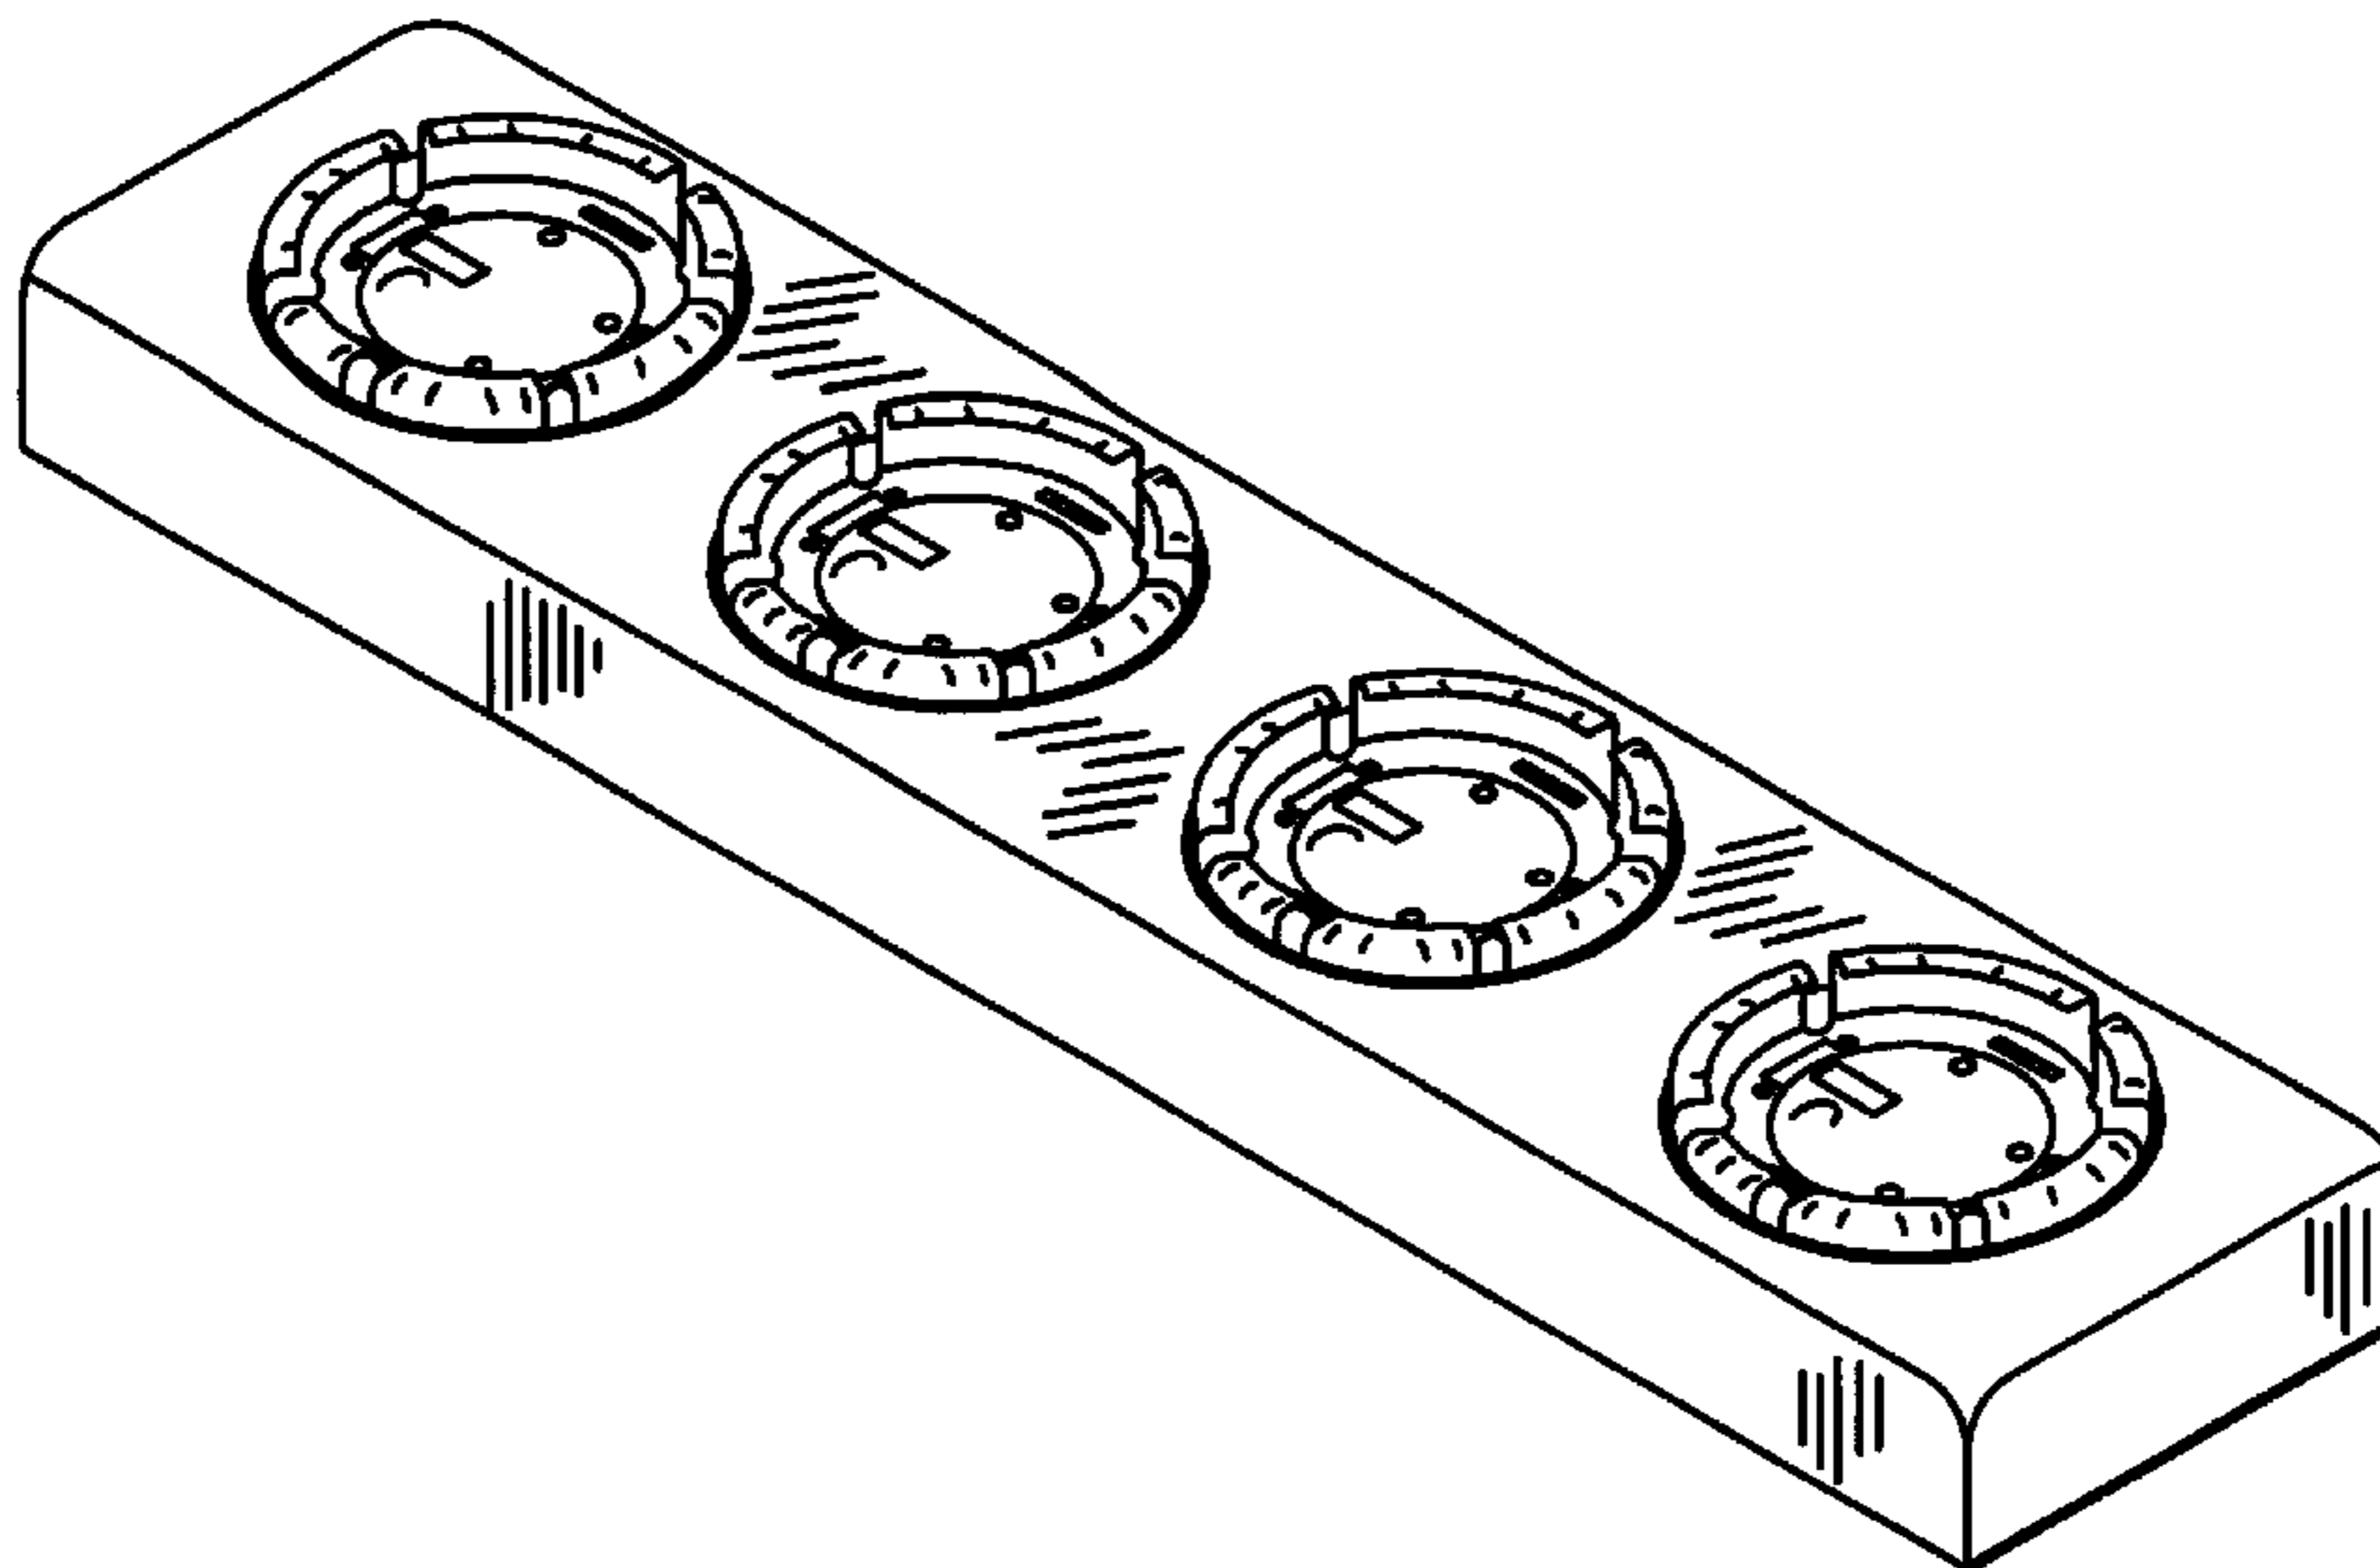

FIG. 1 is a perspective view of a touch and hold connector strip for an electronic token,

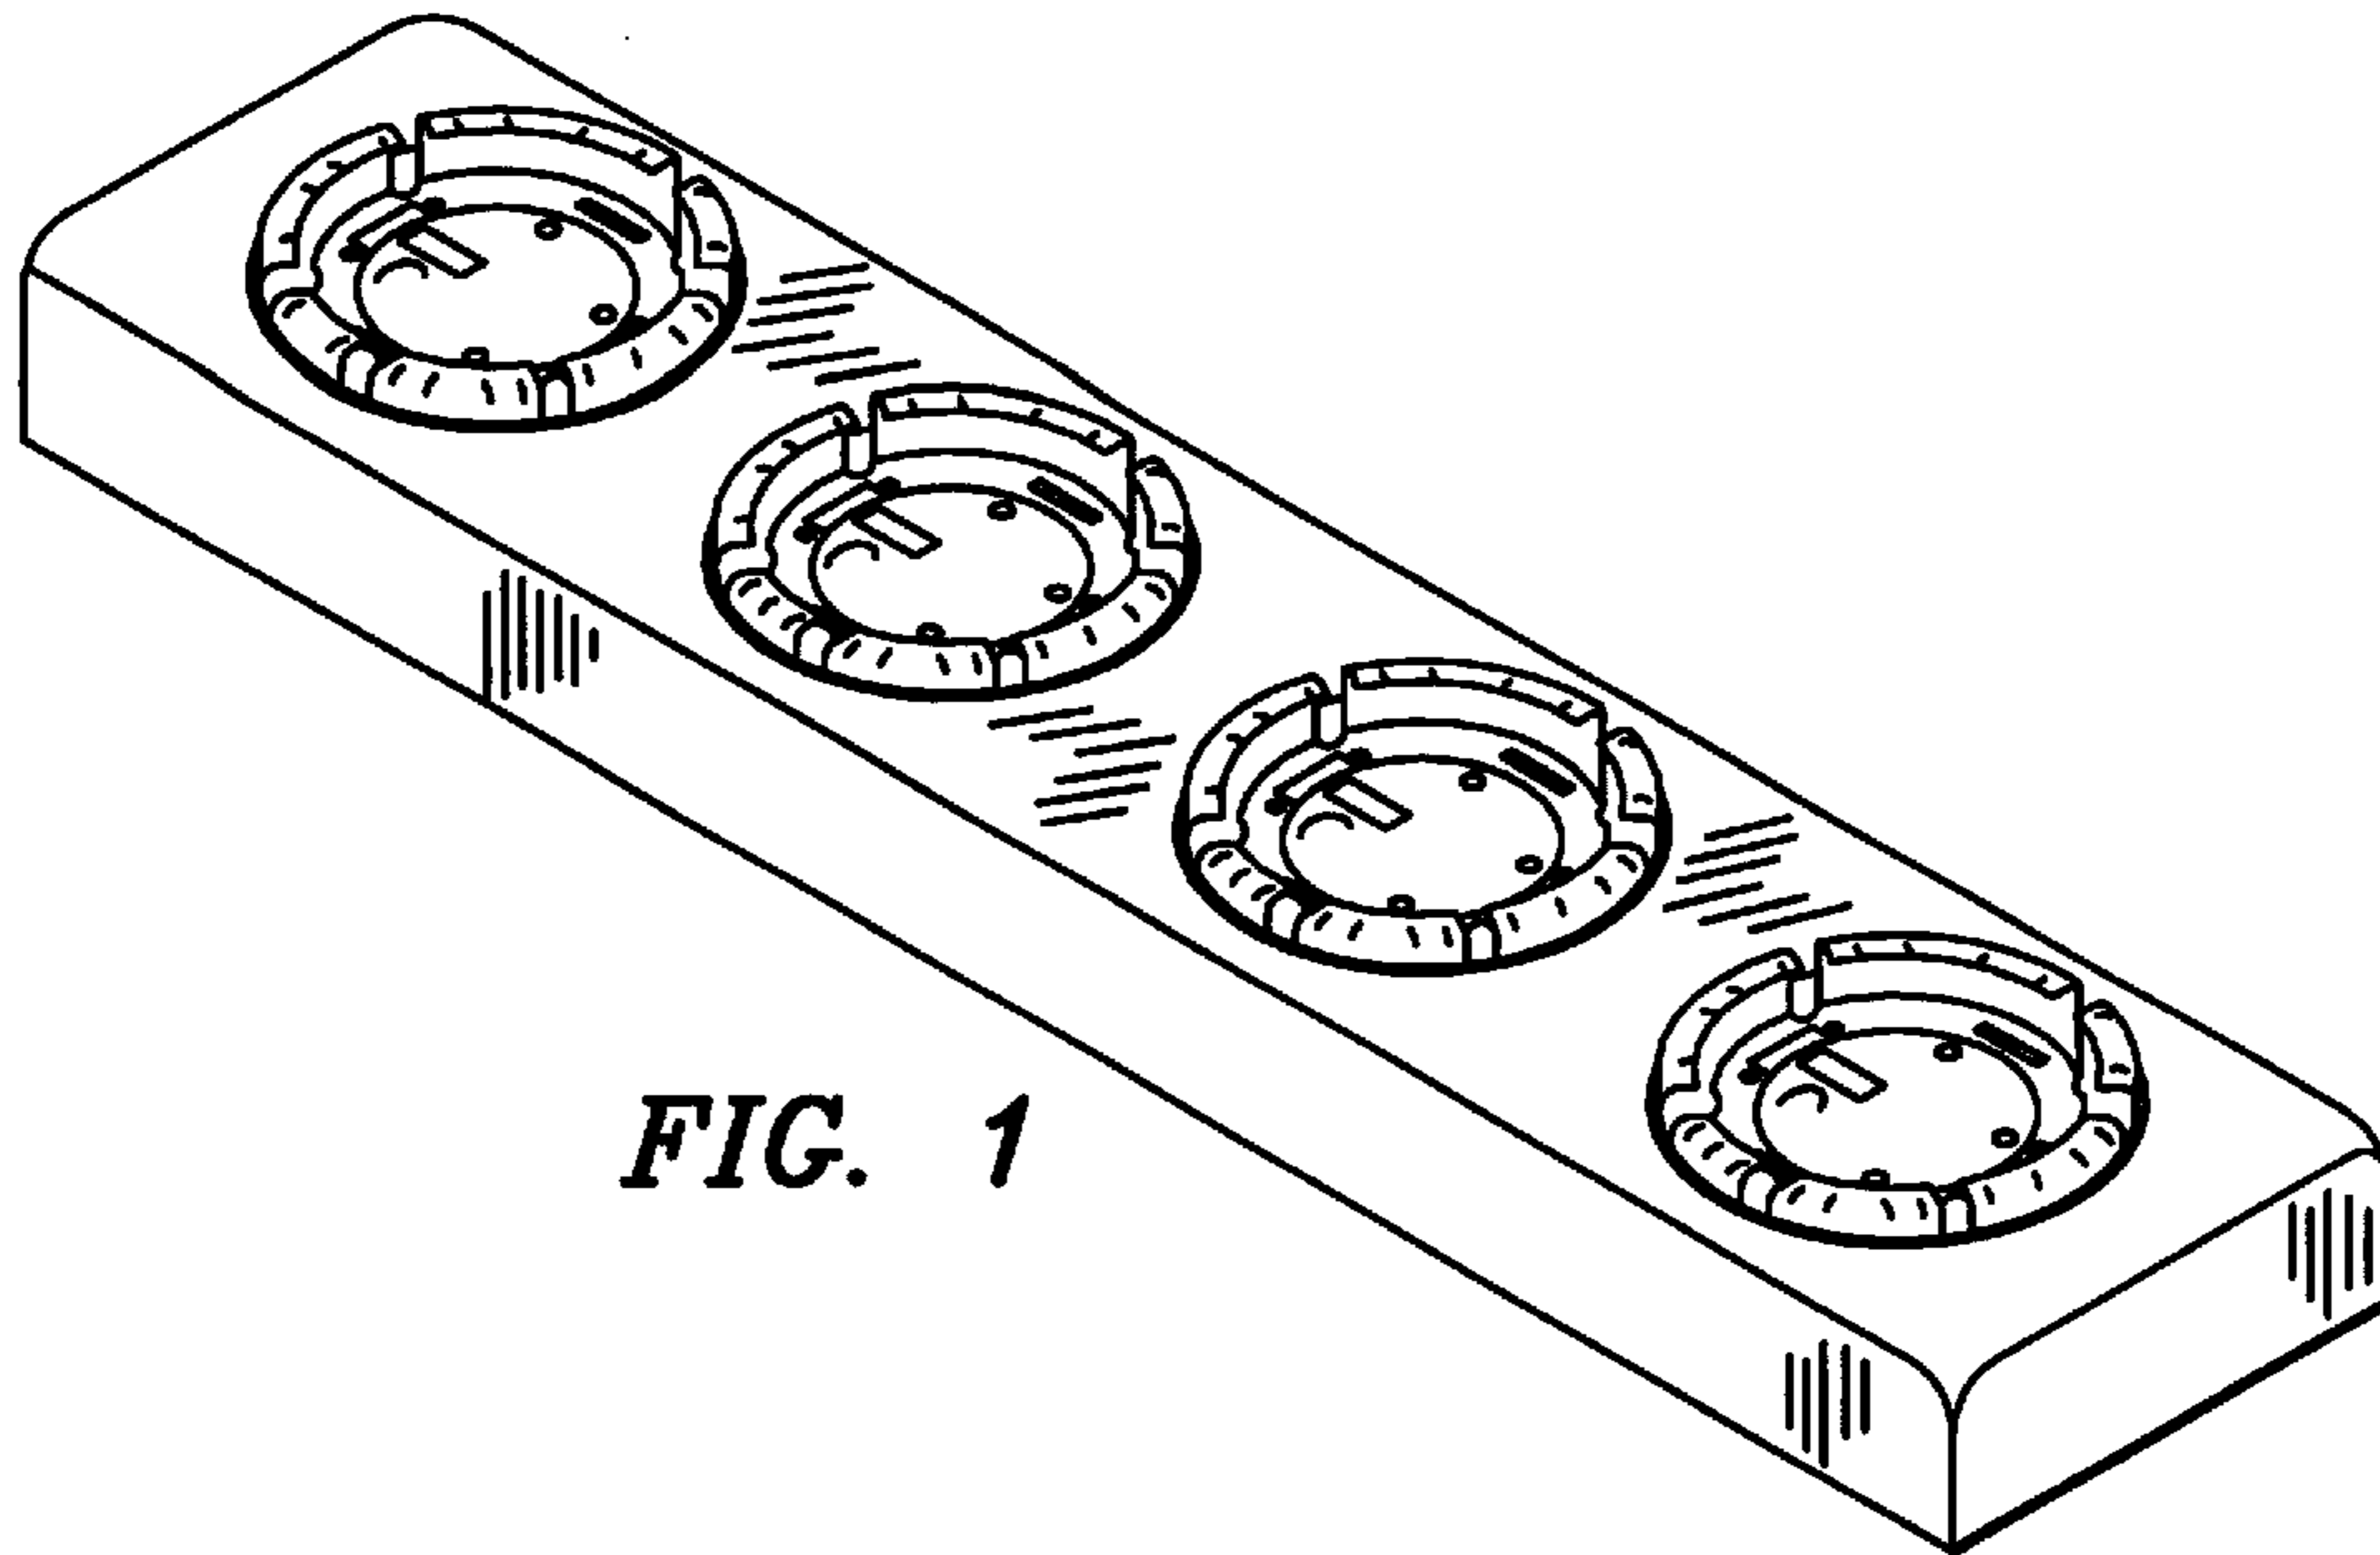

FIG. 2 is a top view of a touch and hold connector strip for an electronic token,

FIG. 3 is an end view of a touch and hold connector strip for an electronic token, the opposite end view is a mirror image; FIG. 4 is a side view of a touch and hold connector strip for an electronic token, the opposite side view is a mirror image; and,

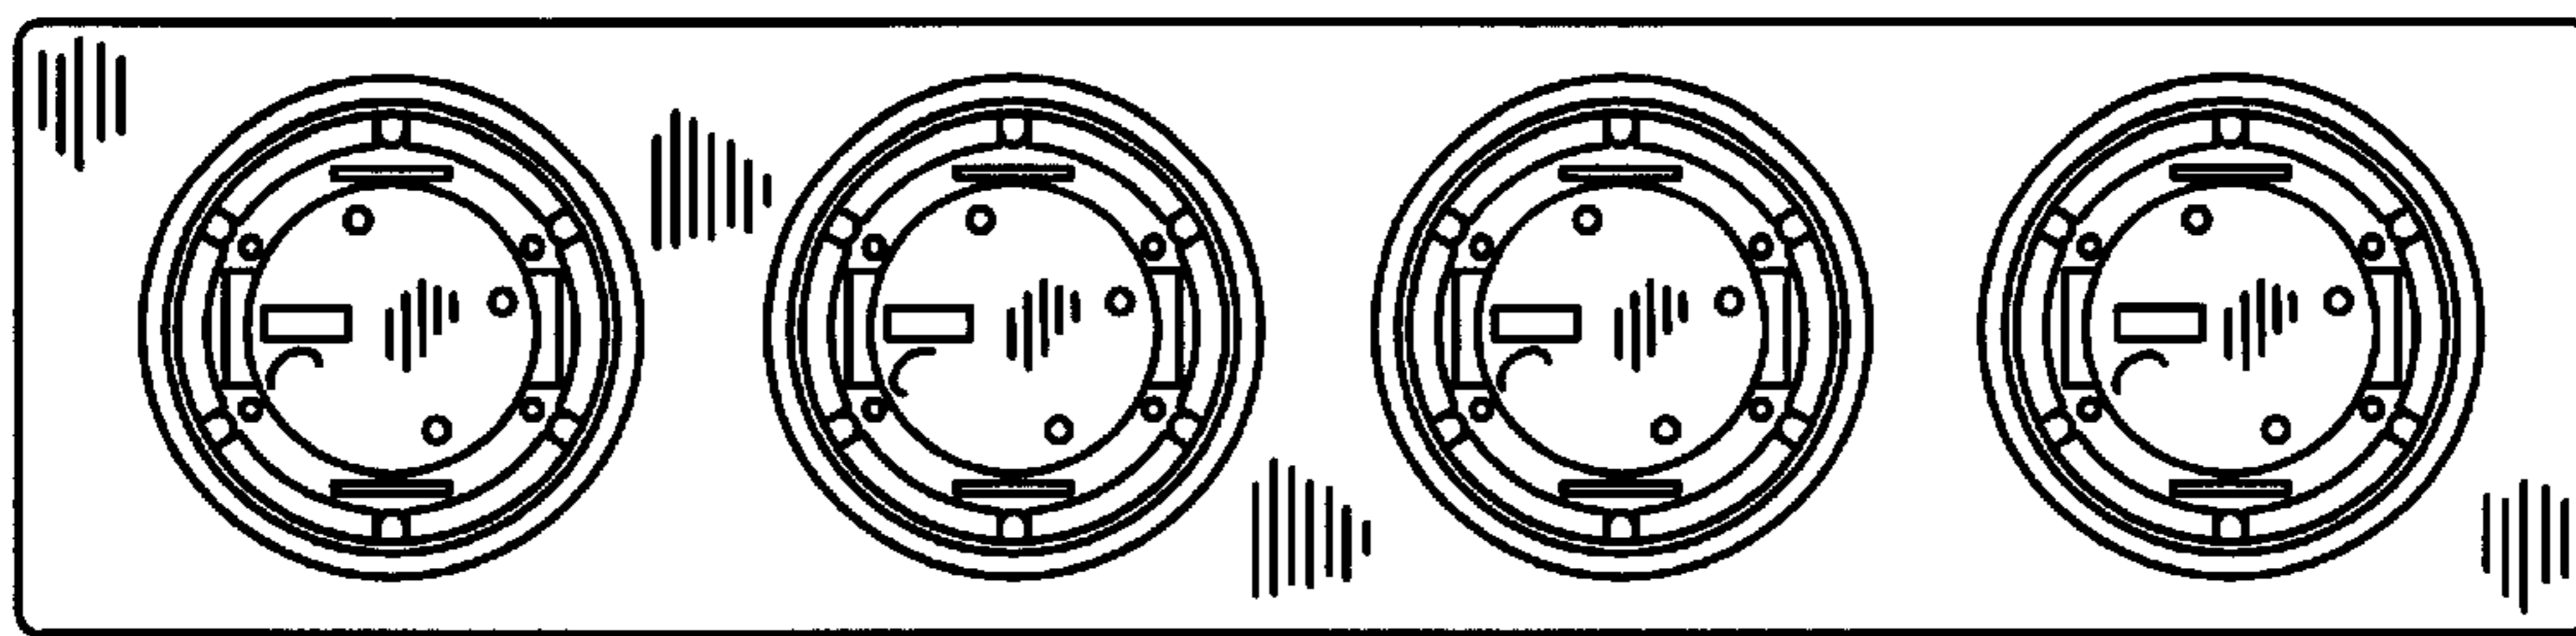

FIG. 5 is a bottom view of a touch and hold connector strip for an electronic token.
