

US00D535969S

(12) **United States Design Patent**  
**Haney**

(10) **Patent No.:** **US D535,969 S**

(45) **Date of Patent:** **\*\* Jan. 30, 2007**

(54) **CORDLESS TELEPHONE**

(75) Inventor: **Paul Stephen Haney**, Noblesville, IN (US)

(73) Assignee: **Thomson Licensing S.A.**, Indianapolis, IN (US)

(\*\*) Term: **14 Years**

(21) Appl. No.: **29/206,855**

(22) Filed: **Jun. 3, 2004**

(51) **LOC (8) Cl.** ..... **14-03**

(52) **U.S. Cl.** ..... **D14/148**

(58) **Field of Classification Search** ..... D14/137, D14/138, 143, 144, 147, 148, 149, 150, 218, D14/250; D13/168; 379/428.01, 428.02, 379/433.04, 433.07, 433.11, 434, 451, 452; D26/32, 37, 38, 47, 51, 57, 94, 97

See application file for complete search history.

(57) **CLAIM**

The ornamental design for a cordless telephone, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of the design for the cordless telephone comprising a handset and base station and having a number of environmental features, namely, a microphone opening, a plurality of buttons, a caller-id display, a page button, an indicator light, and a speaker opening;

FIG. 2 is an exploded front perspective view of the design for the cordless telephone of FIG. 1, illustrating an environmental microphone opening and further illustrating the environmental buttons, caller-id display, page button, indicator light, and speaker opening introduced in FIG. 1;

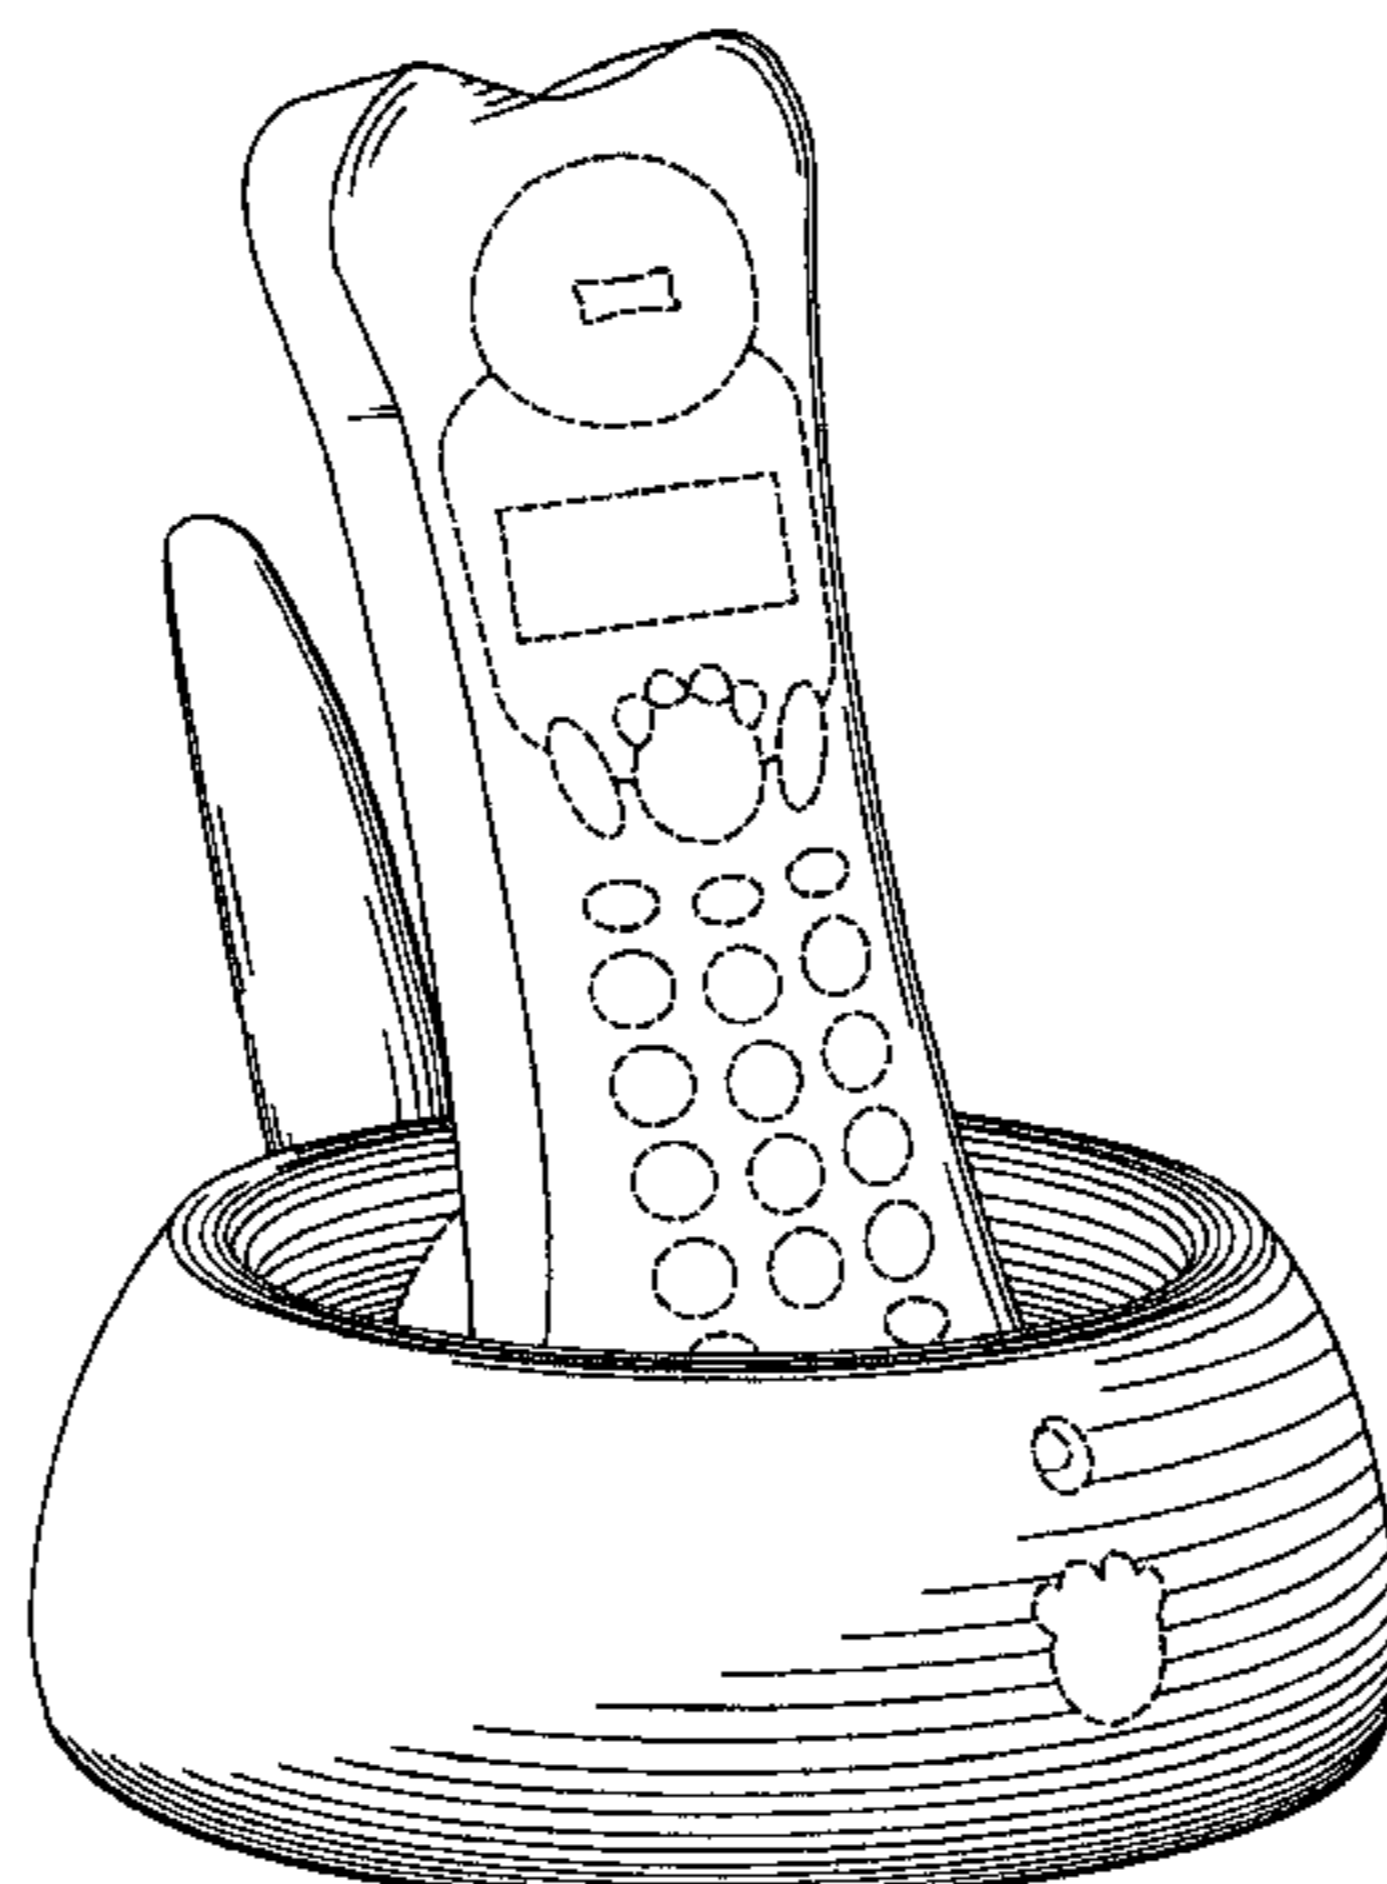

FIG. 3 is a front view of the design for the cordless telephone handset of FIG. 1, further illustrating the environmental buttons, caller-id display, and speaker opening introduced in FIG. 1 and the environmental microphone opening introduced in FIG. 2;

FIG. 4 is a right side view of the cordless telephone handset of FIG. 1, further illustrating the environmental buttons, caller id display, and speaker opening introduced in FIG. 1 and the environmental microphone opening introduced in FIG. 2, the left side view being a mirror image thereof; and, FIG. 5 is a front view of the design for the cordless telephone base station of FIG. 1, further illustrating the environmental indicator light and page button introduced in FIG. 1.

The cordless telephone base station and handset are shown separately in FIGS. 3, 4, and 5 for the convenience of illustration.

The broken lines in the above-listed figures are used to indicate environmental structures and features and form no part of the claimed design. The broken line with an arrow tip in FIG. 2 is intended to set forth the path along which the handset is exploded from the base.
