(57) **CLAIM**

The ornamental design for a body mass index calculator, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a body mass index calculator comprising a tape measure, a calculator and a reference card providing information to be utilized in a calculation made by using tape measure information, in accordance with the present invention.

FIG. 2 is a front elevational view of the body mass index calculator shown in FIG. 1.

FIG. 3 is a front elevational view of the body mass index calculator shown in FIG. 1, with a reference card portion extended therefrom.

FIG. 4 is a right side elevational view of the body mass index calculator shown in FIG. 1.

FIG. 5 is a left side elevational view of the body mass index calculator shown in FIG. 1.

FIG. 6 is a top plan view of the body mass index calculator shown in FIG. 1.

FIG. 7 is a bottom plan view of the body mass index calculator shown in FIG. 1; and,

FIG. 8 is a front perspective view of the body mass index calculator shown in FIG. 1, with a reference card portion extended therefrom and a tape measure portion shown removed therefrom.

The rear plan view of the body mass index calculator, any indicia or graphic depictions on the reference card and the tape measure as removed do not form a part of the invention.
