(57) **CLAIM**

The ornamental design for a light having a bendable neck,
substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an example embodiment of
an ornamental design for a light having a bendable neck
between a light-producing end and a housing, in which the
bendable neck is illustrated as being bent into a "U" shape;
FIG. 2 is a side view of the example embodiment of an
ornamental design for a light having a bendable neck shown
in FIG. 1;

FIG. 3 is an end view of the light producing end of the
example embodiment of an ornamental design for a light
having a bendable neck shown in FIGS. 1 and 2, in which
the bendable neck is bent to place the housing in view;

FIG. 4 is an end view of the housing of the example
embodiment of an ornamental design for a light having a
bendable neck shown in FIGS. 1, 2 and 3, in which the
bendable neck is bent to place the light producing end in
view; and,

FIG. 5 is a side view of an example embodiment of an
ornamental design for a light having a bendable neck, in
which the bendable neck is illustrated as being bent into a
loop, and having end views substantially as shown in FIGS.
3 and 4.

Broken lines in the illustrations of the FIGURES of the
drawing indicate parts of the article that are not part of the
design illustrated therein. For example, the bendable neck of
the light may be longer or shorter than illustrated.
