(57) **CLAIM**

I claim the ornamental design for the compound composition sunshade, as shown.

DESCRIPTION

FIG. 1 is a front view of a compound composition sunshade. FIG. 2 is a rear view of the compound composition sunshade shown in FIG. 1.

FIG. 3 is a top view of the compound composition sunshade shown in FIG. 1 (the bottom view being substantially identical to the top view).

FIG. 4 is a right side view of the compound composition sunshade shown in FIG. 1 (the left side view being substantially identical to the top view).

FIG. 5 is a front view of a second embodiment of the compound composition sunshade.

FIG. 6 is a rear view of the compound composition sunshade shown in FIG. 5.

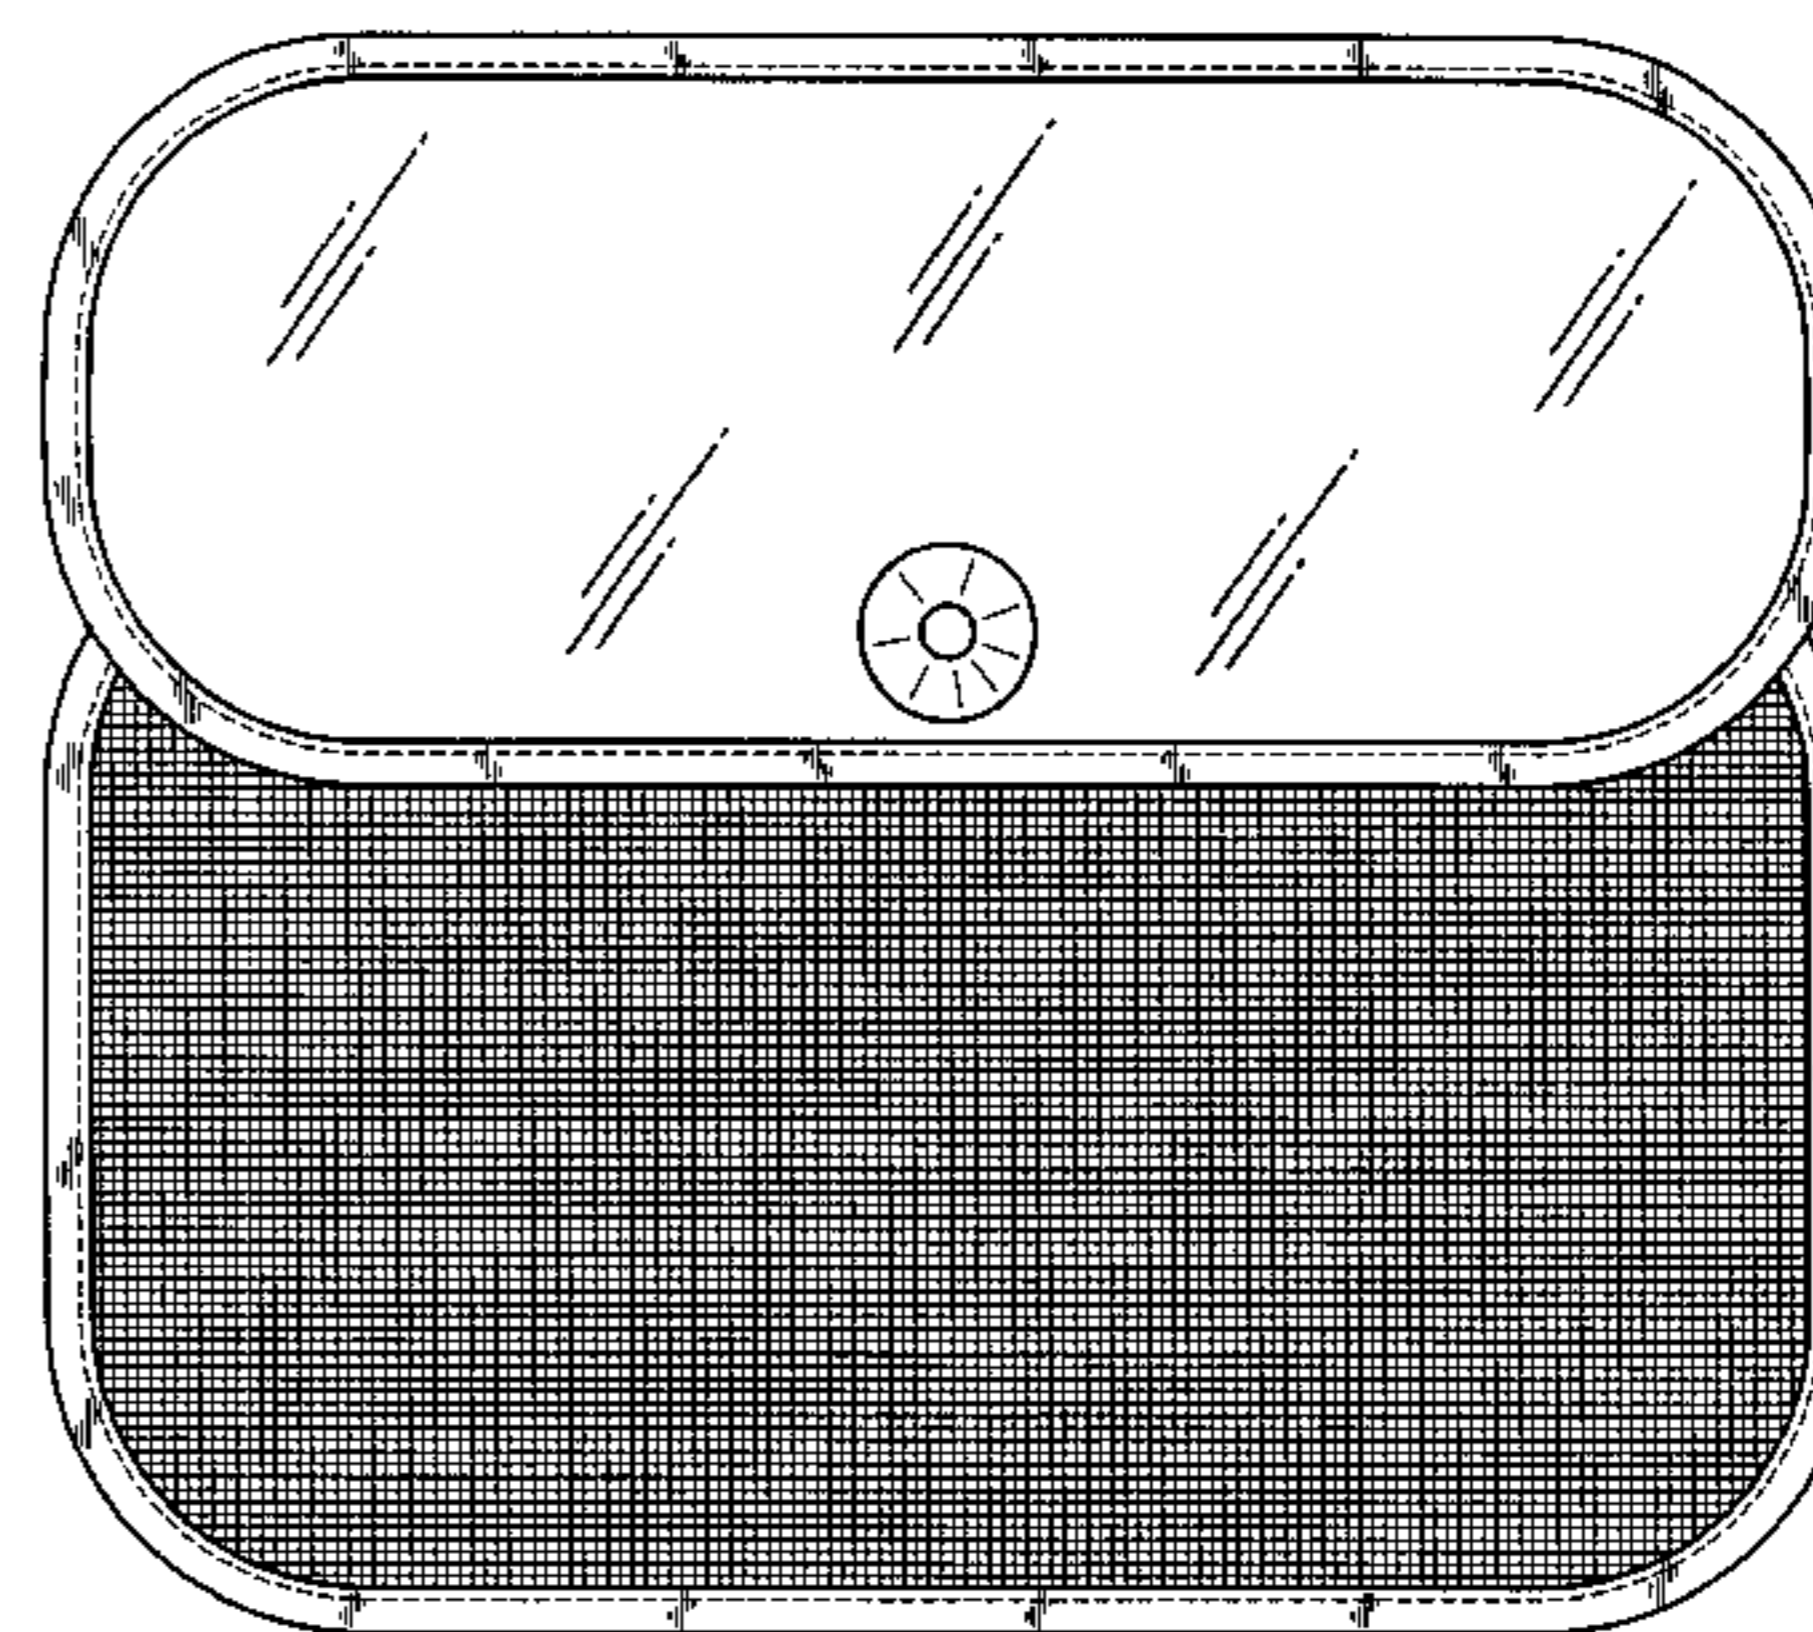

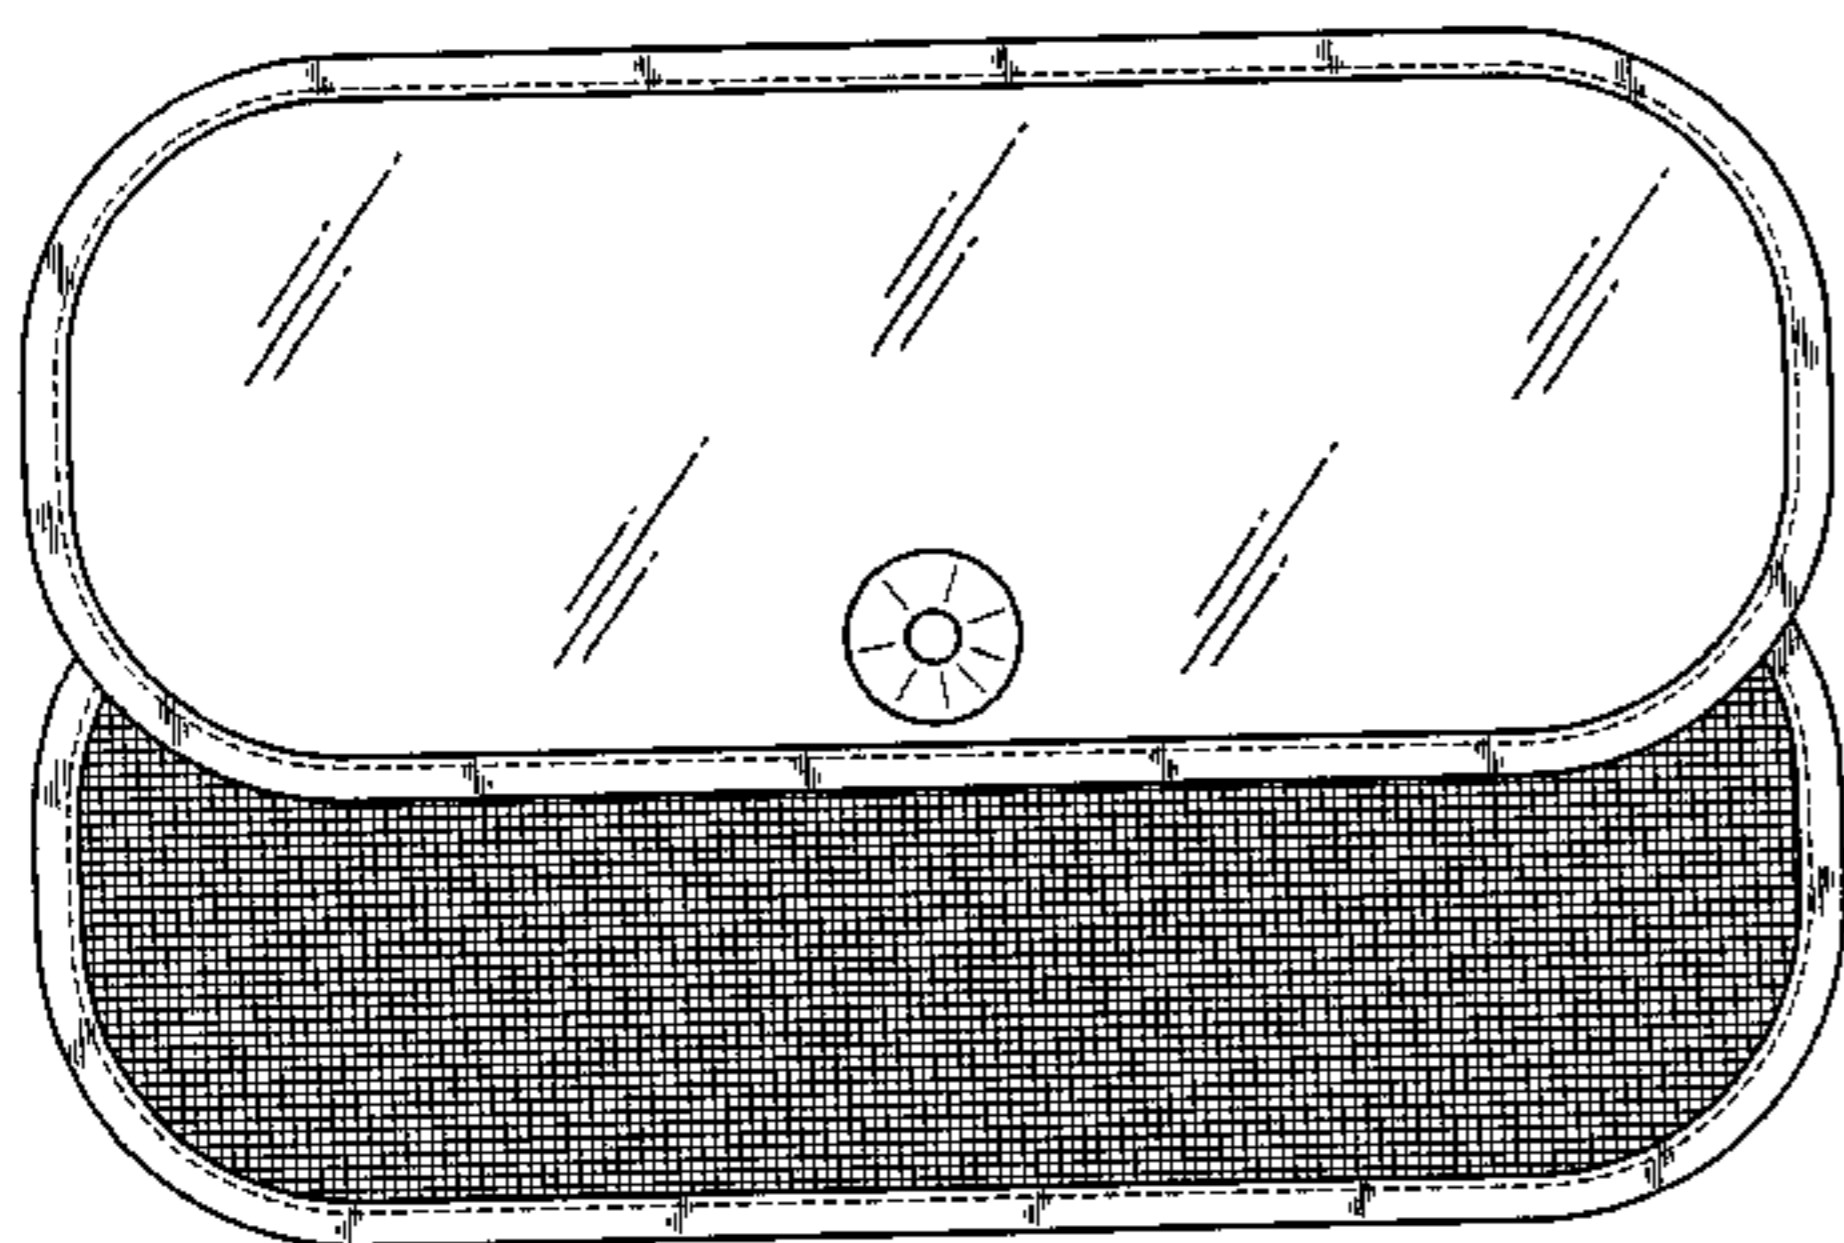

FIG. 7 is a top view of the compound composition sunshade shown in FIG. 5 (the bottom view being substantially identical to the top view); and,

FIG. 8 is a right side view of the compound composition sunshade shown in FIG. 5 (the left side view being substantially identical to the top view).

The shade lines in FIGS. 1 and 5 shown on the upper panel of the compound composition sunshade represent a reflective surface. The shade lines in FIGS. 2 and 6 shown on the upper panel of the compound composition sunshade represent a non-reflective surface.

The broken lines shown on the compound, composition sunshade represents stitching and forms a part of the claimed design.
