(57) **CLAIM**

The ornamental design for a "combination document tray and drawer," as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a first embodiment of a combination document tray and drawer showing my new design;

FIG. **2** is a front elevational view of the combination document tray and drawer of FIG. **1**;

FIG. **3** is a left side elevational view of the combination document tray and drawer of FIG. **1**, the right side elevational view being a mirror image thereof;

FIG. **4** is a rear elevational view of the combination document tray and drawer of FIG. **1**;

FIG. **5** is a top plan view of the combination document tray and drawer of FIG. **1**;

FIG. **6** is a bottom plan view of the combination document tray and drawer of FIG. **1**;

FIG. **7** is a perspective view of a second embodiment of the combination document tray and drawer;

FIG. **8** is a front elevational view of the stack of FIG. **7**;

FIG. **9** is a left side elevational view of the stack of FIG. **7**, the right side being a mirror image thereof;

FIG. **10** is a rear elevational view of the stack of FIG. **7**;

FIG. **11** is a top plan view of the stack of FIG. **7**;

FIG. **12** is a bottom plan view of the stack of FIG. **7**;

FIG. **13** is a perspective view of a third embodiment of the combination document tray and drawer;

FIG. **14.** is a front elevational view of the combination document tray and drawer of FIG. **13**;

FIG. **15** is a left side elevational view of the combination document tray and drawer of FIG. **13**, the right side being a mirror image thereof;

FIG. **16** is a rear elevational view of the combination document tray and drawer of FIG. **13**;

FIG. **17** is a top plan view of the combination document tray and drawer of FIG. **13**;

FIG. **18** is a perspective view of a fourth embodiment of the combination document tray and drawer;

FIG. **19** is a front elevational view of the stack of FIG. **18**;

FIG. **20** is a left side elevational view of the stack of FIG. **18**, the right side being a mirror image thereof;

FIG. **21** is a rear elevational view of the stack of FIG. **18**; and,

FIG. **22** is a top plan view of the stack of FIG. **18**.

The dashed lines are for illustrative purposes only and form no part of the claimed design.
