(57) **CLAIM**

The ornamental design for a support assembly for an information display, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the top, front and left side of a support assembly for an information display showing my new design;

FIG. 2 is an exploded perspective view of the support assembly shown in FIG. 1;

FIG. 3 is a perspective view of the top, front and left side of a first component of the information display;

FIG. 4 is a perspective view of the top, rear and right side of the first component;

FIG. 5 is the right side elevational view of the first component thereof;

FIG. 6 is a perspective view of the top, front and left side of a second component of the information display;

FIG. 7 is a perspective view of the top, rear and right side thereof; and,

FIG. 8 is a left side elevational view of the second component thereof.

The elements shown in phantom lines are for illustrative purposes only and form no part of the claimed design.

The elements of the claimed design are shown separately for clarity of illustration.

The broken lines which define the bounds of the claimed design form no part thereof.

The brackets are shown broken away to indicate indeterminate length.
