(57) **CLAIM**

The ornamental design for the radio frequency identification reader housing, as shown.

DESCRIPTION

The article is an radio frequency identification reader housing which is used to cover the electronics of a reader for radio frequency identification (RFID) credentials.

FIG. 1 is a front perspective view of a radio frequency identification reader housing showing my design;

FIG. 2 is a back perspective view thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a top elevational view thereof;

FIG. 5 is a side elevational view thereof, wherein the elevational view of the opposite side is substantially identical;

FIG. 6 is a bottom elevational view thereof; and,

FIG. 7 is a back view thereof.

The broken lines are shown in the views for illustrative purposes only and form no part of the claimed design.
