(57) CLAIM

The ornamental design for a fence post, as shown and described.

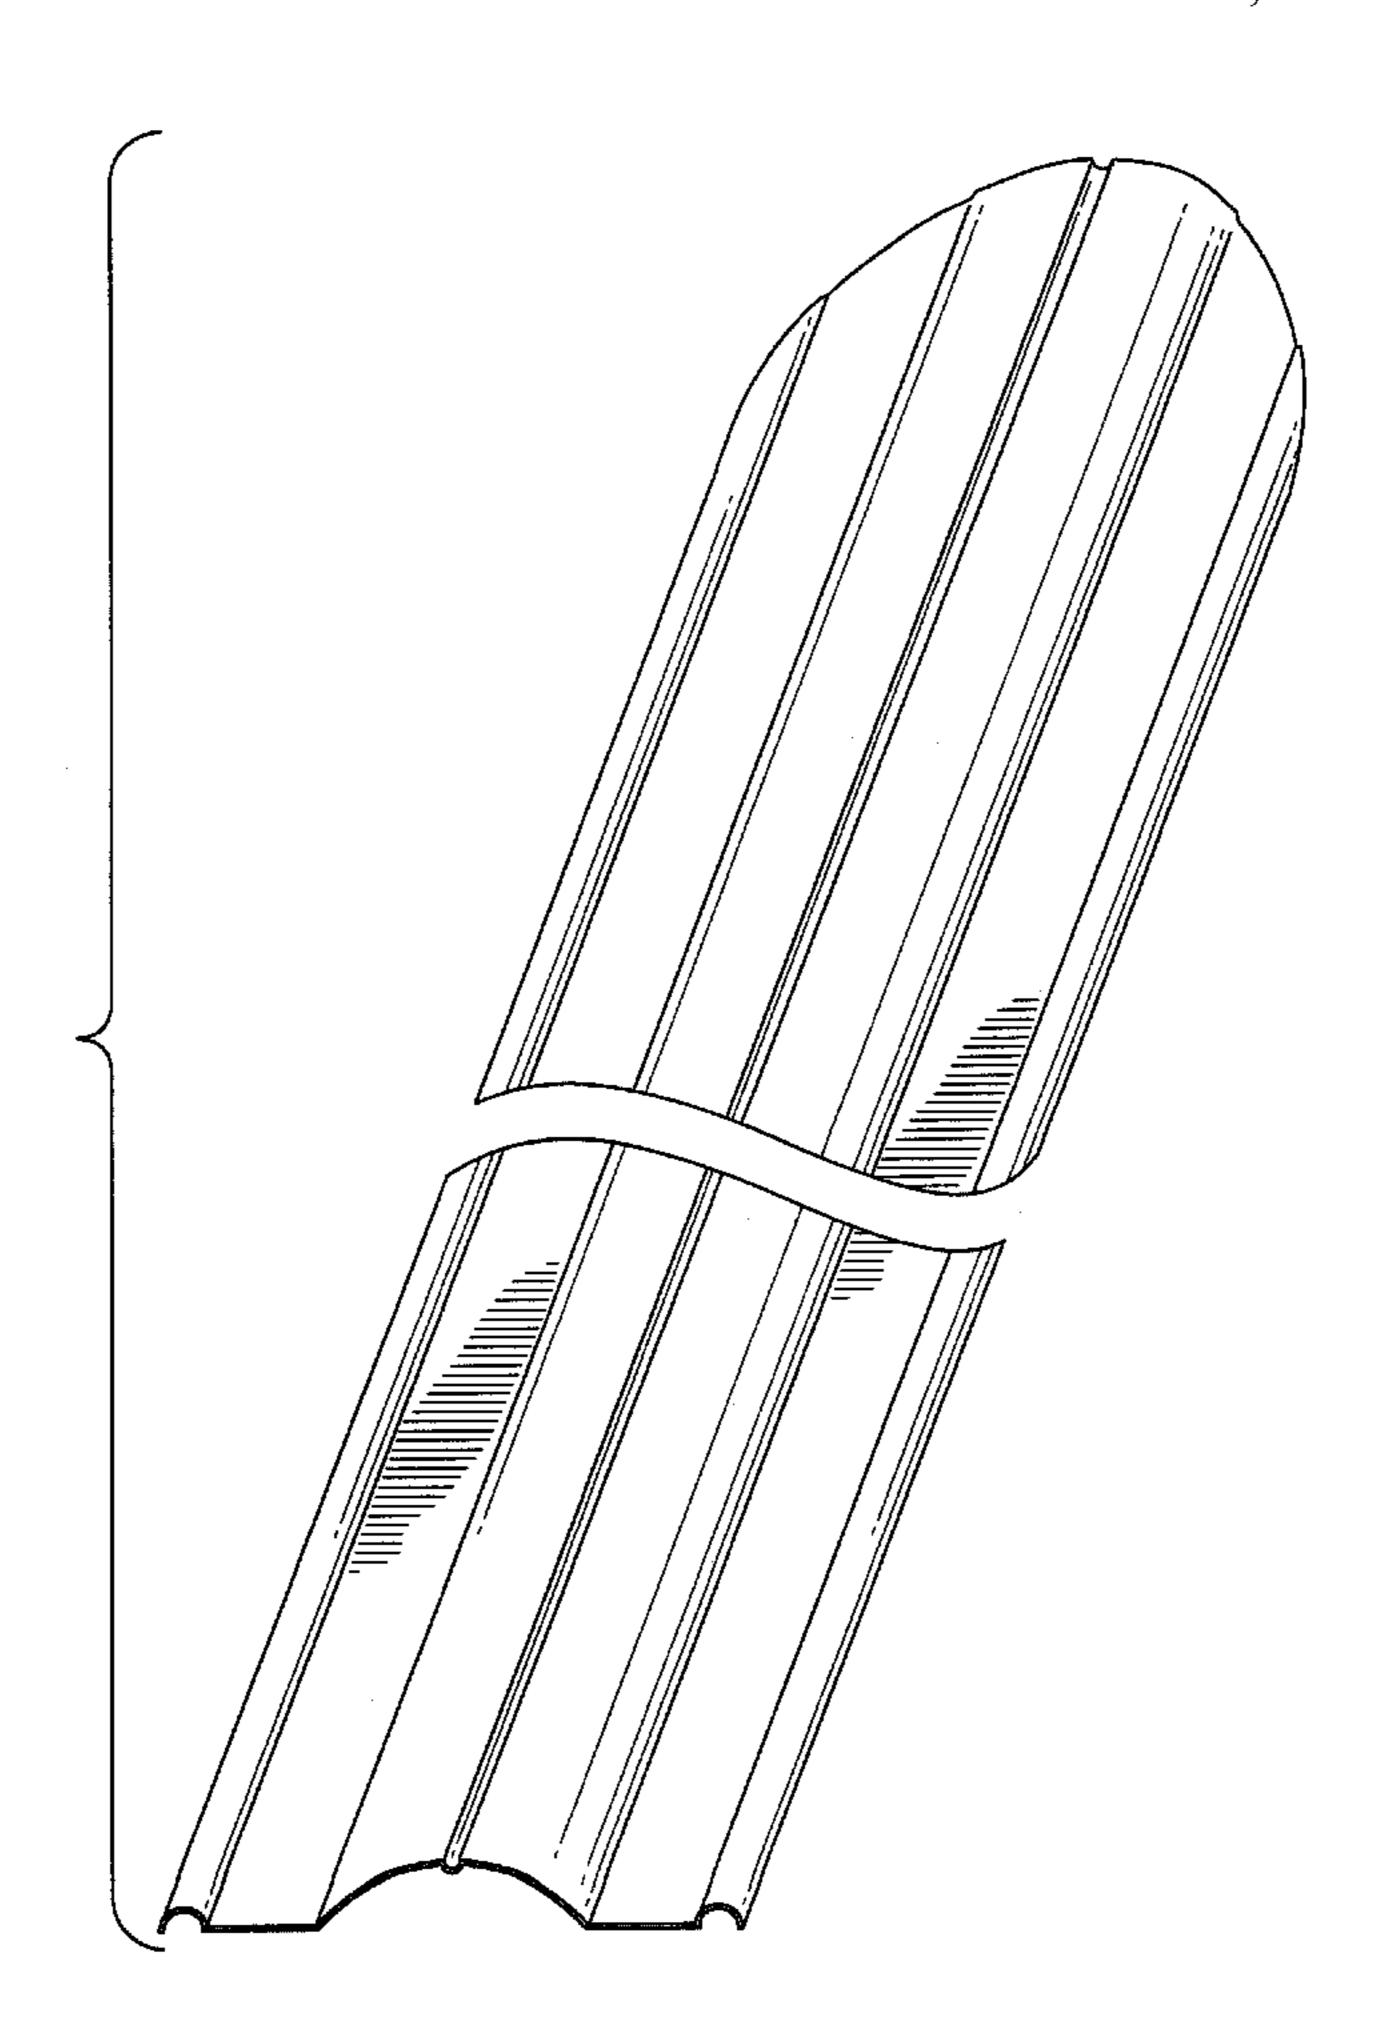

DESCRIPTION

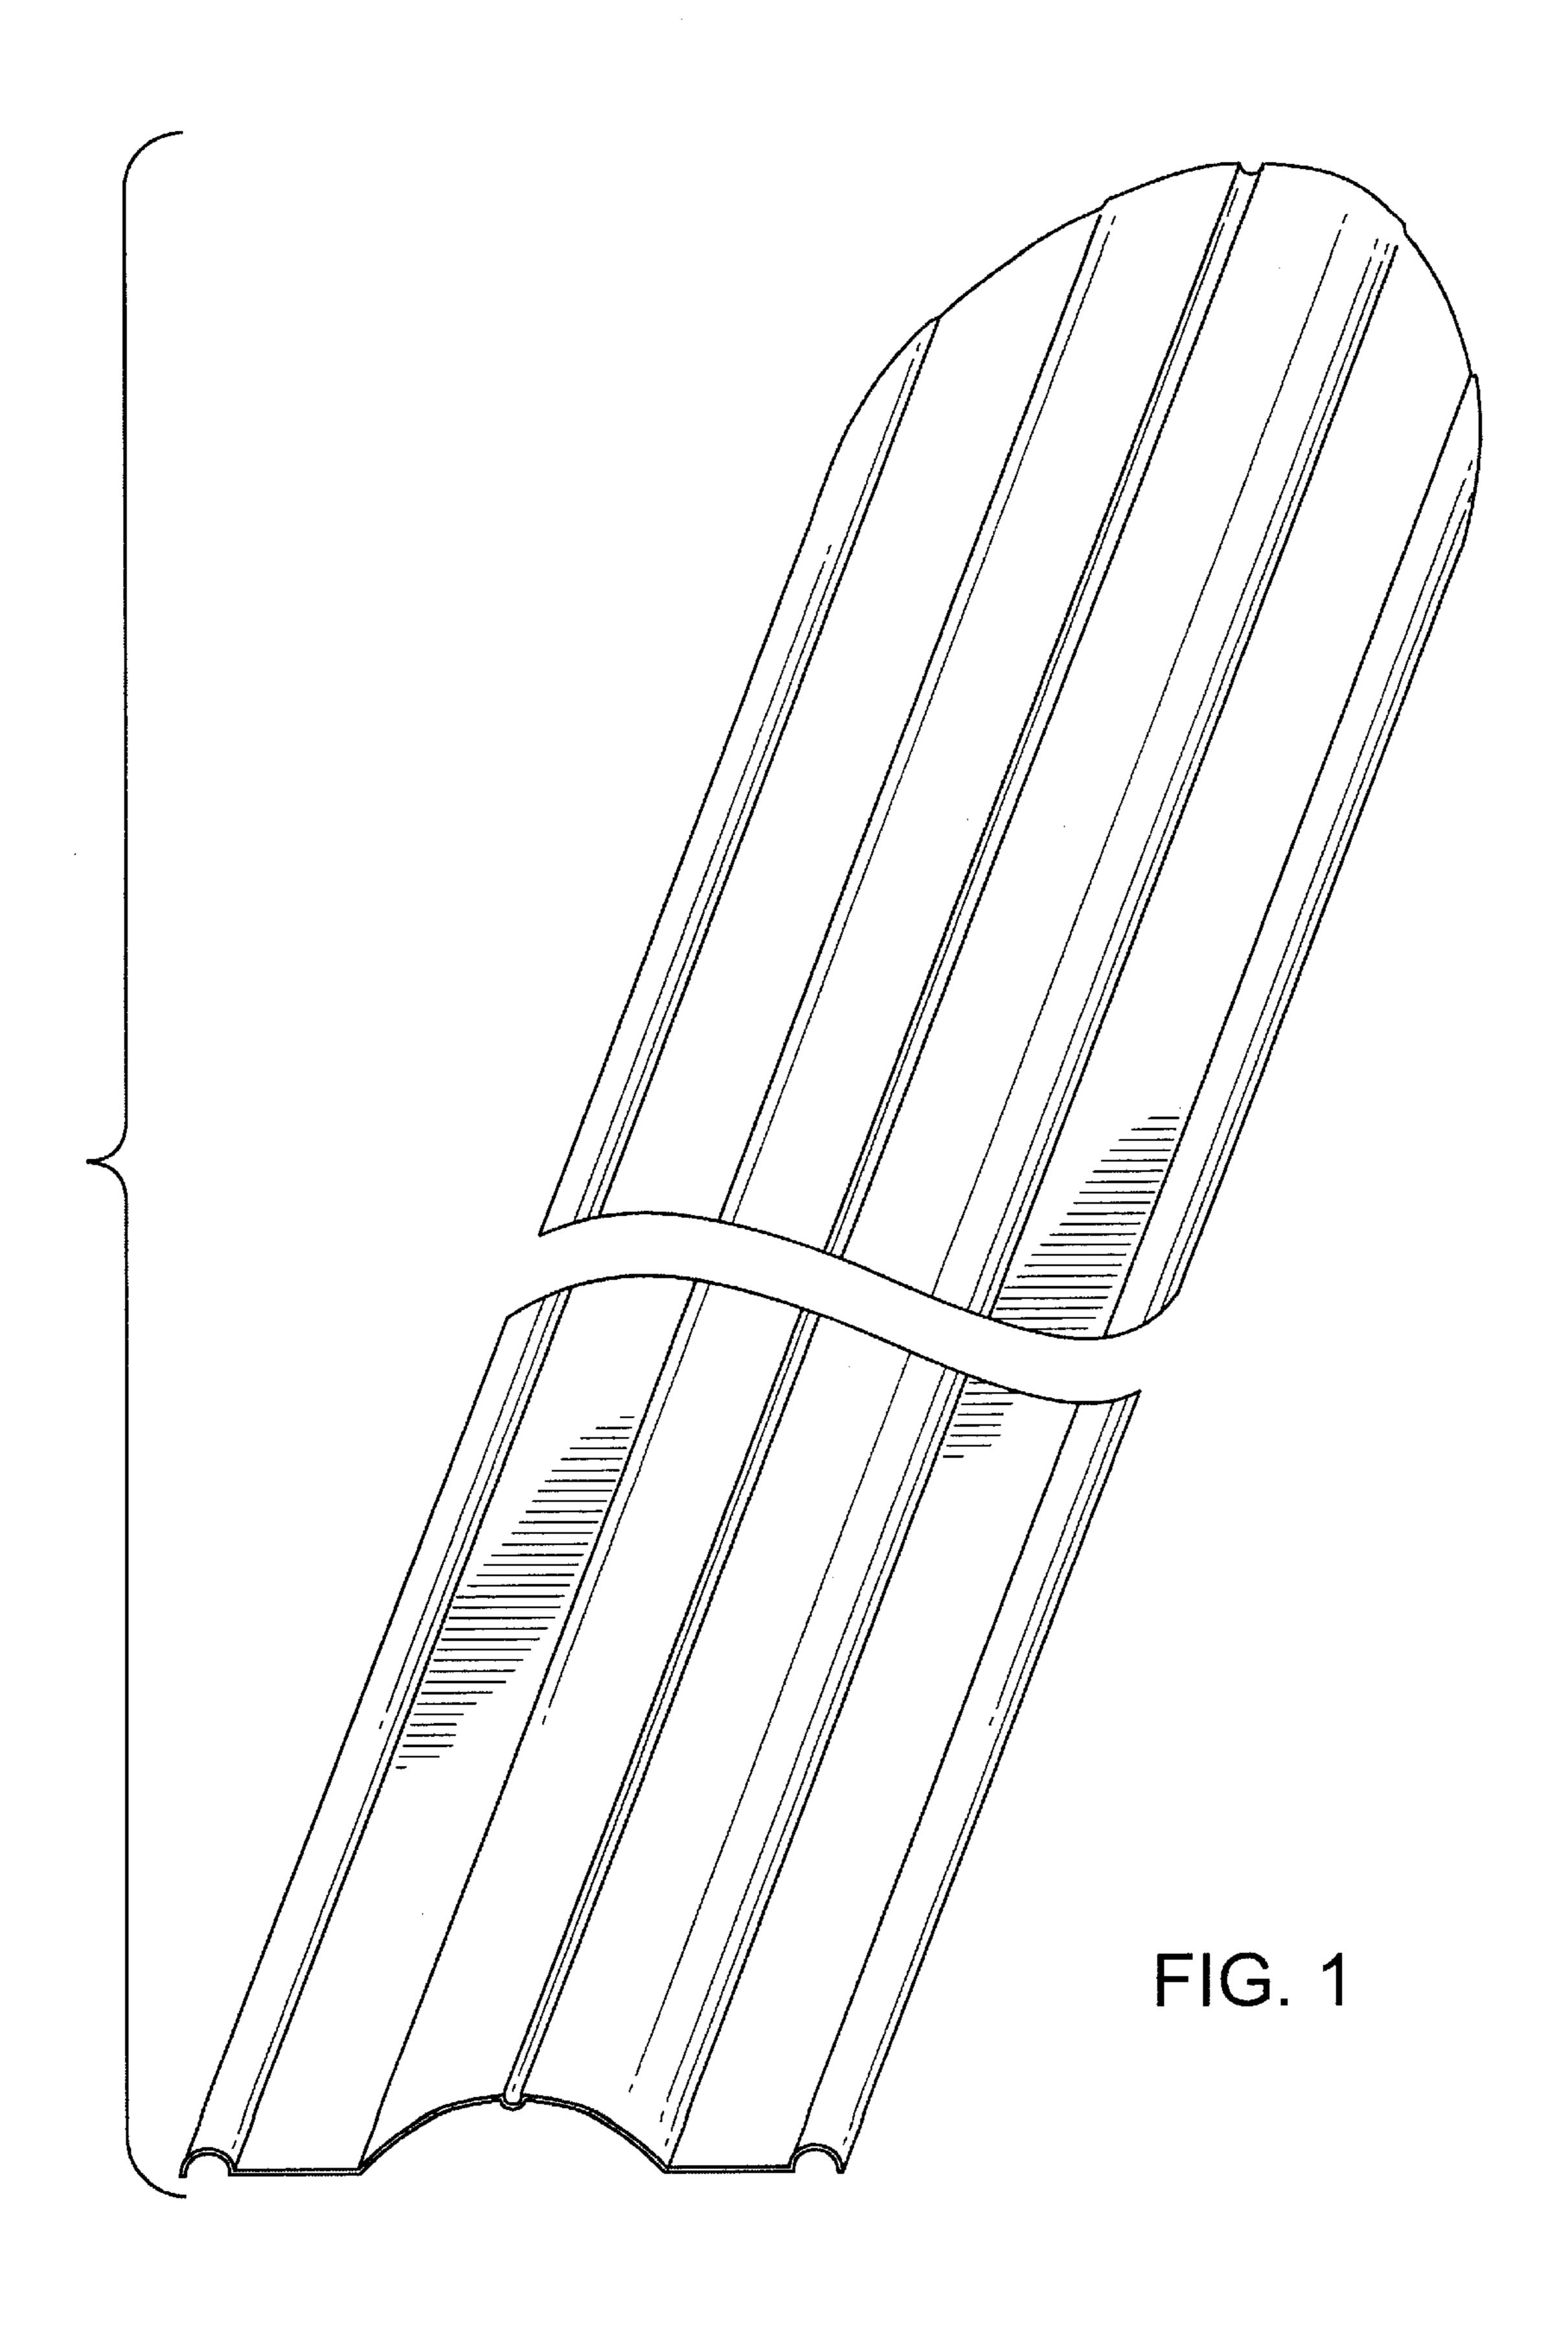

FIG. 1 is a perspective view of the fence post of the present invention with a break-away to illustrate an indeterminant length feature of the fence post of the present invention; FIG. 2 is a top view of the fence post shown in of FIG. 1;

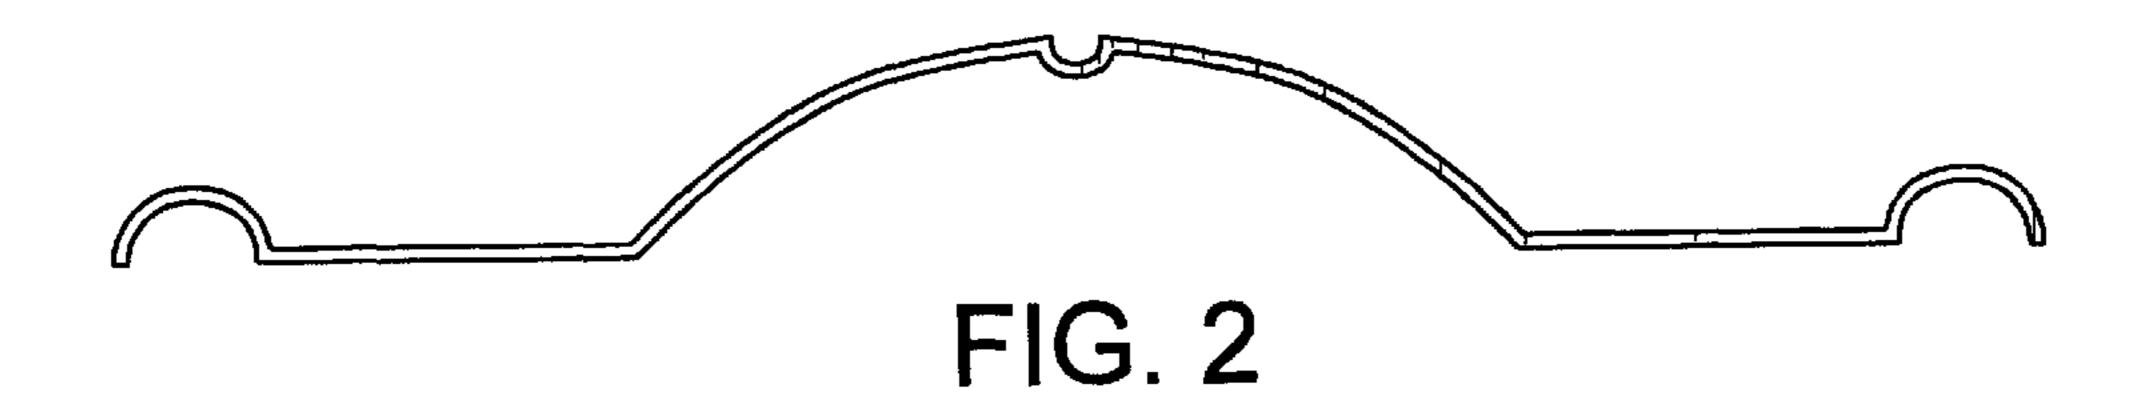

FIG. 3 is a bottom view of the fence post shown in of FIG. 1:

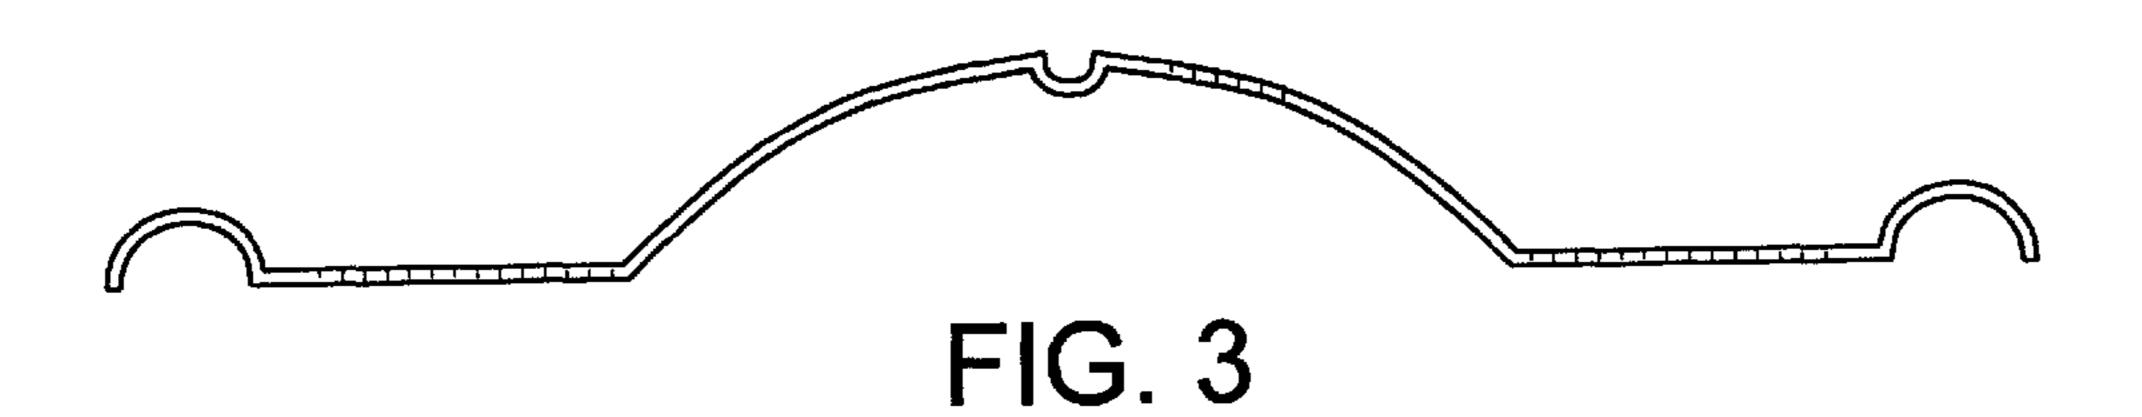

FIG. 4 is a front elevational view of the fence post shown in FIG. 1, with a break-away to illustrate an indeterminant length feature of the fence post of the present invention; FIG. 5 is a rear elevational view of the fence post shown in FIG. 1, with a break-away to illustrate an indeterminant length feature of the fence post of the present invention; and, FIG. 6 is a right side elevational view of the fence post shown in FIG. 1, the left side elevational view being a mirror image thereof, with a break-away to illustrate an indeterminant length feature of the fence post of the present invention.

1 Claim, 5 Drawing Sheets

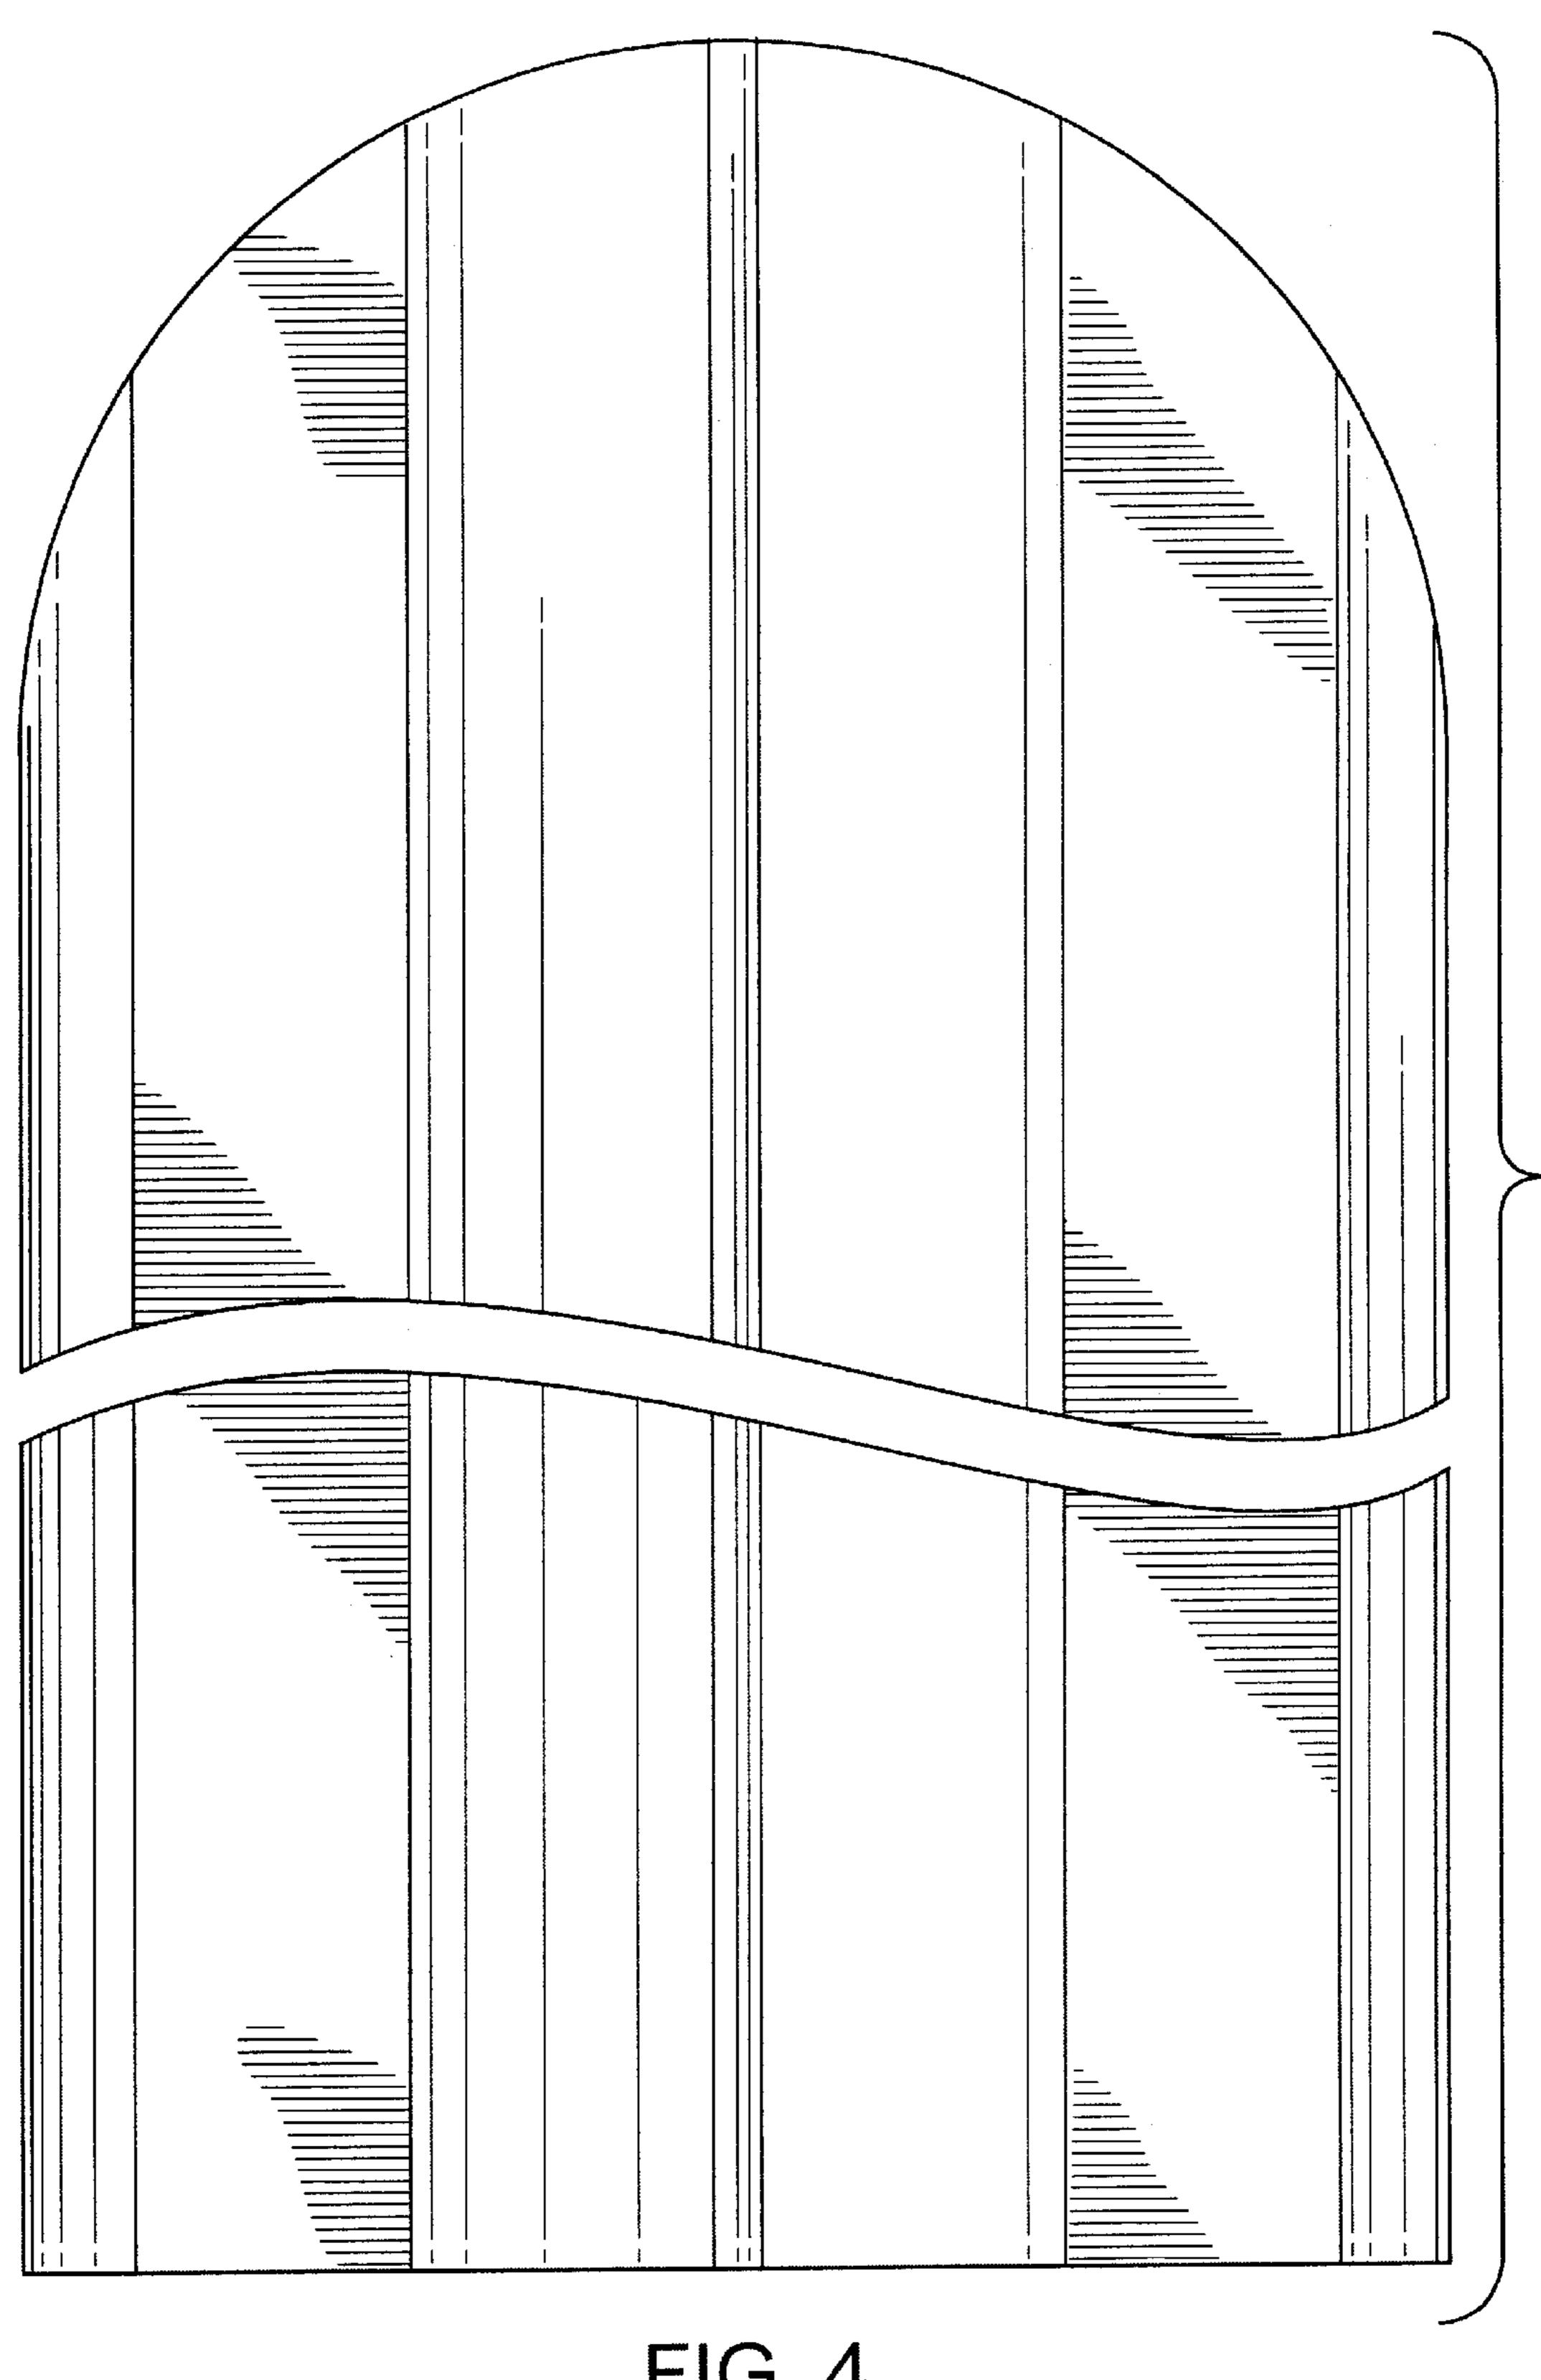

FIG. 4
