(57) **CLAIM**

I claim the ornamental design of a construction beam, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of the construction beam showing my new design, the construction beam being of indeterminate length.
FIG. 2 is a front elevation of the design shown in FIG. 1. The front and rear views of this first embodiment of the construction beam are identical.
FIG. 3 is a side elevation of the construction beam shown in FIG. 1. The right and left sides of this first embodiment of the construction beam are identical.
FIG. 4 is a top plan view of the construction beam shown in FIG. 1.
FIG. 5 is a bottom plan view of the construction beam shown in FIG. 1.
FIG. 6 is a perspective view of a second embodiment of the construction beam showing my new design, the construction beam being of indeterminate length.
FIG. 7 is a front elevation of the design shown in FIG. 6. The front and rear views of this second embodiment of the construction beam are identical.
FIG. 8 is a side elevation view of the construction beam shown in FIG. 6. The right and left sides of this second embodiment of the construction beam are identical.
FIG. 9 is a top plan view of the construction beam shown in FIG. 6; and,
FIG. 10 is a bottom plan view of the construction beam shown in FIG. 6.
