(57) CLAIM

The ornamental design for a bottle, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bottle according to a first preferred embodiment of the new design. The portions of the bottle that are shown in broken lines are for illustrative purposes only and forms no part of the claimed design.

FIG. 2 is a left-side elevation view of the design shown in FIG. 1.

FIG. 3 is a front elevation view of the design shown in FIG. 1.

FIG. 4 is a right-side elevation view of the design shown in FIG. 1.

FIG. 5 is a back elevation view of the design shown in FIG. 1.

FIG. 6 is a top plan view of the design shown in FIG. 1.

FIG. 7 is a bottom plan view of the design shown in FIG. 1.

FIG. 8 is a perspective view of a bottle according to a second preferred embodiment of the new design. The portions of the bottle that are shown in broken lines are for illustrative purposes only and forms no part of the claimed design.

FIG. 9 is a left-side elevation view of the design shown in FIG. 8.

FIG. 10 is a front elevation view of the design shown in FIG. 8.

FIG. 11 is a right-side elevation view of the design shown in FIG. 8.

FIG. 12 is a back elevation view of the design shown in FIG. 8.

FIG. 13 is a top plan view of the design shown in FIG. 8.

FIG. 14 is a bottom plan view of the design shown in FIG. 8.

FIG. 15 is a perspective view of a bottle according to a third preferred embodiment of the new design. The portions of the bottle that are shown in broken lines are for illustrative purposes only and form no part of the claimed design.

FIG. 16 is a left-side elevation view of the design shown in FIG. 15.

FIG. 17 is a front elevation view of the design shown in FIG. 15.

FIG. 18 is a right-side elevation view of the design shown in FIG. 15.

FIG. 19 is a back elevation view of the design shown in FIG. 15.

FIG. 20 is a top plan view of the design shown in FIG. 15.

FIG. 21 is a bottom plan view of the design shown in FIG. 15.

FIG. 22 is a perspective view of a fourth preferred embodiment of the new design. The portions of the bottle that are shown in broken lines are for illustrative purposes only and form no part of the claimed design.

FIG. 23 is a left-side elevation view of the design shown in FIG. 22.

FIG. 24 is a front elevation view of the design shown in FIG. 22.

FIG. 25 is a right-side elevation view of the design shown in FIG. 22.

FIG. 26 is a back elevation view of the design shown in FIG. 22.

FIG. 27 is a top plan view of the design shown in FIG. 22; and,

FIG. 28 is a bottom plan view of the design shown in FIG. 22.

Each of the embodiments of the new design is preferably glass, which may be substantially opaque or substantially translucent, but is preferably substantially translucent. In one embodiment, the new design is preferably translucent brown glass. The broken lines shown in FIGS. 1–28, which depict the neck and top of the bottle with circumferential raised cartouche surface, represents a feature which may be provided in an alternative embodiment of the new design. In another alternative embodiment of the new design not shown, the neck and top of the bottle may be in the form a smooth transition between the neck and top without a raised circumferential surface.
