(57) **CLAIM**

The ornamental design for a data storage device, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric front view of the data storage device. FIG. 2 is a front view of the data storage device. FIG. 3 is a back view of the data storage device. FIG. 4 is a right view of the data storage device. FIG. 5 is a left view of the data storage device. FIG. 6 is a top view of the data storage device; and, FIG. 7 is a bottom view of the data storage device.

The portions of the drawings of the data storage device shown in broken line portions are for illustrative purposes and form no part of the claimed design.

The data storage device is attachable to a host computer so that the host computer can access one or more storage elements within the device.
